Jean E. Howard, 2011-06-03 Arguing that the commercial stage depended on the unprecedented demographic growth and commercial vibrancy of London to fuel its own development Jean E Howard posits a particular synergy between the early modern stage and the city in which it flourished In London comedy place functions as the material arena in which social relations are regulated urban problems negotiated and city space rendered socially intelligible Rather than simply describing London the stage participated in interpreting it and giving it social meaning Each chapter of this book focuses on a particular place within the city the Royal Exchange the Counters London s warehouses and its academies of manners and examines the theater s role in creating distinctive narratives about each In these stories specific locations are transformed into venues defined by particular kinds of interactions whether between citizen and alien debtor and creditor prostitute and client or dancing master and country gentleman Collectively they suggest how city space could be used and by whom and they make place the arena for addressing pressing urban problems demographic change and the influx of foreigners and strangers into the city new ways of making money and losing it changing gender roles within the metropolis and the rise of a distinctive town culture in the West End Drawing on a wide range of familiar and little studied plays from four decades of a defining era of theater history Theater of a City shows how the stage imaginatively shaped and responded to the changing face of early modern London Commercial and Financial Chronicle ,1899 Buffalo City Directory ,1893 Historical papers are prefixed to several issues **The Official Railway Equipment Register** ,1912 **Alcohol, Drug Abuse, Mental Health, Research Grant Awards** ,1973 *Ordinances and Rules and Orders of the City of Boston* Anonymous, 2022-05-09 Reprint of the original first published in 1869 **T&T Clark Handbook of Political Theology** Rubén Rosario Rodríguez, 2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of students and scholars **Violent Acts and Urban Space in Contemporary Tel Aviv** Tali Hatuka, 2010-05-01 Violent acts over the past fifteen years have profoundly altered civil rituals cultural identity and the meaning of place in Tel Aviv Three events in particular have shed light on the global rule of urban space in the struggle for territory resources and power the assassination of Prime Minister Rabin in 1995 in the city council square the suicidal bombing at the Dolphinarium Discoth que along the shoreline in 2001 and bombings in the Neve Shaanan neighborhood in 2003 Tali Hatuka uses an interdisciplinary framework of urban theory and sociopolitical theory to shed light on the discourse regarding violent events to include an analysis of the physical space where these events take place She exposes the complex relationships among local groups the state and the city challenging the national discourse by offering a fresh interpretation of contesting forces and their effect on the urban environment

Perhaps the most valuable contribution of this book is its critical assessment of the current Israeli reality which is affected by violent events that continually alter the everyday life of its citizens. Although these events have been widely publicized by the media, there is scant literature focusing on their impact on the urban spaces where people live and meet. In addition, Hatuka shows how sociopolitical events become crucial defining moments in contemporary lived experience, allowing us to examine universal questions about the way democracy, ideology, and memory are manifested in the city. *First, Do Less Harm* Vanessa Gruben, Chelsea Cox, 2025-02-25. Readers will be able to gain a deeper understanding of how different approaches to harm reduction can create a stronger foundation for more effective policies and legislation. Scholars from law and social sciences collaborate with frontline organizations as well as with individuals with lived experience to reflect diverse perspectives and transform how society addresses substance-related challenges. Each chapter provides unique findings drawing from examples of harm reduction strategies implemented for opioids, cannabis, and tobacco in Canada and beyond. While harm reduction has been a central aspect of the legal and policy responses to all three substances, its application has varied significantly. *First Do Less Harm* explores how the ongoing opioid crisis emphasizes the pressing need for safe consumption sites and life-saving tools like naloxone. Case studies on Canada's legalization of cannabis highlight both the benefits and challenges of providing legal and regulated access to a drug. The volume further examines the evolving landscape of tobacco regulations where recent innovations such as vaping offer less harmful alternatives yet raise significant concerns about youth uptake and public health. Designed for policymakers, health professionals, academics, and anyone interested in creating safer communities, this collection not only presents thought-provoking ideas but also provides inspiration to take action.

Los Angeles Transformed Tom Sitton, 2005. When Fletcher Bowron 1887-1968 ran for mayor of Los Angeles in 1938, his twelve years as a superior court judge with a reputation for honesty and fairness carried him to victory against a notoriously corrupt incumbent. During his nearly fifteen years as a neo-progressive mayor, Bowron presided over fundamental reforms in the police department, public utilities, and other agencies charged with basic services, rooting out bribery, kickbacks, and influence peddling. World War II brought economic and population booms, racial conflict, social dislocation, and environmental problems to Los Angeles, and complicated Mayor Bowron's job. After the war, Bowron initiated massive public housing and desegregation projects. These forward-looking programs alienated enough voters to cost him the 1953 election, as his leftist supporters fell away under the influence of McCarthyism. This political history of the mid-twentieth-century reform period in Los Angeles is also a case study of the ways outside events can affect municipal affairs. As Tom Sitton demonstrates, the choices made during Bowron's administration have had a direct bearing on how Los Angeles looks today and how its government operates.

The City in the City Amy Thomas, 2023-12-26. An exploration of the dramatic transformation of London's financial district after 1945, viewed at four spatial scales: city, street, facade, interior. In *The City in the City*, Amy Thomas offers the first in-depth architectural and urban history of London's financial district, the City of London.

from the period of rebuilding after World War II to the explosive climax of financial deregulation in the 1980s and its long aftermath Thomas examines abstract financial ideas political ideology and invisible markets as concrete realities working on four spatial scales city street facade and interior the book explores the grand plans hidden alleys neo Georgian elevations and sweaty dealing floors that have made the financial center work Moving from politics to sociology institutions to bodies development plans to office desks Thomas unravels the rich entanglements between the structure of the UK s financial system and the structure of the environment in which it operates Despite its physical and political centrality this period of the City s architectural history occupies an academic lacuna Longstanding prejudices about developer led architecture and the real estate industry have obscured the postwar City s relevance The book shows how as currents of local government reform nation building and globalization swept across Britain the City became an ideological battleground for debates between politicians and financial institutions real estate developers and architects preservationists and so called proactive planners throughout the latter half of the century The City of London is a place steeped in rich cultural and architectural heritage of immense national significance yet it is also a highly privileged citadel at the core of global financial networks The City in the City is both a critique and a celebration of this unique and complex place *Billboard Music Week*, 1907 *Permuted Medical Subject Headings*, 1978

The Chinese in Vancouver, 1945-80 Wing Chung Ng, 1999 Vancouver has one of the largest populations of Chinese in North America In *The Chinese in Vancouver* Wing Chung Ng captures the fascinating story of the city s Chinese residents in their search for identity between 1945 and 1980 Ng also discusses the experiences of ethnic Chinese in various Southeast Asian countries and the United States forcing a rethinking of Chineseness in the diaspora Ng juxtaposes the cultural positions of different generations of Chinese immigrants and their Canadian born descendants and unveils the ongoing struggle over the definition of being Chinese Though not denying the reality of racism Ng s account gives the Chinese people their own voice and shows that the Chinese in Vancouver had much to say and often disagreed among themselves about the meaning of being Chinese *Reports of Cases Argued and Determined in the Supreme Court of Judicature of the State of Indiana* Indiana. Values in Cities James Lesh, 2022-09-23 Examining urban heritage in twentieth century Australia James Lesh reveals how evolving ideas of value and significance shaped cities and places Over decades a growing number of sites and areas were found to be valuable by communities and professionals Places perceived to have value were often conserved Places perceived to lack value became subject to modernisation redevelopment and renewal From the 1970s alongside strengthened activism and legislation with the innovative Burra Charter 1979 the values based model emerged for managing the aesthetic historic scientific and social significance of historic environments Values thus transitioned from an implicit to an overt component of urban architectural and planning conservation The field of conservation became a noted profession and discipline Conservation also had a broader role in

celebrating the Australian nation and in reconciling settler colonialism for the twentieth century Integrating urban history and heritage studies this book provides the first longitudinal study of the twentieth century Australian heritage movement It advocates for innovative and reflexive modes of heritage practice responsive to urban social and environmental imperatives As the values based model continues to shape conservation worldwide this book is an essential reference for researchers students and practitioners concerned with the past and future of cities and heritage The Foreword and Chapter 1 Introduction of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
