Madancy,2020-03-23 In 1908 a very public crusade against opium was in full swing throughout China and the provincial capital and treaty port of Fuzhou was a central stage for the campaign This the most successful attempt undertaken by the Chinese state before 1949 to eliminate opium came at a time when according to many historians China s central state was virtually powerless This volume attempts to reconcile that apparent contradiction The remarkable albeit temporary success of the anti opium campaign between 1906 and 1920 is as yet largely unexplained How these results were achieved how that progress was squandered and why China s opium problem proved so tenacious are the questions that inspired this volume The attack on this social problem was led by China s central and provincial authorities aided by reformist elites and seemingly supported by most Chinese The anti opium movement relied on the control and oversight provided by a multilayered state bureaucracy the activism and support of unofficial elite led reform groups the broad nationalistic and humanitarian appeal of the campaign and the cooperation of the British government The extent to which the Chinese state was able to control the pace and direction of the anti opium campaign and the evolving nature of the political space in which elite reformers publicized and enforced that campaign are the guiding themes of this analysis **Jean-Jacques Lebel and French Happenings of the 1960s** Laurel Jean Fredrickson,2021-03-25

Combining a broad overview of Jean Jacques Lebel s coming of age among Surrealists and his rupture with the movement Laurel Jean Fredrickson focuses on two landmark happenings in this book the first Funeral of the Thing of Tinguely 1960 and the most scandalous 120 Minutes dedicated to the Divine Marquis 1966 This study illustrates the development and significance of French happenings in relation to cultural and political changes of the 1960s Research in Lebel s archives and others like the Archives nationale d outre mer are indispensable in the telling of this extraordinary historical and theoretical narrative It illuminates sensitive often veiled dimensions of postwar French society from torture during the Algerian War to government censorship to the sexual politics of nudity in art This volume shows how Lebel synthesized the lessons of Dada and surrealism and 1960s experimentalism electrified by political radicalism to participate in shaping the erotics and forms of revolution in May 1968 **Sailor**

**Diplomat** Peter Mauch,2020-03-17 As Japan s pre Pearl Harbor ambassador to the United States Admiral Nomura Kichisaburo 1877 1964 played a significant role in a tense and turbulent period in Japanese U S relations Scholars tend to view his actions and missteps as ambassador as representing the failure of diplomacy to avert the outbreak of hostilities between the two paramount Pacific powers This extensively researched biography casts new light on the life and career of this important figure Connecting his experiences as a naval officer to his service as foreign minister and ambassador and later as father of Japan s Maritime Self Defense Forces and proponent of the U S Japanese alliance this study reassesses

Nomura's contributions as a hard-nosed realist whose grasp of the underlying realities of Japanese-U.S. relations went largely unappreciated by the Japanese political and military establishment      Tradition, Treaties, and Trade Kirk W.

Larsen, 2020-03-23 Relations between the Chosŏn and Qing states are often cited as the prime example of the operation of the traditional Chinese tribute system. In contrast, this work contends that the motivations, tactics, and successes and failures of the late Qing Empire in Chosŏn Korea mirrored those of other nineteenth-century imperialists. Between 1850 and 1910 the Qing attempted to defend its informal empire in Korea by intervening directly not only to preserve its geopolitical position but also to promote its commercial interests. And it utilized the technology of empire: treaties, international law, the telegraph, steamships, and gunboats. Although the transformation of Qing Chosŏn diplomacy was based on modern imperialism, this work argues that it is more accurate to describe the dramatic shift in relations in terms of flexible adaptation by one of the world's major empires in response to new challenges. Moreover, the new modes of Qing imperialism were a hybrid of East Asian and Western mechanisms and institutions. Through these means, the Qing Empire played a fundamental role in Korea's integration into regional and global political and economic systems      **Fishing Wars and Environmental Change in Late Imperial and Modern China** Micah S. Muscolino, 2009

This work explores interactions between society and environment in China's most important marine fishery, the Zhoushan Archipelago off the coast of Zhejiang and Jiangsu, from its 19th-century expansion to the exhaustion of the most important fish species in the 1970s      **Gender Struggles** Christopher

Gerteis, 2024-11-01 Gerteis demonstrates that Japanese organized labor's discourse on womanhood not only undermined women's status within the labor movement but also prevented unions from linking with the emerging woman-led neighborhood-centered organizations that typified social movements in the 1960s      *Critical Aesthetics* James

Dorsey, 2020-03-17 This study revolves around the career of Kobayashi Hideo (1902–1983), one of the seminal figures in the history of modern Japanese literary criticism whose interpretive vision was forged amidst the cultural and ideological crises that dominated intellectual discourse between the 1920s and the 1940s. Kobayashi sought in criticism a vehicle through which to rhetorically restore to the artistic work an aura of concreteness that precluded interpretation and instead inspired awe to somehow recover a literary experience unmediated by intellectual machinations. In adhering firmly to this worldview for the duration of World War II, Kobayashi came to assume a complex stance toward the wartime regime. Although his interweaving of aesthetics and ideology exhibited elements of both resistance and complicity, his critical ethos served ultimately to undergird his wartime fascist stance by encouraging acquiescence to authority, championing patriotism, and calling for more vigorous thought control. Treating Kobayashi's influential works and the historical context in which they are rooted, James Dorsey traces the emergence of a modern critical consciousness in conversation with such concerns as the nature of materiality in capitalist culture, the relationship of narrative to subjectivity, and the nostalgia for beauty in a time of war      *Government by Mourning* Atsuko Hirai, 2020-03-17 From the early seventeenth to the mid-nineteenth century, the

Tokugawa shogunate enacted and enforced myriad laws and ordinances to control nearly every aspect of Japanese life including observance of a person's death. In particular the shoguns Tsunayoshi and Yoshimune issued strict decrees on mourning and abstention that dictated compliance throughout the land and survived the political upheaval of the Meiji Restoration to persist well into the twentieth century. Atsuko Hirai reveals the pivotal relationship between these shogunal edicts and the legitimacy of Tokugawa rule. By highlighting the role of *narimono chojirei* injunctions against playing musical instruments within their broader context she shows how this class of legislation played an important integrative part in Japanese society not only through its comprehensive implementation especially for national mourning of major political figures but also by its codification of the religious beliefs and customs that the Japanese people had cherished for innumerable generations.

**Modanizumu** William J. Tyler, 2008-01-04 Remarkably little has been written on the subject of modernism in Japanese fiction. Until now there has been neither a comprehensive survey of Japanese modernist fiction nor an anthology of translations to provide a systematic introduction. Only recently have the terms modernism and modernist become part of the standard discourse in English on modern Japanese literature and doubts concerning their authenticity vis à vis Western European modernism remain. This anomaly is especially ironic in view of the decidedly modern prose crafted by such well known Japanese writers as Kawabata Yasunari, Nagai Kafu and Tanizaki Jun ichiro. By contrast scholars in the visual and fine arts, architecture and poetry readily embraced *modanizumu* as a key concept for describing and analyzing Japanese culture in the 1920s and 1930s. This volume addresses this discrepancy by presenting in translation for the first time a collection of twenty five stories and novellas representative of Japanese authors who worked in the modernist idiom from 1913 to 1938. Its prefatory materials provide a systematic overview of the literary movement's salient features: anti naturalism, cosmopolitanism, the concept of the double self and actionism, and describe how *modanizumu* evolved from its early jagged edges into a sophisticated yet popular expression of Japanese urban life in the first half of the twentieth century. The modernist style characterized by youthful exuberance, a tongue-in-cheek tone and narrative techniques like superimposition is amply illustrated. *Modanizumu* introduces faces altogether new or relatively unknown: Abe Tomoji, Kajii Motojiro, Murayama Kaita, Osaki Midori, Tachibana Sotoo, Takeda Rintaro, Tani Joji, Yoshiyuki Eisuke and Yumeno Kyusaku. It also revisits such luminaries as Kawabata, Tanizaki and the detective novelist Edogawa Ranpo. Key works that it culls from the modernist repertoire include Funahashi Seiichi's *Diving*, Hagiwara Sakutarō's *Town of Cats*, Ito Sei's *Streets of Fiendish Ghosts* and Kawabata's film scenario *Page of Madness*. This volume moves beyond conventional views to place this important movement in Japanese fiction within a global context, an indigenous expression born of the fusion of local creativity and the fusion of cross-cultural interaction.

**War, Occupation, and Creativity** Marlene J. Mayo, J. Thomas Rimer, H. Eleanor Kerkham, 2001-05-01 This collection of essays based on international collaboration by scholars in Japan, South Korea, Taiwan and the United States is the first systematic interdisciplinary attempt to address the social, political and spiritual significance

of the modern arts both in Japan and its empire between 1920 and 1960 These forty years punctuated by war occupation and reconstruction were turbulent and brutal but also important and even productive for the arts The volume takes a trans war rather than an inter war approach beginning with the cultural politics of painting poetry and fiction in Japanese occupied Korea and Taiwan following World War I The narrative continues with the impact of Japan s war in China and the Pacific War on major Japanese novelists playwrights painters and filmmakers before moving on to the final stage Japan s defeat and initial recovery During the Allied Occupation of Japan and in its aftermath Japanese artists both confronted and dismissed the question of war responsibility by preserving reviving or reinventing the political cartoon Kabuki drama literature of the body and the aesthetics of decadence Contributors Haruko Taya Cook Kyoko Hirano Youngna Kim Kim Youngna H Eleanor Kerkham David R McCann Marlene J Mayo J Thomas Rimer Mark H Sandler Rinjiro Sodei Wang Hsui hsiung Wang Xiuxiong Alan Wolfe Angelina C Yee     *Spectacle and Sacrifice* David Johnson,2020-03-17 This book is about the ritual world of a group of rural settlements in Shanxi province in pre 1949 North China Temple festivals with their giant processions elaborate rituals and operas were the most important influence on the symbolic universe of ordinary villagers and demonstrate their remarkable capacity for religious and artistic creation The great festivals described in this book were their supreme collective achievements and were carried out virtually without assistance from local officials or educated elites clerical or lay Chinese culture was a performance culture and ritual was the highest form of performance Village ritual life everywhere in pre revolutionary China was complex conservative and extraordinarily diverse Festivals and their associated rituals and operas provided the emotional and intellectual materials out of which ordinary people constructed their ideas about the world of men and the realm of the gods It is David Johnson argues impossible to form an adequate idea of traditional Chinese society without a thorough understanding of village ritual Newly discovered liturgical manuscripts allow him to reconstruct North Chinese temple festivals in unprecedented detail and prove that they are sharply different from the Daoist and Buddhist based communal rituals of South China     *Great Walls of Discourse and Other Adventures in Cultural China* Haun Saussy,2001 In six interpretive studies of China the author examines the ways in which the networks of assumption and consensus that make communication possible within a discipline affect collective thinking about the object of study     *The Making of Shinkokinshū* Robert N. Huey,2002 Scholars have often taken Shinkokinshu 1205 to represent a nostalgia for greatness presumed to have been lost in the wars of the late 1100s The author argues that the compilers of this anthology of waka poetry instead saw their collection as a new beginning a revitalization and affirmation of courtly traditions and not a reaction to loss     **Transmitters and Creators** John Makeham,2020-03-23 The Analects Lunyu is one of the most influential texts in human history As a putative record of Confucius s 551 479 B C E teachings and a foundational text in scriptural Confucianism this classic was instrumental in shaping intellectual traditions in China and East Asia until the early twentieth century But no premodern reader read only the text of the Analects itself Rather the Analects was embedded in a

web of interpretation that mediated its meaning Modern interpreters of the Analects only rarely acknowledge this legacy of two thousand years of commentaries How well do we understand prominent or key commentaries from this tradition How often do we read such commentaries as we might read the text on which they comment Many commentaries do more than simply comment on a text Not only do they shape the reading of the text but passages of text serve as pretexts for the commentator to develop and expound his own body of thought This book attempts to redress our neglect of commentaries by analyzing four key works dating from the late second century to the mid nineteenth century a period substantially contemporaneous with the rise and decline of scriptural Confucianism the commentaries of He Yan ca 190 249 Huang Kan 488 545 Zhu Xi 1130 1200 and Liu Baonan 1791 1855 and Liu Gongmian 1821 1880     *Empires on the Waterfront*

Catherine L. Phipps,2020-05-11 *Empires on the Waterfront* offers a new spatial framework for understanding Japan s extended transition into the modern world of nation states This study examines a largely unacknowledged system of special trading ports that operated under full Japanese jurisdiction in the shadow of the better known treaty ports By allowing Japan to circumvent conditions imposed on treaty ports the special trading ports were key to achieving autonomy and regional power Catherine L Phipps uses an overtly geographic approach to demonstrate that the establishment of Japan s maritime networks depended on initiatives made and carried out on multiple geographical scales global national and local The story of the special trading ports unfolds in these three dimensions Through an in depth assessment of the port of Moji in northern Kyushu *Empires on the Waterfront* recasts the rise of Japan s own empire as a process deeply embedded in the complicated system of maritime relations in East Asia during the pivotal second half of the nineteenth century     **Brokers of Empire**

Jun Uchida,2020-03-17 Between 1876 and 1945 thousands of Japanese civilians merchants traders prostitutes journalists teachers and adventurers left their homeland for a new life on the Korean peninsula Although most migrants were guided primarily by personal profit and only secondarily by national interest their mundane lives and the state s ambitions were inextricably entwined in the rise of imperial Japan Despite having formed one of the largest colonial communities in the twentieth century these settlers and their empire building activities have all but vanished from the public memory of Japan s presence in Korea Drawing on previously unused materials in multi language archives Jun Uchida looks behind the official organs of state and military control to focus on the obscured history of these settlers especially the first generation of pioneers between the 1910s and 1930s who actively mediated the colonial management of Korea as its grassroots movers and shakers By uncovering the downplayed but dynamic role played by settler leaders who operated among multiple parties between the settler community and the Government General between Japanese colonizer and Korean colonized between colony and metropole this study examines how these brokers of empire advanced their commercial and political interests while contributing to the expansionist project of imperial Japan
