Posthegemony Jon Beasley-Murray,2010 A challenging new work of cultural and political theory rethinks the concept of hegemony From Poverty to Power, 2nd Edition Duncan Green,2012 From Poverty to Power argues that a radical redistribution of power opportunities and assets rather than traditional models of charitable or government aid is required to break the cycle of poverty and inequality The forces driving this transformation are active citizens and effective states Published in association with Oxfam GB Learning Civil Societies Penelope Cheryl Gurstein,2007-01-01 This collection explores the theoretical underpinnings of democratic planning and governance in relation to civil society formation and social learning **Civil Society in Comparative Perspective** Bernard Enjolras,Karl Henrik Sivesind,2009-12-01 Presents a collection of comparative studies of civil society around two main issues the comparison and analysis of civil society regimes in relation to different constructions of citizenship and welfare states and the role of civil society in governance and active participation of citizens **Willing Citizens And the Making of the Good Society**,2007 **IBSS: Political Science: 2002 Vol.51** Compiled by the British Library of Political and Economic Science,2004-03-01 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Place your standing order now for the 2002 volumes of the the IBSS Anthropology 2002 Vol 48 December 2002 234x156 0 415 32634 6 u195 00 Economics 2002 Vol 51 December 2002 234x156 0 415 32635 4 u195 0 0 Political Science 2002 Vol 51 December 2002 234x156 0 415 32636 2 u195 00 Sociology 2002 Vol 52 December 2002 234x156 0 415 32637 0 u195 00 *Participatory Citizenship* Ranjita Mohanty,Rajesh Tandon,2006-03-29 Papers presented at the Conference on Citizenship and Governance Issues of Identity Inclusion and Voice held at Delhi in February 2003 **Bringing Citizen Voices to the Table** Carolyn J. Lukensmeyer,2012-11-07 This important resource offers seven field tested strategies for public managers to help them maximize citizen engagement as

they implement the President's Open Government Directive The Core Strategies for Citizen Engagement are Establish Links to Decision Makers Ensure Demographic Diversity Create Opportunities for Informed Participation Maximize Tools of Facilitated Deliberation Discover Shared Priorities Establish Clear Recommendations for Action and Sustain Citizen Engagement The book includes project and leadership case studies from major federal agencies that elucidate the seven strategies in the context of real world issues and challenges Transforming Parks and Protected Areas Kevin S. Hanna, Douglas A. Clark, D. Scott Slocum, 2007-10-18 A rare collection of articles that fuses academic theory critique of practice and practical knowledge Transforming Parks and Protected Areas analyzes and critiques the emerging issues in the design and operation of parks and protected areas **The Ministry of Public Input** J. Lees-Marshment, 2015-01-13 As political leaders acknowledge the limits of their power they increasingly integrate constructive input from inside and outside government into their decision making A Ministry or Commission of Public Input is necessary to collect process and communicate input more effectively and politicians need to work with the public to identify solutions **Public Happiness** Seung Jong Lee, 2021-11-18 We all strive for personal happiness in one way or another but what about public happiness What does public happiness mean and what role can governments and public policies play The current COVID 19 pandemic has highlighted the inadequacies of old governance paradigms and even before this pandemic increasing inequalities and frustration with the old GDP centric growth paradigm have fueled dissatisfaction with and distrust of governments This book suggests a new path towards public happiness as a potential solution The book builds a theory of public happiness as a distinct concept from individual happiness borrowing especially from Eastern philosophy It provides an overview of the efforts so far to go beyond GDP including measurement and exploration of the determinants of happiness and how these efforts have fallen short of expectation Lastly the book sketches out what a public happiness policy might look like and identifies the factors of a successful happiness policy *Carole Pateman* Terrell Carver, Samuel Chambers, 2013-03 Carole Pateman's writings have been innovative precisely for their qualities of engagement pursued at the height of intellectual rigour This book draws from her vast output of articles chapters books and speeches to provide a thematic yet integrated account of her innovations in political theory and contributions to the politics of policy making The editors have focused on work in three key areas Democracy Pateman's perspective is rooted in a practical perspective enquiring into and speculating about forms of participation over and above the traditional exclusions through which representative systems have been variously constructed over time Her work pushes hard on theorists and politicians who make easy assumptions about apathy and public opinion who bracket off the workplace and the home and who see politics only in partisan activity voter behaviour and governmental policy Women Pateman's innovative and still cited work on participation antedates the feminist revolution in political theory and many of the practical struggles that developed through the later 1970s While woman centred her concerns were always worked through larger conceptions of social class economic advantage power differentials liberal

individualism and contracts including marriage Her feminism was innovative in political theory and within feminism itself As a feminist Pateman defies categorization and her concepts of the sexual contract and Wollstonecraft's dilemma are canonical Welfare Pateman's innovation here is an integration of welfare issues in particular the proposals for a basic income or for a capital stake into her broad but always rigorous conception of democracy This is argued through in terms of citizenship taken as the result of a social contract In that way Pateman puts liberalism itself through an imminent critique drawing in the practicalities and risks of life in late capitalist societies Her theory as always is political taking in neo liberal attacks on welfare states and the stark realities of international inequalities Pateman's career achievements in democratic and feminist theory are brought productively to bear on debates that would otherwise occur in more limited and less provocative academic and political contexts
