Nicholas Furbank, *Uncommon Readers* Christopher J. Knight, 2003-01-01 Impressive in scope and erudition Christopher Knight's *Uncommon Readers* focuses on three critics whose voices mixing eloquence with pugnacity stand out as among the most notable independent critics working during the last half century The critics are Denis Donoghue Frank Kermode and George Steiner and their independence a striking characteristic in a time of corporate criticism is reflective of both their backgrounds Donoghue's Catholic upbringing in Protestant ruled Northern Ireland Kermode's Manx beginnings and Steiner's Jewish upbringing in pre Holocaust Europe and their temperaments Each represents a party of one a fact that has on the one hand made them the object of the occasional vituperative dismissal and on the other contributed to their influence and remarkable longevity Since the 1950s Steiner Donoghue and Kermode have each maintained a highly public profile regularly contributing to such influential publications as *Encounter* *New Yorker* *New York Review of Books* *Times Literary Supplement* and the *London Review of Books* This aspect of their work receives particular attention in *Uncommon Readers* for it illustrates a renewed interest in the role of the public critic especially in relation to the genre of the literary review essay and signals a sustained conversation with an educated public namely the common reader Knight makes the argument for the review essay as a serious and still viable genre and he examines the three critics in light of this assumption He expounds upon the critics separate interests Kermode's identification with discussions of canonicity Steiner's with cultural politics and Donoghue's with the persistent claims of the imagination while also revealing the ways in which their work often reflects theological interests Lastly he attempts to adjudicate some of the conflicts that have arisen between these critics and other literary theorists especially the post structuralists and to discuss the question of whether it is still possible for critics to work independently Original and deliberative *Uncommon Readers* presents a renewed defense of the tradition of the common reader

Italian literary system and proposes a comparative reading of originals and translations designed to highlight the varying reception of texts in different cultures Two main themes in the book are the affinity between the representations produced by travel and the practices of translation and the complex links between travel writing and genres such as ethnography journalism autobiography and fiction Individual chapters are devoted to Italian travellers accounts of Tibet and their English translations the hybridization of journalism and travel writing in the works of Oriana Fallaci Italo Calvino's sublimation of travel writing in the stylized fiction of *Le città invisibili* and the complex network of literary references which marked the reception of Claudio Magris's *Danubio* in different cultures The Novels of August Strindberg Eric O.
