Collier,2021-11-15 *Rhetoric and Ethic* Elisabeth Schüssler Fiorenza, In this major study leading feminist biblical critic Elisabeth Schussler Fiorenza focuses on Paul and his interpreters She questions the apolitical ethos of biblical scholarship and argues for an alternative rooted in a critical understanding of language as a form of power Modern biblical criticism she reasons derives much of its methodology and inspiration from an outdated notion of modern science It professes value neutrality and detachment from the world of politics and history Yet Schussler Fiorenza maintains this posture belies an objectivity that fails to engage the sociopolitical context of both the text and today s reader It also does not recognize the rhetorical character of biblical texts and readings If language is understood in the sense of ancient rhetorics as a form of power that constitutes reality then an ethics of interpretation is called for The task of biblical studies is to identify and assess the ethical resources and moral visions of biblical religions Only then Schussler Fiorenza contends will bibical studies be a significant partner in the global struggles seeking justice and well being for all *Jew, Christian, Muslim: Faithful*

Butterfield,2016-03-31 A distillation of the thought and research to which Herbert Butterfield devoted the last twenty years of his life to this book originally published in 1981 traces how differently people understood the relevance of their past and its connection with their religion It examines ancient Egypt and Mesopotamia the political perceptiveness of the Hittites the Jewish sense of God in history of promise and fulfilment the classical achievement of scientific history and the unique Chinese tradition of historical writing The author explains the problems of the early Christians in relating their traditions of Jesus to their life and faith and the emergence when Christianity became the religion of the Roman Empire of a new historical understanding The book then charts the gradual growth of a sceptical approach to recorded authority in Islam and Western Europe the reconstruction of the past by deductive analysis of the surviving evidence and the secularisation of the eighteenth century **Routledge Library Editions: Historiography** Various,2021-06-23 The greatest problem in historical

scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking

features of Western culture Both historiography and historical thinking advanced as never before The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect Encyclopedia of Religious and Spiritual Development Elizabeth M. Dowling, W. George Scarlett, 2006 Focuses on the developmental process of religion and spirituality across the human life span This encyclopedia joins a recent trend in research and scholarship aimed at better understanding the similarities and differences between world religions and spiritualities between expressions of the divine and between experiences of the transcendent *The New Testament and Homosexuality* Robin Scroggs, Just what is a proper use of the Bible especially the New Testament in Christian debates about acceptance of homosexuals In addition to bringing clarity and honesty to issues of the relevance of the Bible this work brings a little more light and a little less heat to the discussion a little more acceptance of all persons on the other side and maybe even an awareness that in Christ there is really no other side at all **Heroes of the Faith** Herbert Wright Gates, 1909 **Thresholds** Sherre Hirsch, 2015 Part practical toolkit part inspirational guide for navigating the transformational moments of our wild and unpredictable lives p 4 of cover
