Sibelius Symphony No 5:

Sibelius: Symphony No. 5 James Hepokoski, 1993-04 Sibelius's Fifth is one of the great late Romantic symphonies. In this searching account based on a wealth of new information, James Hepokoski takes a fresh look at the work and its composer. His findings have implications beyond Sibelius himself into the entire repertoire of Post-Wagnerian symphonic composition. The early chapters place the Fifth Symphony squarely within the general culture of European musical modernism and focus in particular on the problem of the clash of that culture with the more radical New Music experiments of an emerging younger generation of composers. Subsequent chapters include a probing consideration of Sibelius's style and meditative aesthetic, an account of how the symphony was composed, and a descriptive analysis of the final familiar version. The book concludes with a discussion of the composer's own prescribed tempos for the Fifth Symphony, along with a comparison of several different recordings. Symphony number five Antonín Dvořák, 1928 **Symphony number five [From the New World] op. 95** Antonín Dvořák, 1928 **Jean Sibelius's Legacy** Tim Howell, Anna Krohn, Veijo Murtomäki, 2017-08-21 In 2015, at the 150th anniversary of Jean Sibelius' birth, research about his music and personality is more active than ever. Recent discoveries about the musical, literary, artistic, political, and social life around him have decisively widened the scope of scholarly discussion. As part of the anniversary celebrations, a great number of Sibelius scholars gathered in Helsinki for a conference leading up to his birthday on December 8. This volume draws upon the most current achievements of Sibelius research. It brings together the diverse and sometimes even divergent viewpoints that emerged from this international meeting. These studies cover all of the genres in Sibelius' production: orchestral works, incidental music, piano and chamber music, and songs, including both well-known works and rarities, and even some fresh discoveries. The chapters in this book are also a welcome reminder of the manifold sources of inspiration: the music of his contemporaries, nature, literature, and visual art. The versatility of Sibelius' output and the richness of his creative imagination are presented here to any reader interested to learn more about the music of the Finnish master. *1001 Classical Recordings You Must Hear Before You Die* Matthew Rye, Steven Isserlis, 2017-10-24 A thick and informative guide to the world of classical music and its stunning recordings, complete with images from CD cases, concert halls, and of the musicians themselves. *All Music Guide to Classical Music* Chris Woodstra, Gerald Brennan, Allen Schrott, 2005-09 Offering comprehensive coverage of classical music, this guide surveys more than eleven thousand albums and presents biographies of five hundred composers and eight hundred performers, as well as twenty-three essays on forms, eras, and genres of classical music.
