They Sing the Wedding of God John Napier, 2013-06-12 In Rajasthan India a caste of musicians and mendicants the Nath Jogis sing stories of kings who renounce their thrones to become wandering mendicants They also sing of a god Mahadeva Shiva who must abandon his world renouncing life and marry thus establishing the very caste that tells his story This is the first detailed ethnomusicological study of the music of this caste examining how the existential questions of the sung stories of the conflict between loyalty to families or communities and the transcending desire to renounce the material world are articulated in musical performances in which the caste's own ethnography is inscribed Discussing the relationship between the performed repertoire and the caste's identity the contexts of performance and ways in which familiar stories are effectively retold the book offers a transcription translation and musical and ethnographic analysis of one performance by Kishori Nath and shows how the questions the performances project are not merely speculative acts of self identification but also challenges to audiences to consider their own responses The Study of Uttaranchal Ekta Uniyal, 2003 Kashmir, the Untold Story Humra Quraishi, 2004 On the socio economic conditions of Jammu and Kashmir as a result of political turmoil **Guide to Indian Periodical Literature**, 2007 **Indian National Bibliography** B. book seeks to answer several questions How is the concept of justice defined in South Asia Why do devotees seek out Goludev for the resolution of matters of justice instead of using the secular courts What are the sociological and political consequences of situating divine justice within a secular democratic modern context Moreover how do human beings locate themselves within the indeterminateness and struggles of their everyday existence What is the place of language and ritual in creating intimacy and self How is justice linked to intimacy truth and being human The stories and narratives in this book revolve around Goludev s own story and deeds as well as hundreds of petitions manauti written on paper that devotees hang on his temple walls and rituals jagar that involve spirit possession and the embodiment of the deity through designated mediums The jagars are powerful extraordinary experiences mesmerizing because of their intensity but also because of what they imply in terms of how we conceptualize being human with the seemingly limitless potential to shift alter and transform ourselves through language and ritual practice The petitions though silent and absent of the singing drumming and choreography that accompany jagars are equally powerful because of their candid and intimate testimony to the aspirations breakdowns struggles and breakthroughs that circumscribe human existence

Encyclopaedia of India, Pakistan and Bangladesh Om Gupta,2006-04 India Pakistan and Bangladesh share a long history an emerging cordial and a common vision for the future This book is not India centric but deals with various aspects of all the three sovereign nations Reading them together will be an unprecedented experience rarely attempted before It has rarely happened in the modern world how these three nations who geographically one but culturally so different are chalking out an independent place in the comity of nations at times with the help of each other and at another on its own merit and inherent strength It is not written from any biased perspective In fact it explains people places and events from a neutral world view It is ideally an international venture that would benefit historians teachers and students in the entire sub continent It will be interesting to compare the three countries from different parameters thus planning a wholesome picture The encyclopedia aims at clearing confusions and contradiction that have crept in because of certain vested interests and it should be read from a neutral benchmark These volumes very clearly and earlier suggest how fatal the disintegrate have proven to these nations with the fact that divided these countries have in actuality fallen In the face of achieving the target of universal

supremacy Ice humanities Klaus Dodds, Sverker Sörlin, 2022-08-02 Ice humanities is a pioneering collection of essays that tackles the existential crisis posed by the planet's diminishing ice reserves. By the end of this century we will likely be facing a world where sea ice no longer reliably forms in large areas of the Arctic Ocean where glaciers have not just retreated but disappeared where ice sheets collapse and where permafrost is far from permanent. The ramifications of such change are not simply geophysical and biochemical. They are societal and cultural and they are about value and loss. Where does this change leave our inherited ideas, knowledge and experiences of ice, snow, frost and frozen ground? How will human, animal and plant communities superbly adapted to cold and high places cope with less ice or even none at all? The ecological services provided by ice are breath-taking, providing mobility, water and food security for hundreds of millions of people around the world, often Indigenous and vulnerable communities. The stakes could not be higher. Drawing on sources ranging from oral testimony to technical scientific expertise, this path-breaking collection sets out a highly compelling claim for the emerging field of ice humanities, convincingly demonstrating that the centrality of ice in human and non-human life is now impossible to ignore.
