The 25 Sitcoms That Changed Television Aaron Barlow,Laura Westengard,2017-12-01 This book spotlights the 25 most important sitcoms to ever air on American television shows that made generations laugh challenged our ideas regarding gender family race marital roles and sexual identity and now serve as time capsules of U S history What was the role of *The Jeffersons* in changing views regarding race and equality in America in the 1970s How did *The Golden Girls* affect how society views older people Was *The Office* an accurate if exaggerated depiction of the idiosyncrasies of being employees in a modern workplace How did the writers of *The Simpsons* make it acceptable to air political satire through the vehicle of an animated cartoon ostensibly for kids Readers of this book will see how television situation comedies have consistently held up a mirror for American audiences to see themselves and the reflections have not always been positive or purely comedic The introduction discusses the history of sitcoms in America identifying their origins in radio shows and explaining how sitcom programming evolved to influence the social and cultural norms of our society The shows are addressed chronologically in sections delineated by decade Each entry presents background information on the show including the dates it aired key cast members and the network explains why the show represents a notable turning point in American television and provides an analysis of each sitcom that considers how the content was received by the American public and the lasting effects on the family unit gender roles culture for young adults and minority and LGBT rights The book also draws connections between important sitcoms and other shows that were influenced by or strikingly similar to these trendsetting programs Lastly a section of selections for further reading points readers to additional resources **Laughing Mad** Bambi Haggins,2007 In *Laughing Mad* Bambi Haggins looks at how this transition occurred in a variety of media and shows how this integration has paved the way for black comedians and their audiences to affect each other Historically African American performers have

been able to use comedy as a pedagogic tool interjecting astute observations about race relations while the audience is laughing And yet Haggins makes the convincing argument that the potential of African American comedy remains fundamentally unfulfilled as the performance of blackness continues to be made culturally digestible for mass consumption

Abjection Incorporated Maggie Hennefeld, Nicholas Sammond, 2020-01-17 From the films of Larry Clark to the feminist comedy of Amy Schumer to the fall of Louis C K comedic graphic and violent moments of abjection have permeated twentieth and twenty first century social and political discourse The contributors to *Abjection Incorporated* move beyond simple critiques of abjection as a punitive form of social death illustrating how it has become a contested mode of political and cultural capital empowering for some but oppressive for others Escaping abjection's usual confines of psychoanalysis and aesthetic modernism core to theories of abjection by thinkers such as Kristeva and Bataille the contributors examine a range of media including literature photography film television talking dolls comics and manga Whether analyzing how comedic abjection can help mobilize feminist politics or how expressions of abjection inflect class race and gender hierarchies the contributors demonstrate the importance of competing uses of abjection to contemporary society and politics They emphasize abjection's role in circumscribing the boundaries of the human and how the threats abjection poses to the self and other far from simply negative open up possibilities for radically new politics Contributors Meredith Bak Eugenie Brinkema James Leo Cahill Michelle Cho Maggie Hennefeld Rob King Thomas Lamarre Sylv re Lotringer Rijuta Mehta Mark Mulroney Nicholas Sammond Yiman Wang Rebecca Wanzo *Screening Race in American Nontheatrical Film* Allyson Nadia Field, Marsha Gordon, 2019-11-15 The contributors to *Screening Race in American Nontheatrical Film* examine the place and role of race in educational films home movies industry and government films anthropological films church films and other forms of noncommercial filmmaking throughout the twentieth century *Ethnic Humor in Multiethnic America* David Gillota, 2013-07-01 When wielded by the white majority ethnic humor can be used to ridicule and demean marginalized groups In the hands of ethnic minorities themselves ethnic humor can work as a site of community building and resistance In nearly all cases however ethnic humor can serve as a window through which to examine the complexities of American race relations In *Ethnic Humor in Multiethnic America* David Gillota explores the ways in which contemporary comic works both reflect and participate in national conversations about race and ethnicity Gillota investigates the manner in which various humorists respond to multiculturalism and the increasing diversity of the American population Rather than looking at one or two ethnic groups at a time as is common scholarly practice the book focuses on the interplay between humorists from different ethnic communities While some comic texts project a fantasy world in which diverse ethnic characters coexist in a rarely disputed harmony others genuinely engage with the complexities and contradictions of multiethnic America The first chapter focuses on African American comedy with a discussion of such humorists as Paul Mooney and Chris Rock who tend to reinforce a black white vision of American race relations This approach is contrasted to the comedy of Dave Chappelle who

looks beyond black and white and uses his humor to place blackness within a much wider multiethnic context Chapter 2 concentrates primarily on the Jewish humorists Sarah Silverman Larry David and Sacha Baron Cohen three artists who use their personas to explore the peculiar position of contemporary Jews who exist in a middle space between white and other In chapter 3 Gillota discusses different humorous constructions of whiteness from a detailed analysis of South Park to Blue Collar Comedy and the blog Stuff White People Like Chapter 4 is focused on the manner in which animated children s film and the network situation comedy often project simplified and harmonious visions of diversity In contrast chapter 5 considers how many recent works such as Harold and Kumar Go to White Castle and the Showtime series Weeds engage with diversity in more complex and productive ways

Who Got the Camera? Eric Harvey, 2021-10-05 Reality first appeared in the late 1980s in the sense not of real life but rather of the TV entertainment genre inaugurated by shows such as Cops and America s Most Wanted the daytime gabfests of Geraldo Oprah and Donahue and the tabloid news of A Current Affair In a bracing work of cultural criticism Eric Harvey argues that reality TV emerged in dialog with another kind of entertainment that served as its foil while borrowing its techniques gangsta rap Or as legendary performers Ice Cube and Ice T called it reality rap Reality rap and reality TV were components of a cultural revolution that redefined popular entertainment as a truth telling medium Reality entertainment borrowed journalistic tropes but was undiluted by the caveats and context that journalism demanded While N W A s Fuck tha Police countered Cops vision of Black lives in America the reality rappers who emerged in that group s wake such as Snoop Doggy Dogg and Tupac Shakur embraced reality s visceral tabloid sensationalism using the media s obsession with Black criminality to collapse the distinction between image and truth Reality TV and reality rap nurtured the world we live in now where politics and basic facts don t feel real until they have been translated into mass mediated entertainment

The Flip Wilson Show Meghan Sutherland, 2008-01-09 Analyzes the social political and institutional context of The Flip Wilson Show which ran on NBC between 1970 and 1974 When The Flip Wilson Show debuted on NBC in 1970 the major legislative victories of the civil rights movement had been won but the broadcast airwaves were far from integrated A handful of shows featured black leading characters but none had quite reached the top spot of the Nielsen ratings By 1971 however Wilson s old fashioned comedy variety hour was a bonafide hit and in January 1972 Time magazine declared Wilson TV s First Black Superstar In this volume Meghan Sutherland examines how The Flip Wilson Show succeeded in the volatile racial and economic milieu of the early 1970s and how its success shaped the prevailing codes of black performance and political discourse on television In particular Sutherland examines the ambivalence that pervades discussions of Wilson s outlandish performance style discussions that generally treat the question of whether his characters lampooned or simply reprised the stereotypes of minstrelsy as a problem for reception studies Sutherland argues that this ambivalence was actually the basis of the show s wide appeal and must thus be understood as an aesthetic strategy rather than as a mere effect of different viewers interpretations Along these same lines she asserts that

Wilson used the non naturalistic aesthetics of variety performance in order to mount a critique of realist race sitcoms of the period on the one hand and the discourse of authentic masculinity that accompanied the rise of Black Power on the other. Finally she considers how the show used its integrated studio audience to stage the reconstitution of one big happy broadcast audience after the social racial and political upheavals of the late 1960s. *The Flip Wilson Show* is the most detailed study of Wilson's variety show in its cultural and institutional context. This volume elucidates the characteristics of the variety genre that continue to make it a popular medium for political discourse in fractious social moments. In this way it offers a fresh approach to understanding the enduring importance of the variety genre for black comedians from Richard Pryor to the Wayans Brothers to Dave Chappelle and for television in general. Scholars of film and television studies will appreciate this newest addition to the TV Milestones Series.

The Cultural Politics of Colorblind TV Casting Kristen J. Warner, 2015-06-05. This book fills a significant gap in the critical conversation on race in media by extending interrogations of racial colorblindness in American television to the industrial practices that shape what we see on screen. Specifically it frames the practice of colorblind casting as a potent lens for examining the interdependence of 21st century post racial politics and popular culture. Applying a production as culture approach to a series of casting case studies from American primetime dramatic television including ABC's *Grey's Anatomy* and The CW's *The Vampire Diaries*, Kristen Warner complicates our understanding of the cultural processes that inform casting and expounds the aesthetic and pragmatic industrial viewpoints that perpetuate limiting or downright exclusionary hiring norms. She also examines the material effects of actors of color who knowingly participate in this system and justify their limited roles as a consequence of employment and finally speculates on what alternatives, if any, are available to correct these practices. Warner's insights are a valuable addition to scholarship in media industry studies, critical race theory, ethnic studies, and audience reception and will also appeal to those with a general interest in race in popular culture.

Watching While Black Beretta E. Smith-Shomade, 2013-01-10. Television scholarship has substantially ignored programming aimed at Black audiences despite a few sweeping histories and critiques. In this volume the first of its kind, contributors examine the televisual diversity complexity and cultural imperatives manifest in programming directed at a Black and marginalized audience. *Watching While Black* considers its subject from an entirely new angle in an attempt to understand the lives, motivations, distinctions, kindred lines, and individuality of various Black groups and suggest what television might be like if such diversity permeated beyond specialized enclaves. It looks at the macro structures of ownership, producing, casting, and advertising that all inform production and then delves into television programming crafted to appeal to black audiences, historic and contemporary, domestic and worldwide. Chapters rethink such historically significant programs as *Roots* and *Black Journal*, such seemingly innocuous programs as *Fat Albert* and *bro Town*, and such contemporary and culturally complicated programs as *Noah's Arc*, *Treme*, and *The Boondocks*. The book makes a case for the centrality of these programs while always recognizing the racial dynamics that continue to shape
