Security in the Information Society M. Adeeb Ghonaimy, Mahmoud T. El-Hadidi, Heba K. Aslan, 2012-12-06 Recent advances in technology and new software applications are steadily transforming human civilization into what is called the Information Society This is manifested by the new terminology appearing in our daily activities E Business E Government E Learning E Contracting and E Voting are just a few of the ever growing list of new terms that are shaping the Information Society Nonetheless as Information gains more prominence in our society the task of securing it against all forms of threats becomes a vital and crucial undertaking Addressing the various security issues confronting our new Information Society this volume is divided into 13 parts covering the following topics Information Security Management Standards of Information Security Threats and Attacks to Information Education and Curriculum for Information Security Social and Ethical Aspects of Information Security Information Security Services Multilateral Security Applications of Information Security Infrastructure for Information Security Advanced Topics in Security Legislation for Information Security Modeling and Analysis for Information Security Tools for Information Security Security in the Information Society Visions and Perspectives comprises the proceedings of the 17th International Conference on Information Security SEC2002 which was sponsored by the International Federation for Information Processing IFIP and jointly organized by IFIP Technical Committee 11 and the Department of Electronics and Electrical Communications of Cairo University The conference was held in May 2002 in Cairo Egypt

Security and Privacy in the Age of Ubiquitous Computing Ryoichi Sasaki, Eiji Okamoto, Hiroshi Yoshiura, 2010-06-03 Even in the age of ubiquitous computing the importance of the Internet will not change and we still need to solve conventional security issues In addition we need to deal with new issues such as security in the P2P environment privacy issues in the use of smart cards and RFID systems Security and Privacy in the Age of Ubiquitous Computing addresses these issues and more by exploring a wide scope of topics The volume presents a selection of papers from the proceedings of the 20th IFIP International Information Security Conference held from May 30 to June 1 2005 in Chiba Japan Topics covered include cryptography applications authentication privacy and anonymity DRM and content security computer forensics Internet and web security security in sensor networks intrusion detection commercial and industrial security authorization and access control information warfare and critical protection infrastructure These papers represent the most current research in information security including research funded in part by DARPA and the National Science Foundation

Encyclopedia of Cryptography, Security and Privacy Sushil Jajodia, Pierangela Samarati, Moti Yung, 2025-01-10 A rich stream of papers and many good books have been written on cryptography security and privacy but most of them assume a scholarly reader who has the time to start at the beginning and work his way through the entire text The goal of Encyclopedia of Cryptography Security and Privacy Third Edition is to make important notions of cryptography security and privacy accessible to readers who have an interest in a particular concept related to these areas but who lack the time to

study one of the many books in these areas The third edition is intended as a replacement of Encyclopedia of Cryptography and Security Second Edition that was edited by Henk van Tilborg and Sushil Jajodia and published by Springer in 2011 The goal of the third edition is to enhance on the earlier edition in several important and interesting ways First entries in the second edition have been updated when needed to keep pace with the advancement of state of the art Second as noticeable already from the title of the encyclopedia coverage has been expanded with special emphasis to the area of privacy Third considering the fast pace at which information and communication technology is evolving and has evolved drastically since the last edition entries have been expanded to provide comprehensive view and include coverage of several newer topics
