The Revolution of 1911 Caishi Dong,1991 **The Revolution of 1911** Bowei Lu,Guoping Wang,1991 Development of Modern Chinese Foreign Policy Thought Ivica Bakota,Zvonimir Stopić,Mato Njavro,2024-11-15 This book presents a comprehensive exploration of China's foreign policy evolution from the early twentieth century to the contemporary era. The intricate interplay between the People's Republic of China, the Chinese Communist Party (CCP), and the global stage is meticulously traced, offering a nuanced understanding of China's dynamic engagement with the world. With a detailed analysis spanning eight chapters, the book delves into the contextual factors that influenced the CCP's initial foreign policy ideas prior to the establishment of the People's Republic. It systematically unravels the gradual development of these ideas during the Cold War era and unveils the fundamental and adaptive trajectories that have shaped China's foreign policy landscape over the past three decades. Utilizing primary sources and academic texts, the book incorporates both Chinese and global perspectives to shed new light on the evolution of Chinese foreign policy thought, making it an invaluable contribution to the study of China's global interactions. The authors uniquely bridge the gap between different stages of China's foreign policy development across a centennial timeframe, offering an organic perspective on its growth and their comprehensive analysis of China's foreign policy toolset adds a distinctive dimension to existing knowledge. By steering clear of preconceived notions, the book delivers a well-rounded analysis of China's foreign policy evolution.

Chinese Medicine in Early Communist China, 1945-1963 Kim Taylor,2004-08-02 Using original sources, this significant text looks at the transformation of Chinese medicine from a marginal side-lined medical practice of the early twentieth century to an essential and high-profile part of the national health care system under the Chinese Communist Party. The political, economic, and social motives which drove this promotion are analyzed, and the extraordinary role that Chinese medicine was meant to play in Mao Zedong's revolution is fully explored for the first time, making a major contribution to the history of Chinese medicine.

providing absorbing insights into Chinese reflections of late Haipeng Zhang and Jinyi Zhai provide us with a history of China's struggle for national independence and prosperity reflecting the humiliation in the sinking period and the struggle during the rising period. The Lost Geopoetic Horizon of Li Jieren Kenny Kwok-kwan Ng, 2015-03-10 Engaged with the paradigms of cultural geography, local history, spatial politics and everyday life, *The Lost Geopoetic Horizon of Li Jieren* unveils a Sichuan writer's lifelong quest, an independent historical fiction writing project on Chengdu from the turn of the century through China's 1911 Revolution. Kenny Kwok-kwan Ng's study illuminates the crisis of writing home in a globalized age by rescuing Li Jieren's repeatedly revised but never finished river novel series written from Republican to Communist China, struggling to liberate local memory from the national cum revolutionary currents. The book undercuts official historiography and rewrites Chinese literary history from the ground up by highlighting Li's resilient geopoetics of writing that decenters the nation by adopting the place-based view of a distant province.

The Global Rise of China and Asia Abdul Razak Baginda, 2022-02-08 This book posits an alternative narrative to China's rise by focusing on its impact on Asia. China's rapid rise as a multidimensional power is felt in all corners of the world and poses a direct challenge to the supremacy of the United States, which has held the status of a primary superpower ever since the end of the Cold War. For the most part, Asian countries want to avoid being dragged into this great power rivalry, preferring to adopt a more balanced and pragmatic approach. While a recognition of China's greatness does not necessarily place states in a subservient position, the author argues that the most prudent approach for Asian nations is to avoid being caught in the middle of the US-China rivalry, as this allows them to derive benefits from both sides.

Foreign Banks and Global Finance in Modern China Ghassan Moazzin, 2022-07-07 In this wide-ranging study, Ghassan Moazzin sheds critical new light on the history of foreign banks in late nineteenth and early twentieth-century China, a time that saw a substantial influx of foreign financial institutions into China and a rapid increase of both China's foreign trade and its interactions with international capital markets. Drawing on a broad range of German, English, Japanese, and Chinese primary sources, including business records, government documents, and personal papers, Moazzin reconstructs how during this period foreign banks facilitated China's financial integration into the first global economy and provided the financial infrastructure required for modern economic globalization in China. *Foreign Banks and Global Finance in Modern China* shows the key role international finance and foreign banks and capital markets played at important turning points in modern Chinese history.
