Showdown At Opal Creek The Battle For Americas Last Wilderness:

Showdown at Opal Creek David Seideman,1993 An account of the conflict over whether to preserve or cut down forests in Oregon s Cascade Mountains **Opal Creek Forest Preserve Act** United States. Congress. House. Committee on Natural Resources. Subcommittee on National Parks, Forests, and Public Lands,1995 Distributed to some depository libraries in microfiche **Grant's Getaways: 101 Oregon Adventures** Grant McOmie,2013-04-02 Grant has long been a favorite of mine and now he s sharing the how what where and when of his insightful outdoor adventures Whether tree climbing cooking up a crawfish boil digging clams and fossils kayaking snowshoeing or soaring skyward Grant offers 101 concise vignettes that intrigue and encourage us to lace up our boots and get out there As Grant so aptly puts Why live here if you don t go searching for those singular moments which set Oregon apart Amen MJ Cody co editor of Wild in the City Emmy Award winning journalist and fifth generation Oregon native Grant McOmie provides travelers with an in depth guide to 101 of the best Oregon destinations featured in his popular television series Grant s Getaways produced by KGW TV and Travel Oregon Come along with Grant McOmie as he explores family friendly destinations and day trips across the width and breadth of Oregon From kayaking in Netarts Bay riding a jet boat on the Rogue River and fishing for Deschutes River steelhead to exploring Lava River Cave in the Newberry Volcanic National Monument digging for fossils in the John Day Basin and riding mountain bikes at Black Rock Grant s Getaways 101 Oregon Adventures has an outdoor adventure for everyone The book is organized by the month in which the television segment was filmed and features 75 photographs from Grant s outdoor adventures Also included are travel tips such as What to Know if You Go and Best Time of the Year as well as access information *Empire of Timber* Erik Loomis,2016 This is the first book to center labor unions as actors in American environmental policy **The Pacific Northwest** Carlos A. Schwantes,1996-01-01 Carlos Arnaldo Schwantes has revised and expanded the entire work which is still the most comprehensive and balanced history of the region This edition contains significant additional material on early mining in the Pacific Northwest sea routes to Oregon in the early discovery and contact period the environment of the region the impact of the Klondike gold rush and politics since 1945 Recent environmental controversies such as endangered salmon runs and the spotted owl dispute have been addressed as has the effect of the Cold War on the region s economy The author has also expanded discussion of the roles of women and minorities and updated statistical information Selected References Concerning the USDA Forest Service ,1995 **In a Dark Wood** Alston Chase,2017-07-12 In a Dark Wood presents a history of debates among ecologists over what constitutes good forestry and a critique of the ecological reasoning behind contemporary strategies of preservation including the Endangered Species Act Chase argues that these strategies in many instances adopted for political rather than scientific reasons fail to promote biological diversity and may actually harm more creatures than they help At the same time Chase offers examples of conservation strategies that work but which are deemed politically incorrect and ignored In a Dark Wood provides the most

thoughtful and complete account yet written of radical environmentalism And it challenges the fundamental but largely unexamined assumptions of preservationism such as those concerning whether there is a balance of nature whether all branches of ecology are really science and whether ecosystems exist In his new introduction Chase evaluates the response to his book and reports on recent developments in environmental science policy and politics In a Dark Wood was judged by a recent national poll to be one of the one hundred best nonfiction books written in the English language during the twentieth century A smashing good read this book will be of interest to environmentalists ecologists philosophers biologists and bio ethicists and anyone concerned about ecological issues

Environmental Ethics and Forestry Peter C. List, 2000 During the past twenty five years North American forestry has received increasingly vigorous scrutiny Critics including the environmentalists environmental scientists representatives of public interest groups and many individual citizens have expressed concerns about forestry's basic assumptions and methods as well as its practical outcomes Criticism has centered on such issues as the exploitation of forests for timber production the reduction and fragmentation of old growth habitats the destruction of biodiversity the degradation of grasslands through grazing practices lack of government attention to recreation facilities silvicultural methods like clearcutting and the use of herbicides and pesticides the exportation of industrial forestry techniques to other parts of the world and the use of public monies to provide services for private resource companies as in the creation of logging roads This rising tide of public scrutiny has led many foresters to suspect that their contract with society to manage forests using their best professional judgment had been undermined Some of these professionals as well as some of their critics have begun to reexamine their old beliefs and to look for new ways of practicing forestry Part of this reflective process has entailed new directions in environmental ethics and environmental philosophy This reader brings together some of the new thinking in this area Here students of the applied environmental and natural resource sciences as well as the interested general reader will discover a rich sampling of writings in environmental ethics and philosophy as they apply to forestry Readings focus on basic ethical systems in forestry and forest management philosophical issues in forestry ethics codes of ethics in forestry and related natural resource sciences such as fisheries science and wildlife biology Aldo Leopold's land ethic in forestry ethical advocacy and whistleblowing in government resource agencies the ethics of new forestry ecoforestry and public debate in forestry as well as ethical issues in global forestry such as the responsibilities of forest corporations environmentalists and individual wood consumers This volume contains materials from the founders of forestry ethics such as Bernhard Fernow Gifford Pinchot John Muir and Aldo Leopold from such organizations as the Society of American Foresters the Wildlife Society the American Fisheries Society Forest Service Employees for Environmental Ethics and the Ecoforesters group in addition to writings by a variety of well known environmental philosophers and foresters including Holmes Rolston Robin Attfield Lawrence Johnson Michael McDonald Paul Wood James E Coufal Raymond Craig Kristin Shrader Frechette Jeff DeBonis Jim L Bowyer Alasdair Gunn Goug Gaigle Alan G

McQuillan Stephanie Kaza Alan Dregson Duncan Taylor and Kathleen Dean Moore Author note Peter C List is Professor of Philosophy at Oregon State University where he teaches courses on environmental ethics ethical issues in the natural resource sciences and sustainable forestry He is the author of articles on Aldo Leopold s land ethic and co author of several articles on public attitudes about federal forests and forest management published in the Journal of Forestry and Society and Natural Resources **Wilderness** ,1992 **The Rebirth of Environmentalism** Douglas Bevington,2012-06-22 Over the past two decades a select group of small but highly effective grassroots organizations have achieved remarkable success in protecting endangered species and forests in the United States The Rebirth of Environmentalism tells for the first time the story of these grassroots biodiversity groups Filled with inspiring stories of activists groups and campaigns that most readers will not have encountered before The Rebirth of Environmentalism explores how grassroots biodiversity groups have had such a big impact despite their scant resources and presents valuable lessons that can help the environmental movement as a whole as well as other social movements become more effective **Oregon's Promise** David Peterson del Mar,2003 The first history of Oregon to appear in twenty five years Oregon s Promise explores familiar and neglected people and movements in the state s history while challenging readers to view Oregon s past present and future in a new way David Peterson del Mar recognizes that the words Oregon history conjure up images of Lewis and Clark and rugged pioneers But he argues that the explorers impact was both different from and less significant then commonly assumed and that the state s settlers were much more varied contentious complicated and interesting than conventional heroic stereotypes would suggest Oregon s Promise is a concise general history spanning the period from that of the region s earliest inhabitants to the present It moves beyond the more familiar episodes of Oregon history to discuss indigenous peoples before and after contact with whites the profound and evolving impact of broad forces like industrialization and suburbanization and the varied fortunes of a growing stream of people from across the world who have sought the good life in Oregon It explores the tensions behind contemporary disagreements rending our political social and cultural fabric The book s many themes revolve around Peterson del Mar s consideration of how Oregonians have attempted to build a prosperous and just society He examines both the traditional center of Oregon history and its often overlooked margins the people who have struggled to be included in Oregon s promise Each chapter includes brief biographies of noteworthy Oregonians David Peterson del Mar is both a respected historian and an engaging writer with a talent for explaining Oregon s past in a way that will appeal to general readers as well as to scholars and students **These American Lands: Parks, Wilderness, and the Public Lands** Dyan Zaslow, Tom H. Watkins,1994-07 The preservation of our nation s natural heritage has become a model throughout the world but the fight to keep public land unspoiled from the Everglades to Alaskan mountain ranges is never ending as this lively and dramatic history of America reveals **Bibliography of Agriculture with Subject Index** ,1993-10
