The Saturday Review of Politics, Literature, Science and Art, 1912 *The Saturday Review of Politics, Literature, Science, Art, and Finance*, 1914 Saturday Review of Politics, Literature, Science and Art, 1912 **The Slain God**

Timothy Larsen, 2014 This book is a history of the relationship between the discipline of anthropology and the Christian faith It explores how leading anthropologists have come to believe that ethnographic findings and evidence made Christianity no longer tenable The Outlook, 1915 The Saturday Review of Politics, Literature, Science and Art, 1909 Sophocles' Jebb Chris Stray, 2020-05-31 Sir Richard Jebb 1841 1905 was the most celebrated classical scholar in late Victorian Britain

his edition of *Sophocles* which remains a classic brought him a knighthood Professor of Greek at Cambridge from 1889 and MP for the University from 1891 until his death Jebb became a national spokesman for the humanities *Sophocles Jebb* charts his career through 275 newly discovered letters presented here with introductions and full annotation By allowing Jebb and his contemporaries to speak in their own words it enables a significant reassessment of a key cultural figure of late Victorian Britain and sheds fresh light on public and academic debate of the time The volume ends with a new comprehensive list of

Jebb's publications *History of the English People* John Richard Green, 1914 **Friedrich Max Müller and the Sacred Books of the East** Arie L. Molendijk, 2016-07-28 This volume offers a critical analysis of one of the most ambitious editorial projects of late Victorian Britain: the edition of the fifty substantial volumes of the Sacred Books of the East, 1879-1910. The series was edited and conceptualized by Friedrich Max Müller, 1823-1900, a world-famous German-born philologist, orientalist, and religious scholar. Müller and his influential Oxford colleagues secured financial support from the India Office of the British Empire and from Oxford University Press. Arie L. Molendijk documents how the series has become a landmark in the development of the humanities, especially the study of religion and language in the second half of the nineteenth century. The edition also contributed significantly to the Western perception of the religious or even mystic East, which was textually represented in English translations. The series was a token of the rise of big science and textualized the East by selecting their sacred books and bringing them under the power of western scholarship.

William Robertson Smith Bernhard Maier, 2009 William Robertson Smith, 1846-1894, was successively the embattled champion of the emergent higher criticism as applied to the Old Testament, chief editor of the *Encyclopaedia Britannica*, and Professor of Arabic at Cambridge University. Today he is acknowledged to have been a pioneering figure in both social anthropology and the study of comparative religion, deeply influencing the thinking of J. G. Frazer, Emile Durkheim, and Sigmund Freud. The first full-length biography of Robertson Smith to be published for almost a hundred years, this text makes use of hitherto unknown material preserved by the Smith family and draws upon the extensive range of correspondence between Smith and such scholars as Albrecht Ritschl, Paul de Lagarde, Julius Wellhausen, Abraham Kuenen, and Theodor Noldeke. Adopting an interdisciplinary approach, the biography locates and defines the place of this remarkable polymath within the context of Free Church Calvinism, the Scottish Enlightenment, and 19th-century German Protestant theology. It highlights Smith's interest in physics and philosophy, his friendship with contemporary artists, his Oriental travels, and his involvement in the social life of Edinburgh and Aberdeen. In recent years, the image of Smith as a comparative religionist has come to dominate all other perspectives and indeed tends now to overshadow his fame as an Old Testament scholar. This book seeks to redress the balance, aiming to discover the theological drive behind Smith's manifold activities.

Philology James Turner, 2015-09-15 A prehistory of today's humanities from ancient Greece to the early twentieth century. Many today do not recognize the word, but philology was for centuries nearly synonymous with humanistic intellectual life, encompassing not only the study of Greek and Roman literature and the Bible but also all other studies of language and literature as well as history, culture, art, and more. In short, philology was the queen of the human sciences. How did it become little more than an archaic word? In *Philology*, the first history of Western humanistic learning as a connected whole ever published in English, James Turner tells the fascinating, forgotten story of how the study of languages and texts led to the modern humanities and the modern university. The humanities today face a crisis of relevance, if not of meaning and purpose. Understanding their common origins and what they still share has

never been more urgent **Occult Roots of Religious Studies** Yves Mühlematter, Helmut Zander, 2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas *An Unnatural History of Religions* Leonardo Ambasciano, 2018-12-27 *An Unnatural History of Religions* examines the origins development and critical issues concerning the history of religion and its relationship with science The book explores the ideological biases logical fallacies and unwarranted beliefs that surround the scientific foundations or lack thereof in the academic discipline of the history of religions positioning them in today's post truth culture Leonardo Ambasciano provides the necessary critical background to evaluate the most important theories and working concepts dedicated to the explanation of the historical developments of religion He covers the most important topics and paradigm shifts in the field such as phenomenology postmodernism and cognitive science These are taken into consideration chronologically each time with case studies on topics such as shamanism gender biases ethnocentrism and biological evolution Ambasciano argues that the roots of post truth may be deep in human biases but that historical justifications change each time resulting in different combinations The surprising rise of once fringe beliefs such as conspiracy theories pseudoscientific claims and so called scientific creationism demonstrates the alarming influence that post truth ideas may exert on both politics and society Recognising them before they spread anew may be the first step towards a scientifically renewed study of religion *The Myth of Disenchantment* Jason A. Josephson-Storm, 2017-05-18 This study of the early human sciences and their deep connections to spiritualism dispenses with the myth that separates magic and modernity Many theorists contend that the defining feature of modernity is our collective loss of faith in spirits myths and magic But in *The Myth of Disenchantment* Jason A. Josephson Storm argues against this narrative showing that attempts to suppress magic have failed more often than not Even the human sciences have been more enchanted than is commonly supposed But that raises the question How did a magical spiritualist mesmerized Europe ever convince itself that it was disenchanting Josephson Storm traces the history of the myth of disenchantment in the births of philosophy anthropology sociology folklore psychoanalysis and religious studies He demonstrates that the founding figures

of these mythless disciplines were in fact profoundly enmeshed in the occult and spiritualist revivals of Britain France and Germany It was in response to this milieu that they produced notions of a disenchanted world By providing a novel history of the human sciences and their connection to esotericism *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past Rousseau John Morley,1922 **Raffaele Pettazzoni and Herbert Jennings Rose, Correspondence 1927-1958** Domenico Accorinti,2014-05-08 Raffaele Pettazzoni 1883 1959 Professor of the History of Religions at the University of Rome and one of the leading historians of religions in the twentieth century maintained a long correspondence with Herbert Jennings Rose 1883 1961 the gifted Canadian scholar who was Professor of Greek at St Andrews and is best known for his work in the field of ancient religion and folklore These letters spanning the years 1927 to 1958 bear witness to the close relationship between the two scholars and focus on two of Pettazzoni s books both translated by Rose *Essays on the History of Religions* 1954 and *The All Knowing God* 1956 They also shed light on Pettazzoni s initiative to the foundation of the journal *NVMEN* 1954 and reveal Rose s brilliant personality

English Prose Sir Henry Craik,1922 *YHWH in the Wind(s)* Violet Chiswa Gandiya,2025-01-31 From interdisciplinary intertextual and comparative analytical perspectives this book engages with the epistemologies of the Global South and Global North to reveal a fresh insight into the image of YHWH in the guise of the phenomenal wind s and the purpose of this image in the biblical Hebrew tradition Therefore this book showcases YHWH appearing with the potent wind s to create and transform chaos into cosmic order at primal creation Likewise this discourse presents YHWH breaking into the historical and social realm in his various sociopolitical roles to destroy all forms of chaotic force by his bluster of wind s and to establish maintain or restore world social order founded on his rule of justice and righteousness This accounts for the view that all creation and order originate from YHWH and are maintained by YHWH s innate rules of ethical governance This fresh insight into the sights and sounds of YHWH asserting his rule in the dramaturgical wind s not only renders new meaning to biblical texts within their contexts but also offers a persuasive message and alluring theological reflections that can shape new discourses to engage and address contemporary theological and social issues of equity justice and harmony within YHWH s intended design of world and social order
