Selected Speeches 1979 1981:

Social Justice and Third World Education Timothy J. Scrase, 2021-12-12 First Published in 1997 In much of the comparative education literature questions of educational inequality and lack of educational opportunity in the developing world stand as perplexing complex and difficult problems Yet while inequality in education remains one of the most researched and written about topics in the discipline the question of social justice and its relationship to education remains implicit This volume aims to reverse this trend to make the issue of social justice both in theory and practice central and explicit *Selected Speeches, 1979-1981* Maurice Bishop, 1970 **Grenada** Anthony Payne, Paul Sutton, Tony Thorndike, 2022-02-06 This book first published in 1984 analyses the background to the revolution in Grenada and details the course of its progress examining the reasons why it faltered and failed International factors played no small part in these events setting the agenda for the internal processes of the revolution and bringing it to an end The book also examines closely the US led invasion of this tiny island and its aftermath Dependency and Socialism in the Modern Caribbean Euclid A. Rose, 2002-01-01 Was the Anglophone Caribbean condemned by its colonial history to permanent conditions of dependency and by Cold War geopolitical realities to international interventionism In *Dependency and Socialism in the Modern Caribbean* Euclid Rose focuses upon the efforts made by the English speaking Caribbean through case studies that compare and contrast the political economies of Guyana Jamaica and Grenada to break out of the legacy of colonial dependency and underdevelopment through the implementation of a Caribbean brand of socialism The work considers the Caribbean's adoption of Fabian style socialism as an alternative to capitalist development and how these socialist policies were impacted by differences in infrastructure capacity economic and social resources and political agendas It highlights the pivotal role of race and class and the hitherto little studied impact of religion on the region's political economy Moreover the study calculates the impact of the global economy upon Caribbean socio economic conditions and the ideological geopolitical and strategic implications of the Cold War and the Caribbean's socialist alignment on the nature character and intensity of British and American interventionism in the region A must read for political economists in search of a greater understanding of the postcolonial political economy of the Caribbean and Latin America **The Fall of Global Socialism** D. Jayatilaka, 2016-04-20 This radical new perspective from the Global South casts a fresh light on a major aspect of contemporary history and in doing so suggests an alternative interpretation of twentieth century revolutions Socialism left thinking and radical politics **General History of the Caribbean** Brereton, Bridget, Martínez-Vergne, Teresita, Römer, René A., Silvestrini, Blanca G., UNESCO, 2004-12-31 The major objective of this publication is to provide an account and interpretation of the historical development of the region from around 1930 to the end of the century Within its compass are the turbulent thirties including the Cuban Revolution of 1933 and the labour protests in the British Caribbean of 1934 the strategic position occupied by the region during the Second World War the development of proletarian movements and trade

unions and their links with political parties decolonization political evolution in the French and Dutch Caribbean and the turn to the left made in the 1970s by a number of Anglophone Caribbean countries notably Grenada Also examined are the Castro Revolution and its aftermath to the 1990s ethnicity and race consciousness and their effects in uniting or dividing communities and nations international relations and regional co operation changes in social and demographic structures including the role and status of women education migration and urbanization and the beliefs and cultural experiences which underpin Caribbean identity The final chapter provides an overall survey of changes in the quality of life in the Caribbean during the twentieth century

Tourism and Citizenship Raoul Bianchi, Marcus Stephenson, 2014-02-24 More than sixty years since the 1948 Universal Declaration of Human Rights first enshrined the right to freedom of movement in an international charter of human rights the issue of mobility and the right to tourism itself have become increasingly significant areas of scholarly interest and political debate However despite the fact that cross border travel implies certain citizenship rights as well as the material capacity to travel the manifold intersections between tourism and citizenship have not received the attention they deserve in the literature This book endeavours to fill this gap by being the first to fully examine the role of tourism in wider society through a critically informed sociological reflection on the unfolding relationships between international tourism and distinct renderings of citizenship with particular emphasis on the ideological and political alignments between the freedom of movement and the right to travel The text weaves its analysis of citizenship and travel in the context of addressing large scale societal transformations engendered by globalization neoliberalism and the geopolitical realignments between states as well as comprehending the internal reconfiguring of the relationship between citizens and states themselves By doing so it focuses on key themes including tourism and social citizenship rights race culture and minority rights states markets and the freedom of movement tourism peace and geo politics consumerism and class and ethical tourism global citizenship and cosmopolitanism The book concludes that the advancement of genuinely democratic and just forms of tourism must be commensurate with demands for distributive justice and a democratic politics of mobility encompassing all of humanity This timely and significant contribution to the sociology and politics of international tourism through the lens of citizenship is a must read for students and scholars in both in the fields of tourism and social science The royalties received from this book will be donated to the International Porter Protection Group

Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 *The Making of Détente* Keith L. Nelson, 2019-12-01 Originally published in 1995 In the early 1970s largely as a result of the debilitating struggle in Vietnam the United States began to reassess and redefine its basic approach to East West relations At the same time the Soviet Union was awakening to the liabilities that a continuing and unregulated state of hostility would impose on its own internal and external agenda Keith Nelson details the circumstances and traces the steps that led to the first significant accommodation and easing of tension between the superpowers during the Cold War In this important study Keith Nelson explains the detente period in an imaginative convincing and impressively scholarly manner Although there have been scores

of books and memoirs on the subject none have done the job quite like Nelson's. In particular he has used post glasnost Russian memoirs and monographs and especially his own interviews with such key players as Dobrynin and Arbatov to present one of the most intelligent Kremlinological studies I have ever seen.
