Semana Santa En Popayan:

Semana Santa en Popayán Silvia Patiño, Gustavo Wilches-Chaux, Carlos Zambrano Ulloa, 2005-12 En este libro no se pretende agotar un tema que es su profundo significado cultural que constituye un territorio casi totalmente inexplorado Las fotos y el texto intentan interpretar la fusión inseparable entre las procesiones y otros actos El libro relata también la génesis y el significado del festival de la misa religiosa de Popayán que desde el año de 1964 forma parte integral de las celebraciones de la semana santa

Holy Week in Popayan Silvia Patiño, Gustavo Wilches-Chaux, 1999 It is Holy Week time in Popayán Serenity and devotion guide the steps of the pilgrim crowd that among prayers and chants follow the processions celebrated and remember with expectant joy the passion and resurrection of the Christ The scent of burning incense floods the atmosphere and the warm spirit of celebration conquers the cold of the night when the air is loaded with prayers and the joy of Christian celebrations takes shape In Holy Week in Popayán discover the devotion for a religious celebration that brings people together and that pays homage to the mysteries of religion its traditions and the rooted meaning that it has as part of the powerful Catholic legacy in Latin America Nonetheless far from being an event imbued with melancholy the Holy Week celebrates life and praises it beyond death as part of life itself and thinking about it as the stop before reaching for eternity

Popayan en el cuarto centenario de sus procesiones de Semana Santa, 1558-1958 José María Arboleda Llorente, 1957 **Finding Caspicara** Susan Verdi Webster, 2024-10-01 An examination of sculpture and authorship in eighteenth century Quito that documents Caspicara as a participant in the innovative artistic production of the city's workshops and its widespread commerce of polychrome sculptures Who is Caspicara Nothing is known of Caspicara's life and not a single sculpture has been documented as his work Yet traditional histories laud him as a prolific Indigenous sculptor in eighteenth century Quito who created exquisite polychrome figures and became a national artistic icon Drawing on extensive archival historical and object research Susan Verdi Webster peels away layers of historiographical fabrication to reveal what we do and do not know about Caspicara and his work Rather than being a solitary master Caspicara collaborated with other largely Indigenous artists in Quito's protoindustrial workshops manufacturing sculptures now credited to him alone The high quality of Quito sculptures produced by anonymous artists turned the city into a hub of wide ranging commerce in religious icons The art world and post independence Ecuadorians have lionized the one named sculptor Caspicara according to the Western model of the artist genius amplifying the market for works bearing his name and creating a national hero on par with European masters Lost in this process were the artists themselves Webster returns to their world detailing their methods and labor and for the first time documenting a sculpture made by Caspicara

Consideraciones sobre la arquitectura en Popayán Velasco Mosquera, Javier, 2022-03-18 La esencia histórica de la arquitectura colonial es algo que perdura a lo largo de varios siglos Popayán se inicia con ella pero se desgaja por un acontecimiento que divide su vida en dos el antes y el después del terremoto del 2 de febrero de 1736 Sin

embargo los cambios no son drásticos sino evolutivos ya que se parte de las circunstancias socio económicas y culturales que le impone el momento para su reconstrucción El pensamiento europeo de la poca aporta conceptos importantes pero estos tienen relación más directa con lo humanístico que con lo civil De ahí que el Barroco de vieja data en Europa entonces no tiene en la Nueva Granada la acogida y el desarrollo que presenta en otros países como México y Perú lo cual repercute también a nivel local en la medida en que sus alcances no llegan sino a ejercer una limitada influencia en el resurgimiento de Popayán en cuanto su radio de acción se focaliza fundamentalmente en la valiosa talla de retablos y altares de algunos templos así como en la pintura y la escultura del siglo XVIII especialmente en las de tipo religioso Dentro de ese marco histórico las creaciones arquitectónicas locales de mayor trascendencia se producen en la segunda mitad del siglo XVIII y en el siglo XIX De manera especial cuando se introducen en la ciudad tendencias arquitectónicas que rayan en lo neoclásico pero con una visión quizás muy particular casi local No obstante aún se descubren latentes muchas de aquellas características tipológicas de la arquitectura payanesa que constituyen su herencia cultural mudjar aunadas a algunas variaciones de tipo formal y funcional manifestadas en la implantación de ciertos principios y detalles que aunque los caracterizan el fondo respetan la planitud básicamente mudjar
