"Shut Those Thick Lips!" Gerry Rosenfeld, 1971 **Shut Those Thick Lips** Gerry Rosenfeld, 1960 **Class, Race, and the Civil Rights Movement** Jack M. Bloom, 2019-07-09 Revised and updated the award winning historical analysis of the civil rights movement examining the interplay of race and class in the American South In *Race Class and the Civil Rights Movement* sociologist Jack M Bloom explains what the civil rights movement was about why it was successful and why it fell short of some of its objectives With a unique sociohistorical analysis he argues that Southern racist practices were established by the agrarian upper class and that only when this class system was undermined did the civil rights movement become possible He also demonstrates how the movement was the culmination of political struggles beginning in the Reconstruction era and influenced by the New Deal policies of the 1930s Widely praise when it was first published 1987 *Race Class and the Civil Rights Movement* was a C Wright Mills Second Award winning book and also won the Gustavus Myers Center Outstanding Book Award In this second edition Bloom updates his study in light of current scholarship on civil rights history He also presents an analysis of the New Right within the Republican Party starting in the 1960s as a reaction to the civil rights movement

Family Life and School Achievement Reginald M. Clark, 2015-07-31 Working mothers broken homes poverty racial or ethnic background poorly educated parents these are the usual reasons given for the academic problems of poor urban children Reginald M Clark contends however that such structural characteristics of families neither predict nor explain the wide variation in academic achievement among children He emphasizes instead the total family life stating that the most important indicators of academic potential are embedded in family culture To support his contentions Clark offers ten intimate portraits of Black families in Chicago Visiting the homes of poor one and two parent families of high and low achievers Clark made detailed observations on the quality of home life noting how family habits and interactions affect school success and what characteristics of family life provide children with school survival skills a complex of behaviors attitudes and knowledge that are the essential elements in academic success Clark's conclusions lead to exciting implications for educational policy If school achievement is not dependent on family structure or income parents can learn to inculcate school survival skills in their children Clark offers specific suggestions and strategies for use by teachers parents school administrators and social service policy makers but his work will also find an audience in urban anthropology family studies and Black studies

Perfectly Prep Sarah A. Chase, 2008-03-20 Although New England boarding schools have been educating America's elite for four generations they along with their privileged students rarely have been the subject of study Living in a senior boys dorm at a co ed school Sarah Chase was able to witness the inner workings of student culture and the dynamics of their peer groups In an environment of ivy covered buildings institutional goals of excellence and aspirations to Ivy League colleges the boys and girls acted extremely masculine or feminine While girls typically worked themselves into a state of sleep deprivation and despair during exam period the boys remained seemingly unconcerned and relaxed As much as the girls felt pressure to be cute and perfect the boys felt pressure to be bad ass and the best at everything Tellingly the boys thought that it would suck to be a girl while over one third of the girls wanted to be male if given the chance From her vantage point of sitting in the back of the football and field hockey buses attending prom and senior pranks and listening to how students described their academic and social pressures competition rumors backstabbing sex and partying Chase discovered that these boys and girls shared similar values needs and desires despite their highly gendered behavior The large class ethnic and individual differences in how the students perform their genders reveal the importance of culture in development and the power of individual agency This book examines the price of privilege and uncovers how student culture reflects and perpetuates society and institutional power structures and gender ideologies

Empowerment through Multicultural Education Christine E. Sleeter, 1990-11-08 This book reframes questions about student diversity by probing the extent to which society serves the interests of all and by examining the empowerment of

H. Samuel,1970-01-01 This autobiographical account of the career of Edwin Herbert Samuel the second Viscount and son of the famous Liberal politician is distinguished both for the historical importance and for the content and incisiveness of the writing The book will prove fascinating to readers who enjoy good autobiography especially those interested in following the saga of Palestine and Israel as told by one who has observed it closely for more than fifty years The current volume presents material on Julius Simon s Zionist life and activity from the beginning of the century until the establishment of the state of Israel Selected letters and documents a chronological table and an index are included *Learning Capitalist Culture* Douglas E. Foley,2010-07-02 Building on the author s thirty six years of experience with North Town Texas this second edition presents an ethnographic study of the ways the town s youth learn traditional American values through participation in sports membership in formal and informal social groups dating and interactions with teachers in the classroom **Ghetto Schooling** Jean Anyon,1997 Argues that without fundamental change in government and business policies and restoring political power and economic opportunities to inner city residents and the redirection of major resources back into the schools and the communities they serve urban schools are consigned to failure and no effort at raising standards improving teaching or boosting achievement can occur *Cultural Proficiency* Randall B. Lindsey,Kikanza Nuri Robins,Raymond D. Terrell,2003-03-21 This book presents a rationale to support leaders of schools who are committed to cultural proficiency and provides a manual to work towards achieving this School Leadership Management Cultural Proficiency Second Edition incorporates suggestions and feedback from the authors colleagues readers clients and students resulting in an easier to use format and updated features including 39 structured activities for developing cultural proficiency
