Banker,2018-09-17

Ferenc Morton Szasz was a lifelong student who became a professor of history at the University of New Mexico As a one year appointment at the Albuquerque campus evolved into a forty year career Szasz glimpsed the predictable unpredictability that he would eventually discern as one of history s most enduring and elusive traits The connections and consequences along the way forged a truly exceptional life and career A master of the United States history survey Szasz enthralled and inspired tens of thousands of students with energy enthusiasm provocative insights and good will Ambitious undergraduates regularly vied with graduate students for coveted seats in his upper level courses where he offered insights into World War II American religious history and popular culture Szasz s interests he insisted were the ideas of the people and how they shift over time In an era when historical scholarship became increasingly specialized he pursued an eclectic array of research interests and

challenged his doctoral students to do the same The ten selections of Szasz's writings that are the primary content of this volume balance insights into history's great moments with attention to events and details often overlooked by more conventional historians Szasz's crisp accessible prose reveals both the unique and universal in the human experience and offers heartfelt glimpses into humanity's paradoxical promises and perils Back cover *Cai Yuanpei: Selected Writings on Education* Leiluo Cai, 2024-01-15 This collection of writings traces the evolution and revolution of Chinese modern education in the early twentieth century initiated by Cai Yuanpei 1868-1940 the first Minister of Education of the Republic of China President of Peking University 1916-1927 and the founder of Academia Sinica This volume illustrates Cai Yuanpei's educational thoughts one of which is known as freedom of thought and academic inclusiveness through his own words from his political social and academic endeavors Cai navigated the landscape of Chinese education at the time bridging the gap between tradition and revolution East and West and setting the cornerstone of the Chinese modern education system His innovative ideology remains significant in the context of Chinese education reforms in the 21st century *The Temple University Catalogue* Temple University, 1911
