examines the pandemic's global impacts on public health, economies, society, and labor. The book shows how COVID-19 intensified natural and anthropogenic hazards and destroyed years of communities, governments, and the work of development organizations and their investments. It focuses on how disaster resilience is central to achieving the 2030 Sustainable Development Goals in a post-COVID-19 era. Sections cover current governance practices with special attention given to Asia's more successful responses. It shows how the various sectors across that society were most impacted by COVID-19, including tourism and food systems. This book is an essential reference for researchers and practitioners who need to understand response, preparedness, and future pathways for pandemic resilience. Showcases risk governance at local, national, and regional scales. Captures multidisciplinary and multi-sectoral insights through numerous case studies. Uniquely addresses in a comprehensive and structured manner risk governance methodologies.
