Towers and Temples of Ancient Ireland Marcus Keane, 1867      *Irish Shrines & Reliquaries of the Middle Ages* Ragnall Ó Floinn, 1994 In today's world it is difficult to imagine the power that relics shrines and sacred images exerted over the medieval mind The use of relics in Ireland dates to the introduction of Christianity the earliest recorded being those of the early martyrs and saints Some relics consisted of parts of the remains of certain holy individuals while others were objects used by or associated with these people during their lifetime They were usually kept in specially made reliquaries or shrines most of which could be carried about Apart from their symbolic or devotional function relics were used to effect miraculous cures to swear oaths as battle talismans or were carried on circuit by clerics to promulgate the laws of a particular religious foundation In this book Ragnall Ó Floinn examines the remarkable collection of reliquaries and shrines in the National Museum of Ireland many of which have survived centuries of destruction and damage warfare and neglect He traces the history of relics in Ireland the traditions associated with them and their social and historical importance

**Churches in Early Medieval Ireland** Tomás Ó Carragáin, 2010 This is the first book devoted to churches in Ireland dating from the arrival of Christianity in the fifth century to the early stages of the Romanesque around 1100 including those built to house treasures of the golden age of Irish art such as the Book of Kells and the Ardagh chalice Carragáin's comprehensive survey of the surviving examples forms the basis for a far reaching analysis of why these buildings looked as they did and what they meant in the context of early Irish society Carragáin also identifies a clear political and ideological context for the first Romanesque churches in Ireland and shows that to a considerable extent the Irish Romanesque represents the perpetuation of a long established architectural tradition

Medieval Ireland is often described as a backward looking nation in which change only came about as a result of foreign invasions By examining the wealth of under explored evidence available Downham challenges this popular notion and demonstrates what a culturally rich and diverse place medieval Ireland was Starting in the fifth century when St Patrick arrived on the island and ending in the fifteenth century with the efforts of the English government to defend the lands which it ruled directly around Dublin by building great ditches this up to date and accessible survey charts the internal changes in the region Chapters dispute the idea of an archaic society in a wide range of areas with a particular focus on land use economy society religion politics and culture This concise and accessible overview offers a fresh perspective on Ireland in the Middle Ages and overthrows many enduring stereotypes *The Archaeology of Celtic Britain and Ireland* Lloyd Robert Laing,2006-06-29 This book first published in 2006 surveys the archaeology of the Celtic speaking areas of Britain and Ireland AD 400 to 1200 Journal of the Royal Society of Antiquaries of Ireland Royal Society of Antiquaries of Ireland,1892

Early Christian Ireland Patrick Power,1925 **The Reformations in Ireland** Samantha A. Meigs,1997-10-13 Why was Ireland the only region in Europe which successfully rejected a state imposed religion during the confessional era This book argues that the anomalous outcome of the Reformations in Ireland was largely due to an unusual symbiosis between the Church and the old bardic order Using sources ranging from Gaelic poetry to Jesuit correspondence this study examines Irish religiosity in a European context showing how the persistence of traditional culture enabled local elites to resist external pressures for reform Journal of the Royal Historical and Archaeological Association of Ireland Royal Society of Antiquaries of Ireland,1897 Index of archaeological papers published in 1891 under the direction of the Congress of Archaeological Societies in union with the Society of Antiquaries *The Origins of Early Christian Ireland* Harold Mytum,2024-11-18 The cultural developments of Early Christian Ireland have long been recognised and described There have however been few attempts to date to explain why the flowering of culture should happen at the time and in the way that it did First published in 1992 The Origins of Early Christian Ireland now with a new preface by the author explains changes in the period up to AD 800 in Ireland External stimuli most notably from Irish settlers in western Britain acted as catalysts which transformed a relatively moribund Iron Age culture into one of extraordinary vigour All aspects of the culture

changed radically and changes in each had knock on effects on others Beliefs were revolutionised by Christianity society was transformed by the church as an institution and the rise of the individual agriculture was expanded by more advanced technology and the entrepreneurial flair of individual decision making craft production became more widespread and offered a vehicle for the display of personal wealth and status Long distance trade and ecclesiastical contacts integrated Ireland with the rest of Europe more effectively than ever before The book has two distinctive features which means that it relates to two forms of academic market each of which can be defined Firstly it deals with a particular culture historical period that of Early Christian Ireland and presents an explanation of its origins and development to AD 800 This appeals to archaeologists and historians of Ireland Britain and indeed Europe Secondly it takes a specific theoretical position and develops it using primarily archaeological but also extensive historical information This is the most detailed application of processualist theory yet undertaken for a historic period in Europe This appeals to archaeologists and anthropologists in Britain and also North America where the processualist approach is the most popular theoretical position Ireland Christopher Somerville,2007 In depth site descriptions and background information more than 270 vivid color photographs 26 detailed full color maps mapped walking and driving tours specially commissioned artwork complete visitor information plus hotels restaurants and more back cover **Shrines of British Saints** James Charles Wall,1905 Essays on the English State Church in Ireland William Maziere Brady,1869
