

SHOULD THE BABY LIVE?

The Problem of
Handicapped Infants

Helga Kuhse and
Peter Singer

Should a severely handicapped baby be allowed to die? What should the decision be based on? Who should make that decision?

Until recently such questions were rarely considered in public, but the case of Baby Doe, born in April 1982 with Down's syndrome and a blocked oesophagus in Bloomington, Indiana, stirred up a national debate in America. In Britain a year earlier Dr Leonard Arthur had stood trial for his decision to allow a baby with Down's syndrome to die. The intervention of government or of the law in these

Should The Baby Live The Problem Of Handicapped Infants:

Should the Baby Live? Helga Kuhse, Peter Singer, 1985 Without doubt the best of the recent works addressing this topic The Times Higher Education Supplement **Ethical Issues in Neurology** James L. Bernat, 2008 Written by an eminent authority from the American Academy of Neurology's Committee on Ethics Law and Humanities this book is an excellent text for all clinicians interested in ethical decision making The book features outstanding presentations on dying and palliative care physician assisted suicide and voluntary active euthanasia medical futility and the relationship between ethics and the law New chapters in this edition discuss how clinicians resolve ethical dilemmas in practice and explore ethical issues in neuroscience research Other highlights include updated material on palliative sedation advance directives ICU withdrawal of life sustaining therapy gene therapy the very low birth weight premature infant the developmentally disabled patient informed consent organizational ethics brain death controversies and fMRI and PET studies relating to persistent vegetative state **Why I Burned My Book and Other Essays on Disability** Paul K. Longmore, 2003 Personal inclination made me a historian Personal encounter with public policy made me an activist **Bioethics and Disability** Alicia Ouellette, 2011-04-25 Bioethics and Disability provides tools for understanding the concerns fears and biases that have convinced some people with disabilities that the health care setting is a dangerous place and some bioethicists that disability activists have nothing to offer bioethics It wrestles with the charge that bioethics as a discipline devalues the lives of persons with disabilities arguing that reconciling the competing concerns of the disability community and the autonomy based approach of mainstream bioethics is not only possible but essential for a bioethics committed to facilitating good medical decision making and promoting respect for all persons regardless of ability Through in depth case studies involving newborns children and adults with disabilities it proposes a new model for medical decision making that is both sensitive to and sensible about the fact of disability in medical cases Military Chaplains' Review, 1987 Familial Fitness Sandra M. Sufian, 2022-01-21 The first social history of disability and difference in American adoption from the Progressive Era to the end of the twentieth century Disability and child welfare together and apart are major concerns in American society Today about 125 000 children in foster care are eligible and waiting for adoption and while many children wait more than two years to be adopted children with disabilities wait even longer In Familial Fitness Sandra M Sufian uncovers how disability operates as a fundamental category in the making of the American family tracing major shifts in policy practice and attitudes about the adoptability of disabled children over the course of the twentieth century Chronicling the long complex history of disability Familial Fitness explores how notions and practices of adoption have and haven't accommodated disability and how the language of risk enters into that complicated relationship We see how the field of adoption moved from widely excluding children with disabilities in the early twentieth century to partially including them at its close As Sufian traces this historical process she examines the forces that shaped and continue to shape access to the social institution of family and invites

readers to rethink the meaning of family itself **Peter Singer Under Fire** Jeffrey A. Schaler, 2011-09-30 One of the leading ethical thinkers of the modern age Peter Singer has repeatedly been embroiled in controversy Protesters in Germany closed down his lectures mistakenly thinking he was advocating Nazi views on eugenics Conservative publisher Steve Forbes withdrew generous donations to Princeton after Singer was appointed professor of bioethics His belief that infanticide is sometimes morally justified has appalled people from all walks of life Peter Singer Under Fire gives a platform to his critics on many contentious issues Leaders of the disability rights group Not Dead Yet attack Singer's views on disability and euthanasia Economists criticize the effectiveness of his ideas for solving global poverty Philosophers expose problems in Singer's theory of utilitarianism and ethicists refute his position on abortion Singer's engaging Intellectual Autobiography explains how he came by his controversial views while detailed replies to each critic reveal further surprising aspects of his unique outlook **Foundations of Healthcare Ethics** Jānis T. Ozoliņš, Joanne Grainger, 2015-04-08 In order to provide the highest level of care to patients and clients health professionals need a sound knowledge and understanding of healthcare ethics Foundations of Healthcare Ethics Theory to Practice focuses on the philosophical concepts underpinning contemporary ethical discourse for health professionals and arms both students and professionals with the knowledge to tackle situations of moral uncertainty in clinical practice Specially written to provide an in depth study into the theoretical foundations of healthcare ethics it covers a range of normative ethical theories from virtue ethics to utilitarianism while also investigating their application to contemporary issues in health care and society It provides opportunities for self directed learning and presents questions and case studies to facilitate engagement and discussion Foundations of Healthcare Ethics provides both students and professionals with an understanding of the philosophy governing healthcare ethics in order to help provide a better level of care to patients and clients Intellectual Disabilities and Autism: Ethics and Practice Andria Bianchi, Janet A. Vogt, 2024-08-31 This book meaningfully reflects upon difficult timely and debated ethics questions relating to people with intellectual disabilities IDs and autistic people The book challenges now dated perceptions and introduces innovative ideas by leading scholars regarding some of the most complex controversial and relevant ethical dilemmas involving these neurodiverse populations People with IDs and or those on the autism spectrum continue to experience various forms of oppression and unjust treatment across the globe despite the UN Convention on the Rights of Persons with Disabilities CRPD The collection explores questions such as Can people with IDs make informed decisions about their medical treatment living circumstances and overall life What are the ethical implications of selective termination of pregnancy based on a gene linked to a condition conferring intellectual impairment How can we ensure that people with IDs and autistic people are meaningfully included in research Can people with IDs successfully parent How can we support the capabilities of neurodiverse populations such that they enjoy the rights afforded by the CRPD Each contributor critically examines how we can move forward to create a world that understands and respects the rights of every person with ID and

or autism An indispensable read for bioethicists ethics students social justice scholars and others interested in and working with people with IDs and autistic people **How Ethical Systems Change: Abortion and Neonatal Care** Sheldon Ekland-Olson, Elyshia Aseltine, 2012-04-23 Roe v Wade came like a bolt from the blue but support had been building for years For many the idea that life in the womb was not fully protected under the Constitution was simply not acceptable Political campaigns were organized and protests launched including the bombing of clinics and the killing of abortion providers Questions about the protection and support of life continued after birth This book is based on a hugely popular undergraduate course taught at the University of Texas and is ideal for those interested in the social construction of social worth social problems and social movements This book is part of a larger text Who Lives Who Dies Who Decides <http://www.routledge.com/books/details/9780415892476> **Children and Health Care** L.M. Kopelman, J.C. Moskop, 2007-08-26 Before

a separate Department of Medical Humanities was formed the editors of this volume were faculty members of the Department of Pediatrics at our medical school Colleagues daily spoke of the moral and social problems of children's health care Our offices were near the examining rooms where children had their bone marrow procedures done Since this is a painful test we often heard them cry The hospital floor where the sickest children stayed was also nearby The physicians nurses and social workers believed that children's health care needs were not being met and that more could and should be done Fewer resources are available for a child than for an adult with a comparable illness they said These experiences prompted us to prepare this volume and to ask whether children do get their fair share of the health care dollar Since the question What kind of health care do we owe to our children is complex responses should be rooted in many disciplines These include philosophy law public policy and of course the health professions Representing all of these disciplines contributors to this volume reflect on moral and social issues in children's health care The last hundred years have brought great changes in health care for children The specialty of pediatrics developed during this period and with it a new group of advocates for children's health care Women's suffrage gave a political boost to the recognition of children's special health needs

Bioethics in Historical Perspective Sarah Ferber, 2013-11-28 How influential has the Nazi analogy been in recent medical debates on euthanasia Is the history of eugenics being revived in modern genetic technologies And what does the tragic history of thalidomide and its recent reintroduction for new medical treatments tell us about how governments solve ethical dilemmas Bioethics in Historical Perspective shows how our understanding of medical history still plays a part in clinical medicine and medical research today With clear and balanced explanations of complex issues this extensively documented set of case studies in biomedical ethics explores the important role played by history in thinking about modern medical practice and policy This book provides student readers with up to date information about issues in bioethics as well as a guide to the most influential ethical standpoints New twists added to well known stories will engage those more familiar with the challenging field of contemporary bioethics **Challenges to the Human Rights of People with Intellectual**

Disabilities Frances Owen, Dorothy Griffiths, 2008-12-15 This book provides a multidisciplinary examination of human rights and the lives of people with intellectual disabilities It combines historical psychological philosophical social educational medical and legal perspectives to form a unique and insightful account of the subject **Community Disability Services**

Ian James Dempsey, Karen Nankervis, 2006 The first Australasian text on community disability services to provide a ready source of evidence based practice and service management guidelines It seeks to provide an integration of principles policy and practice in disability service provision in the 21st century **Philosophical Ethics in Reproductive Medicine** David

R. Bromham, Maureen E. Dalton, Jennifer C. Jackson, 1990 *The Routledge Critical Adoption Studies Reader* Emily Hipchen, 2023-12-22 The Routledge Critical Adoption Studies Reader presents a central source of scholarly approaches arranged around fundamental questions about how adoption as a complex practice of family making is represented in art philosophy the law history literature political science and other humanities Divided into three major parts this volume traces the history of adoption and its analogues identifies major movements in the practice and illuminates comprehensive disciplinary frameworks that underpin the field's approaches This key scholarly and pedagogical tool includes excerpts from scholars such as Judith Butler Dorothy Roberts Margaret Homans Margaret D Jacobs Arissa Oh Marianne Novy and Kori Graves It explores a variety of representations of adoption and embraces interdisciplinary discussions of reproduction as it intersects race ethnicity power relations the concept of nation history the idea of childhood and many other contemporary concerns The Routledge Critical Adoption Studies Reader provides a single volume resource for instructors or students who want a convenient collection of foundational materials for teaching or reference and for researchers newly discovering the field This volume's humanities perspective makes it the first of its kind to collect secondary materials in Critical Adoption Studies for researchers who in taking up cultural representations of adoption examine cultural contexts not for their impact on the practice over time but for their richness of engagement with the human experience of belonging kinship and identity

Children's Health And Children's Rights Michael Freeman, Michael David Alan Freeman, 2006 This volume examines critically some of the most pertinent and controversial issues relating to children and health care Insights are offered into some of today's leading controversies about children and their rights The focus is on such issues as anorexia circumcision autism and gender reassignment A number of the essays in this collection were previously published in the International Journal of Children's Rights Law and the Contradictions of the Disability Rights Movement Samuel R.

Bagenstos, 2009-06-23 The passage of the Americans with Disabilities Act in 1990 was hailed as revolutionary legislation but in the ensuing years restrictive Supreme Court decisions have prompted accusations that the Court has betrayed the disability rights movement The ADA can lay claim to notable successes yet people with disabilities continue to be unemployed at extremely high rates In this timely book Samuel R Bagenstos examines the history of the movement and discusses the various often conflicting projects of diverse participants He argues that while the courts deserve some criticism some may

also be fairly aimed at the choices made by prominent disability rights activists as they crafted and argued for the ADA The author concludes with an assessment of the limits of antidiscrimination law in integrating and empowering people with disabilities and he suggests new policy directions to make these goals a reality Reproductive Issues in America Janna Merrick, Robert H. Blank, 2003-08-06 A balanced and thoughtful analysis of human reproduction issues in the United States with emphasis on the ethical and policy implications of cutting edge reproductive technologies Few subjects are as divisive and partisan as the issues surrounding the propagation of the human species This thorough examination covers the full scope of the debates and offers an up to the minute survey of the controversial technologies that are at the heart of reproductive rights in the United States The areas explored range from abortion and sterilization to fetal research and human cloning The moral societal and public policy implications of each subject are examined thoroughly with emphasis on those areas where cutting edge technology has raced ahead of public policy thereby creating new concerns for ethicists and policy makers Legislative oversight or the freedom to pursue reproductive technologies at any cost this debate is far from over **A Life Beyond Reason** Chris Gabbard, 2019-05-28 An unflinching and luminous memoir that explores a father's philosophical transformation when he must reconsider the questions what makes us human and whose life is worth living Before becoming a father Chris Gabbard was a fast track academic finishing his doctoral dissertation at Stanford A disciple of Enlightenment thinkers he was a devotee of reason believed in the reliability of science and lived by the dictum that an unexamined life is not worth living That is until his son August was born Despite his faith that modern medicine would not fail him August was born with a severe traumatic brain injury as a likely result of medical error and lived as a spastic quadriplegic who was cortically blind profoundly cognitively impaired and nonverbal While Gabbard tried to uncover what went wrong during the birth and adjusted to his new role raising a child with multiple disabilities he began to rethink his commitment to Enlightenment thinkers who would have concluded that his son was doomed to a life of suffering But August was a happy child who brought joy to just about everyone he met in his 14 years of life and opened up Gabbard's capacity to love Ultimately he comes to understand that his son is undeniably a person deserving of life A Life Beyond Reason will challenge readers to reexamine their beliefs about who is deserving of humanity
