Selected Issues In Mathematics Education:

Selected Issues in Mathematics Education Mary Montgomery Lindquist, 1980-01-01 0821111140 *Selected Issues and Problems in Social Policy* Deryck R. Brown, 1998 This is the second volume in the Consortium Graduate School's series Studies in Caribbean Public Policy and represents the results of a programme of training in multidisciplinary policy oriented research provided to graduate professionals from Caribbean countries through the MSc Development Studies degree The volume focuses on selected issues and problems in social policy Each of the seven papers presented here is a case study which offers fresh insights or radical and new interpretations of persistent problems in the region The first three papers treat the society's most vulnerable or marginal social groups youths women and the elderly Other areas of focus are education crime and policing rural to urban migration and labour relations Resources in Education, 1994 Teaching and Learning Mathematical Problem Solving Edward A. Silver, 2013-04-03 A provocative collection of papers containing comprehensive reviews of previous research teaching techniques and pointers for direction of future study Provides both a comprehensive assessment of the latest research on mathematical problem solving with special emphasis on its teaching and an attempt to increase communication across the active disciplines in this area *Tools and Mathematics* John Monaghan, Luc Trouche, Jonathan M. Borwein, 2016-04-18 This book is an exploration of tools and mathematics and issues in mathematics education related to tool use The book has five parts The first part reflects on doing a mathematical task with different tools followed by a mathematician's account of tool use in his work The second considers prehistory and history tools in the development from ape to human tools and mathematics in the ancient world tools for calculating and tools in mathematics instruction The third part opens with a broad review of technology and intellectual trends circa 1970 and continues with three case studies of approaches in mathematics education and the place of tools in these approaches The fourth part considers issues related to mathematics instructions curriculum assessment and policy the calculator debate mathematics in the real world and teachers use of technology The final part looks to the future task and tool design and new forms of activity via connectivity and computer games *Selected Problems of the Vietnamese Mathematical Olympiad (1962-2009)* Hai Chau Le, Hai Khoi Le, 2010 Vietnam has actively organized the National Competition in Mathematics and since 1962 the Vietnamese Mathematical Olympiad VMO On the global stage Vietnam has also competed in the International Mathematical Olympiad IMO since 1974 and constantly emerged as one of the top ten To inspire and further challenge readers we have gathered in this book selected problems of the VMO from 1962 to 2008 A number of Selection Test problems are also included to aid in the formation and training of a national team for IMO The book is highly useful for high school students and teachers coaches and instructors preparing for mathematical olympiads as well as non experts simply interested in having the edge over their opponents in mathematical competitions **A Focus on Fractions** Marjorie M. Petit, Robert E. Laird, Caroline B. Ebby, Edwin L. Marsden, 2015-07-24 A Focus on Fractions is a groundbreaking effort to

make the mathematics education research on how students develop their understanding of fraction concepts readily accessible and understandable to pre and in service K 8 mathematics educators Using extensive annotated samples of student work as well as vignettes characteristic of classroom teachers experiences this book equips educators with the knowledge and tools to reveal students thinking so that they can modify their teaching and improve student learning of fraction concepts A Focus on Fractions 2nd edition includes sections on the Common Core State Standards for Mathematics and the Ongoing Assessment Project OGAP Fraction Framework integrated into each chapter as well as a new chapter on the OGAP Fraction Progression and how it can be used for formative assessment purposes This updated edition assists teachers in translating research findings into their classroom practice by conveying detailed information about how students develop fraction understandings Additional images and examples serve to flesh out and supplement the newly introduced concepts in this updated and expanded edition Special Features Looking Back Questions at the end of each chapter provide teachers the opportunity to analyze student thinking and consider instructional strategies for their own students Instructional Links help teachers relate concepts from the chapter to their own instructional materials and programs Big Ideas frame the chapters and provide a platform for meaningful exploration of the teaching of fractions Answer Key posted online offers extensive explanations of in chapter questions New sections devoted to the CCSSM and OGAP Fraction Progression are woven throughout the book as well as a new stand alone chapter on the OGAP Fraction Progression The OGAP Fraction Framework is an all new eResource now available as a free download from the book s website www.routledge.com/9781138816442

Developing Future-ready Learners for a Global Age Suzanne S. Choo, Woon Chia Liu, Bee Leng Chua, 2024-12-02 Suzanne S Choo Woon Chia Liu and Bee Leng Chua offer a dynamic look into the tripartite relationship between education research policy and practice that characterizes Singapore s changing education landscape Over the years Singapore has garnered increasing attention internationally for its world class education system Pushing back against the stereotypical notions of exam and teacher centric education in Asia the contributors to this volume discuss opportunities as well as challenges in Singapore s innovation towards constructivist critical culturally responsive and cosmopolitan forms of learning Highlighting the pedagogical innovation and its context in Singapore s teacher education and schools the authors bridge theory and practice by providing an understanding of innovative practices informed by key shifts in Singapore s education policies and the key conceptual principles informing these practices More importantly it provides on

the ground empirical insights into the ways these innovative pedagogical practices are enacted in the classroom and in teacher education programmes Each chapter provides an in depth understanding of how these pedagogies are applied across various subject disciplines including guided problem solving in Mathematics games based pedagogy in Science multimodal literacies in language ethical criticism in Literature Nonlinear Pedagogy in Physical Education multicultural approaches in music and dialogic pedagogy in drama among others Balancing theoretical and empirical focus this resourceful text will be of interest to students researchers and practitioners in educational development pedagogy and teacher education as well as policymakers across international fields in education

Gender in Early Childhood Nicola Yelland, 2002-09-11 This book will explore the ways in which young children perceive themselves and are viewed by others in terms of their gendered identities as individuals and as members of society It considers research from a variety of perspectives in the context of home family and school Topics covered include the construction of gender from the time the child is conceived the politics of category membership analyses of play and art making young children s experiences with technology the influence of popular culture on the body image gender equity policies in early childhood education understanding sexual orientation An examination and reflection of the issues will enable educators to improve their practice and have a greater understanding of the families and the children whom they teach The diverse range and content of the research will make this book a valuable resource for all those interested in the education of young children This book covers the issue of gender expectations of children with disabilities and also discusses young childrens experiences with technology and the ways in which they feel about their bodies This book will be of great interest to all early childhood educators who are concerned about the ways in which the home and school impact on the lives of young children in terms of how they view themselves and how others view them Trainee teachers will find this book helpful in developing their own attitudes understandings and behaviours in relation to gender equity and young children
