

# The ant and the grasshopper

A little ant and a grasshopper lived together in a rocky green area. The little ant always got up early to collect and store grains for the winter. However, the grasshopper spent its time flying and jumping in the area. The little ant advised it many times to collect its food before the difficult winter, but the grasshopper didn't care and spent its time playing. The difficult winter came and the grasshopper didn't find enough food to eat.

## **Short Stories 1927-1956:**

*Short Stories 1927-1956* Walter de la Mare, 2012-07-18 The publication of *Short Stories 1927-1956* celebrates the fiftieth anniversary of Walter de la Mare's death. It is also the culmination of a major literary enterprise. For many people, Walter de la Mare (1873-1956) is as great a writer of fiction as of poetry. But the majority of his short stories, of which there are a hundred, have long been unavailable. *Short Stories* brings them all together in three volumes in the first comprehensive collection to be published. De la Mare's earliest published works were stories, and he continued writing and rewriting stories throughout the rest of his life. There was always a creative counterpoint between the themes and imagery of his prose and his poetry, such as the dream, childhood, the house, night, love, lost and regained solitude, and the traveller. A full understanding of either is impossible without knowledge of both. *Short Stories 1895-1926* and *Short Stories 1927-1956*. What strikes one most about them is how truly peculiar they are; it is good to see these dark and disquieting stories back in print. Martin Seymour Smith in *Scotland on Sunday* on *Short Stories 1895-1926*: 'He was so great that like all the greatest, his greatness functions as an assumption that goes hardly even recognized; the chief emotion is as it should be, one of immense gratitude.' Lord David Cecil: 'Beautiful, enigmatic and disquieting stories.' Angela Carter: 'De la Mare is a master of mise en scene. Prose with the most vivid and unsettling intensity, which resembles some of what the surrealists were producing in France.' Contents of *Short Stories 1927-1956*: 1. On the Edge, *Short Stories 1930*, A Recluse, Willows, Crewe, At First Sight, The Green Room, The Orgy, An Idyll, The Picnic, An Ideal Craftsman. 2. **Inherit the Truth 1939-1945** Anita Lasker-Wallfisch, 2012-07-18 This is the story of the destruction of a talented Jewish family and of the survival against all the odds of two young sisters It is one of the most moving stories to emerge from the Second World War Anita and her elder sister Renate defied death at the hands of the Gestapo and the SS

over a period of two and a half years when they were sucked into the whirlpool of Nazi mass extermination being first imprisoned as criminals and then being transferred separately to Auschwitz and finally to Belsen when the Russians approached. They were saved by their exceptional courage, determination and ingenuity and by several improbable strokes of luck. At Auschwitz Anita escaped annihilation through her talents as a cellist when she was co-opted into the camp orchestra directed by Alma Ros, niece of Gustav Mahler. Her book is especially remarkable because of the many documents she has managed to preserve, most of them now lodged in the archives of the Imperial War Museum in London. In a sequence of family letters to her sister Marianne who was marooned in England from just before the war to 1942 when her parents were deported and liquidated, an atmosphere of happy normality gradually gives way to latent terror and foreboding. The appalling predicament of the Lasker family and of Anita and Renate in particular when the rest of their relations had been deported and they were left totally alone in Breslau could not be more poignantly conveyed. They were caught by the Gestapo trying to flee to Paris and sent to prison, another piece of luck as it turned out since they were spared the worse horrors of Auschwitz for a crucial year. After the liberation of Belsen in April 1945 the correspondence with Marianne in England resumed. Anita was seconded to the British Army and she quotes first hand material about the early days of the occupation including a transcript of part of the Lebnburg trial in late 1945 when she gave evidence about Nazi atrocities at Auschwitz and Belsen and was confronted in court by her tormentors. In 1946 she and Renate were both finally permitted to emigrate to England. Three years later Anita became a founder member of the English Chamber Orchestra in which she continued to play the cello until recently. Anita's book featured in BBC Radio 4's Desert Island Discs programme on 25th August 1996. She had also told her story in a series of five BBC Radio 4 programmes in 1994 and a BBC 2 TV film about her experiences, *Playing to Survive*, was screened in October 1996. Walter Laqueur, Center for Strategic and International Studies, Washington, in *Holocaust and Genocide Studies*. It is my job to read most of the current literature on the Holocaust and if someone had the time and inclination to read only one book published recently I would choose without hesitation a small book, *Inherit the Truth*, which appeared last month in England. It is precisely as a historian that I recommend this account. Venice Milton

**Married to the Amadeus** Muriel Nissel, 2012-07-18 The Amadeus Quartet which was active from 1948 until 1987 when its viola player Peter Schidlöf died is probably the most famous and distinguished string quartet of the 20th century It played to a wide variety of audiences on innumerable occasions in all the major countries of the world and produced a galaxy of recordings many of which are still available The intensity of its music making was breathtaking Muriel Nissel the author of *Married to the Amadeus* is the wife of Siegmund Nissel the second violinist Her book tells the extraordinary and moving story of the Quartet with its many triumphs and its periodic setbacks and traumas from the inside for the forty years from its inception during the time after the Second World War up to the 1980s She reveals how it moulded the lives of the four players and their wives and families in unexpected ways and how they all became inextricably involved in this unique joint enterprise The fashion in which work and family life interacted was crucial to the Quartet's survival She returned to her professional life as a statistician when the children went to school and describes how difficult it was in the 1960s for a married woman with children to achieve equal status with men at work and she tells of the problems she also had to face at home finding satisfactory ways of caring for her family Remarkably the four members of the Quartet remained unchanged throughout They each of them had exceptional qualities Norbert Brainin the first violin Siegmund Nissel and Peter Schidlöf all refugees from Vienna had first met in internment camps in Britain in 1940 Martin Lovett the cellist joined them not long after the war at a moment when the musical climate was sympathetic to chamber music and the record industry was booming They never looked back Nobody who has read Muriel Nissel's absorbing book will ever be able to listen to a string quartet again without being aware of the immense commitment such a group demands of the players and of their families too and of the longstanding emotional aesthetic and organizational complexities it entails Andrew Green in *Classical Music* a thoroughly absorbing well written account of the Amadeus Quartet story observed from the inside It has the benefit of many penetrating insights not simply into

how wives and families are affected by the lifestyle adopted of necessity by the members of a top notch ensemble but into the true nature of that lifestyle itself It is a book in truth about an octet with all the characters utterly believable aided by an excellent photographic record plus an appendix containing not just a complete discography but a list of all the quartets who have benefited from the Amadeus International Summer Course Very revealing Patrick Carnegie in TLS There are memorable sketches of musician colleagues Cecil Aronowitz Alfred Brendel David Oistrakh and of the Amadeus playing Britten's Third Quartet privately to the composer only months before his death The legacy of the Amadeus lives on in their recordings and in the many fine ensembles they have coached Looking back on the forty years of their pre eminence in the classic string quartet repertory it is amazing how much of their reputation was won by the sheer quality of their performances unaided by the marketing and image making that is par for the course today the story of the invisible life of the Wolf Gang is never less than candidly and engagingly told

Tricks Journalists Play Dennis Barker, 2012-07-18 Dennis Barker has written a hard hitting expose of the erosion of standards and values in the media world of newspapers TV and radio over the past twenty years in particular those of integrity independence of thought and accuracy He was prompted to start work on his book by the low standing of journalists at the bottom near estate agents and politicians in recent opinion polls on the esteem in which the public holds those in different professions He takes the reader through a whole gamut of journalistic tricks which pinpoint the failings of the media in over fifty short chapters including the death of the reporter prejudicial words shovel it all in the sub's role my beautiful career same old celebrities money worship and headlines and fib lines In snubbing we see how a colourfully dramatic conflict or a cauldron of ill will can be created where possibly none exists The general public is becoming increasingly aware of the unsatisfactory state of affairs in media journalism which is highlighted by the periodic distortions caused by the political ambitions of chief executives and tycoons misleading headlines and its extraordinary obsession with celebrity culture Tricks Journalists Play is essential reading for the majority of us who care about the pernicious effects of spin misrepresentation and deception and social and international prejudice the purveying of half truths in relation to crucial issues that affect our future and the failure to report fully and accurately on matters that have a bearing on freedom and democracy in this country An experienced journalist himself Dennis Barker has worked for the Guardian since the 1960s in many roles from feature writer and media correspondent to general columnist and at the moment is a contributor of obituaries mainly in the media and entertainment spheres Sarah Birke in *New Statesman* Journalists are seen as a cynical bunch not just by politicians but by the general public as well Noble ideas of honesty accuracy and a bit of hard graft seem to have been abandoned in favour of networking and re spun press releases Barker does well to call for more investigative journalism and a public campaign to rethink within the profession Tom Easton in *Lobster* no 55 summer 2008 Apropos of Flat Earth News he writes Other reporters including for example a Guardian writer of a slightly earlier vintage than Nick Davies Dennis Barker have given insider insight on what goes on Barker's low key book deserves a wide audience

for its breadth and witty clarity Roger Silver on Amazon.co.uk August 2008 four star One way of being forearmed would be to read this book and learn from the insights it provides into much journalistic behaviour Writing as an insider he gives examples of the tricks and sleights of hand used by journalists in a host of different situations His book is a valuable navigational aid for anyone thrust willingly or unwillingly into the potentially treacherous waters of media relations It is also a disturbing commentary on declining journalistic values which Dennis Barker so demonstrably deploras

**History at War**

Noble Frankland, 2012-07-18 History at War is a unique book It throws light on important unexplored aspects of the pursuit of historical truth It tells how alone among historians Noble Frankland fought in the bomber offensive during the Second World War and then together with Sir Charles Webster wrote its official history how he transformed the Imperial War Museum from a dying institution into one of the world's leading historical centres for the study of the conflicts of the twentieth century how he played a major part in television documentary productions including in particular The World at War and how he wrote a series of original rigorously researched historical works In History at War he describes the battles he had to fight against the mandarins and media merchants who sought to impose a spin on history to suit their own ends and were ruthless and unscrupulous in their methods Its meticulous documentation gives a guarantee of authenticity to his staggering account of how those in high places tried to distort history which might otherwise seem scarcely credible The revelations about Bomber Harris relations with his superior Lord Portal during the war and their joint opposition to the two authors account of the strategic air offensive still a highly topical issue will set alight a new debate among military and other historians Unlike most books on the theory and practice of history it does not confine itself to what can be written on the page It also covers Dr Frankland's experience of demonstrating history in museum galleries on the television screen on sites such as Duxford Airfield near Cambridge and on board HMS Belfast in the Pool of London The problem for historians of publishing a full and unbiased account and analysis of controversial events and episodes in politics and international affairs is as acute in the 1990s as it ever has been All readers with a concern for the truth will learn much about such issues from this unflinching and penetrating book Robert Crawford Director General Imperial War Museum it is brilliant rivetingly trenchant and should be required reading for all aspirant historians Professor R B Wernham former Professor of Modern History Oxford It really is a splendid and fascinating story and a sharp warning to historians to beware of mandarins and great commanders In Francis Bacon's categorization Some books are to be tasted some to be swallowed and a few to be chewed and digested It certainly rates among the few Professor Geoffrey Best in TLS The subtitle is exactly right for a book by Noble Frankland a tough character who views the successive phases of his post war life as battles to bring truths and lessons plainly before the public and who can happily conclude that he has been generally successful In at least two fields the history of the most painfully controversial of Allied campaigns in the Second World War and the rescue and make over of the least well known of London's great museums his achievements have been of great national value and importance this astringently truth telling

professional autobiography required reading for historians of the British Establishment from Attlee to Macmillan Piers Mackesey Fellow of British Academy and former Fellow of Pembroke College Oxford I admired History at War on many levels characterizations of Webster Bradley Willis etc the balance between Museum Trustees and the chief executive functioning of Civil Service Bomber Command the picture of Noble Frankland s developing career and the qualities it called for etc I often laughed aloud at the wit and the penetrating observations of functioning individuals Also much enjoyed final reflections on history by a practitioner Haven t enjoyed a book so much for ages

**Erasmus Darwin** Desmond King-Hele, 2012-07-18 It has been said of Erasmus Darwin 1731 1802 that no one from his day to ours has ever rivalled him in his achievements in such a wide range of fields He was a far sighted scientific genius fertile in theory and invention and one of the foremost physicians of his time His gift for friendship enabled him to recruit the members of the Lunar Society of Birmingham which is often seen as the main intellectual powerhouse of the Industrial Revolution in England He was especially close to Franklin Wedgwood Boulton and Watt Towards the end of his life he gained recognition as the leading English poet in the country and he deeply influenced Blake Wordsworth Coleridge and Shelley The most striking of Darwin s many talents was his extraordinary scientific insight in physics chemistry geology meteorology and all aspects of biology his deepest insight being his evolutionary theory of life Two of his books the Zoonomia which made him famous as the leading medical mind of the 1790s and The Temple of Nature a long poem show that he believed life developed from microscopic specks in primeval seas through fishes and amphibians to humankind But he failed to convince the world about biological evolution that was left to his grandson Charles Erasmus was the first person to give a full description of how clouds form and of photosynthesis in plants He was also an obsessive inventor of mechanical devices among them a speaking machine a copying machine and the steering technique used in modern cars Substantial donations of Darwin family papers recently to the Cambridge University Library including over 170 letters written by Erasmus Darwin himself have made it possible for the author to tell much of the enthralling story of his life in Erasmus own words Desmond King Hele who is the leading authority on Erasmus Darwin having studied his life and work for three decades is a mathematician and physicist who is an expert on space research by satellite in particular on the Earth s gravity field and the upper atmosphere W F Bynum in Nature To most people who have heard of him Erasmus Darwin was a successful doctor bad poet and most significantly the grandfather of Charles Darwin In this astonishing book Desmond King Hele seeks to reverse the judgement and argue that Charles should rather be remembered as Erasmus s grandson that Erasmus was much the brighter spark a genius of rare qualities Few scientific lives have ever been so carefully and thoughtfully examined There are no final words in history but this is a biography for which the word definitive can be aptly applied Patricia Fara in Times Higher Educational Supplement Instead of being dismissed as the whimsical creator of a bizarre tale of gaudily dressed characters engrossed in various forms of polygamy he is now recognized as an influential author and an important man of science who made vital contributions to the early stages of

English industrialization A moving and amply researched narrative of a man who for the author has acquired a heroic stature
