The Hidden Europe Francis Tapon,2012 For many Westerners Eastern Europe is about as appealing as a deodorant free French armpit That didn t scare Francis Tapon because not only did he learn how to rough it by walking across America four times but he is also half French so he kind of smells too Francis spent nearly 3 years travelling and backpacking in 25 Eastern European countries It started with a 5 month trip in 2004 He returned in 2008 to spend 3 years exploring all the countries again The Hidden Europe is Book Two of the WanderLearn Series Relentless Yngwie J. Malmsteen,2013-05-21 The rock and roll memoir of one of the world s greatest guitarists Yngwie Malmsteen s revolutionary guitar style combining elements of classical music with the speed and volume of heavy metal made him a staple of the 80s rock scene Decades later he s still a legend among guitarists having sold 11 million albums and influenced generations of rockers since In Relentless Malmsteen shares his personal story from the moment he burst onto the scene seemingly out of nowhere in the early 80s to become a household name in the annals of heavy metal Along the way he talks about his first bands going solo his songwriting and recording process and the seedy side of the rock business Malmsteen was named one of Time magazine s ten greatest electric guitar players The author s most recent album Spellbound was released in December 2012 Ideal for guitar players heavy metal fans and those who enjoy rock memoirs Dreaming Japanese Marty Friedman,2024-12-03 The rollicking autobiography of the iconic guitarist who took thrash metal behemoths Megadeth from the edge of collapse to their highest peak before departing to Japan for the joy of J Pop The story of how he got where he is is fascinating The Megadeth years have been well documented but there s so much more to Marty Friedman s story and it s well worth reading about in Dreaming Japanese Decibel Magazine Marty Friedman s upbringing was as atypical as his career Growing up in a Jewish household in Maryland the son of an NSA executive he lacked motivation until he accidentally discovered the guitar and immediately found his calling Enjoying a hazy adolescence overflowing with partying music and teen antics he achieved local stardom in Deuce then burst onto the national scene by pioneering a radically new style of playing bringing attention to the guitar aficionado label

Shrapnel Records Acclaim didn't breed success or money but undeterred Friedman moved to California and after attempts to join Madonna KISS and Ozzy Osbourne finally scored a gig in Megadeth at a time when the band members were just recovering from the verge of self destruction and Marty was in and out of homelessness Friedman is the most revered guitarist to play in any Megadeth lineup During his ten years his exotic innovating style helped define the sound of their biggest albums and while it elevated him to guitar hero status with all the accompanying perks it came at a significant cost As the only clean and sober member Friedman vividly recalls the triumphs and trials of each album cycle and more bringing to light previously undisclosed personal feelings surrounding the circumstances that forced the band into hiding in the midst of the Countdown to Extinction Tour and the brutal effort it took to get the band back up and running His profound and complicated relationship with frontman Dave Mustaine was symbolic of the band's insane dynamic and Marty poignantly and generously shares his experiences within the band's inner sanctum during the highs lows and daily routines But Dreaming Japanese is far more than a memoir about Friedman's multi Platinum years in Megadeth The riveting narrative captures his relentless perseverance as he struggles to start again from nothing Spontaneously leaving his home in the US and feeling lost in the middle of Tokyo with few connections or concrete plans the story traces his journey to acclimate and assimilate into the inner core of an alien society language and culture almost like a double agent spy In fascinating detail and clarity Marty shares how he gradually made inroads into the Japanese entertainment industry becoming a household name and fixture on mainstream television and earning respect as a highly influential solo artist Dreaming Japanese follows the wildly entertaining inspiring and above all unprecedented path of a rock and roll guitar player who took the biggest risk leaving worldwide success to start over from scratch in a country culture and society far from his own ultimately becoming an official ambassador of Japan
