

A sepia-toned photograph of a person from the chest up, wearing a dark suit jacket and a black bowler hat. The person's hands are holding a globe of the world, which is positioned in front of their chest. The globe shows the continents of North and South America, with the Atlantic Ocean in the center. The person's face is not visible, as it is obscured by the hat and the globe. The background is a solid, light brown color.

Social Justice and Increasing Global Destitution T. Y. Okosun, 2009-08-04 Social justice has long been an aspect of the human experience Communities sustain each other through its pursuit and practice yet sometimes people require the assistance of a good government committed to a responsible public policy that supports every citizen's right to opportunities and required resources In this book Okosun claims that there has been a diminution of the pursuit and practice of social justice Okosun explores impediments to the pursuit of distributive justice to show how social arrangements ideologies and specific belief patterns play significant roles in

trumping social justice and increasing global suffering. Instead, these different powerful social influences augment individualistic aspirations which detract from the critical local and global advancement of the human condition. Okosun argues that critical questioning about their position and role in the process of destitution making has the potential to move people toward each other in view of collaborative local and global transformation.

Subjectivity in Psychology in the Era of Social Justice Bethany Morris, Chase O'Gwin, Sebastienne Grant, Sakenya McDonald, 2020-02-19 The notion of social justice permeates much of current Western political and cultural discourse with a newfound urgency. What it means to be socially just is a question Morris et al investigate and interrogate looking at psychology's contributions to the subject and considering the practicality of social justice in light of modern subjectivity. The book begins by examining the lack of equity and inclusivity in education and the ways in which psychology has been complicit in the marginalization of oppressed groups. Drawing upon Lacanian theory it goes on to discuss how diversity initiatives take on an obsessive neurotic characteristic that can stifle those it claims to understand and promote. The authors investigate the anxiety around the performance of being socially just or woke and suggest how psychology can contribute to the development of socially just humans more attuned to the needs of others through the appreciation of interconnectivity and compassion. An imperative text for scholars and students of philosophical and theoretical psychology, critical psychology, social psychology, psychoanalysis, social work and education.

Justice Without Borders Kok-Chor Tan, 2004-10-28 The cosmopolitan idea of justice is commonly accused of not taking seriously the special ties and commitments of nationality and patriotism. This is because the ideal of impartial egalitarianism which is central to the cosmopolitan view seems to be directly opposed to the moral partiality inherent to nationalism and patriotism. In this book Kok-Chor Tan argues that cosmopolitan justice properly understood can accommodate and appreciate nationalist and patriotic commitments setting limits for these commitments without denying their moral significance. This book offers a defense of cosmopolitan justice against the charge that it denies the values that ordinarily matter to people and a defence of nationalism and patriotism against the charge that these morally partial ideals are fundamentally inconsistent with the obligations of global justice. Accessible and persuasive, this book will have broad appeal to political theorists and moral philosophers.
