Wild Chess Openings John Watson, 2015-11-04 No matter how unconventional irrational or even crazy an opening is sooner or later every chess player will have to face it When that happens you can count on a well prepared opponent who is more than happy to roll out his pet line John Watson and Eric Schiller provide club players with solutions to a huge selection of these rarely played or tricky chess openings They concentrate upon ideas and strategy with enough analysis to satisfy the needs of practical play Only when a sharp reply is required Watson and Schiller will recommend a more complex variation filled with tactics In the vast majority of cases they present a simple and safe way to approach the position requiring little memorization and still leading to a promising game There is a lot of fun material in this book and you may be surprised to see how even strong grandmasters have indulged in the craziest variations Chess isn't all main lines and 20 moves of theory

Kaufman's New Repertoire for Black and White Larry Kaufmann, 2019-10-29 Seven years after his acclaimed and bestselling *The Kaufman Repertoire for Black and White* Grandmaster Larry Kaufman is back with his new repertoire book covering the entire scope of chess openings in one volume Two important developments made this new book necessary Larry Kaufman who routinely himself plays the lines he advocates to others discovered that after 1 d4 the recommendation in his previous book it became nearly impossible to show a consistent advantage for White especially against the Gruenfeld and the Nimzo Ragozin defenses The other factor was that chess engines have become so much stronger in recent years Komodo the top chess engine that computer expert Kaufman helped develop is now able to apply the celebrated Monte Carlo Tree Search algorithm With Komodo MCTS it is now possible to abandon lines that may be theoretically best against other computers and instead choose lines that are likely to succeed in actual practice against strong human opponents Larry Kaufman presents a completely new White repertoire with 1 e4 aiming for an objective advantage in the simplest practical manner You are presented with two options while you don't have to play the sharpest lines The Black repertoire has been thoroughly revised and updated with some crucial chapters replaced Kaufman's *New Repertoire for Black and White* is the first opening book that is primarily based on Monte Carlo search The highly original analysis has resulted in many improvements on existing theory This is a ready to go and easy to digest repertoire with sound practical lines that do not outdate rapidly and are suitable for masters while accessible for amateurs

The Italian Gambit (and) A Guiding Repertoire For White - E4!

George Laven, 2003-12-16 New ideas technical novelties and more on the age old Italian game with 4 d4 allowing the sharp and forcing Italian Gambit to emerge This move a surprising one to many transforms the classic Giouco Piano or literally the quiet game into anything but its revered and somewhat sedate namesake Black's third move 3 Bc5 seems safe and allows the second player plenty of time to develop quietly for positional play This will occur on White playing almost any reasonable move except for the center assaulting initiative gaining 4 d4 being the main focus of this endeavor 4 d4 is clearly a forcing move Black must react Whatever unfolds from this point White will have central control lead in development the initiative and it is White not Black who will get the first emerging opportunities Accurate play by Black is necessary to hold and

neutralize the initial gains of opposition and it will be difficult to demonstrate anything better than equality or that White cannot claim real compensation for the gambit pawn This Book involves no less than three 3 years of study Master analysis including complete computer verification of all important variations Volume II This masterful work is short yet concise and to the point guiding the 1 e4 player in handling and management of all of Black s classing opening responses 1 Nf6 Alekhine s 1 e6 French 1 d6 Pirc 1 d5 Scandinavian 1 c6 Caro Kann 1 c5 Sicilian 1 Nc6 Nimzowitsch These lines have been studied and developed over many years by the venerable Chess Master and teacher Jude Acers they are the essential and recommended lines for all play that commences 1 e4 but are especially effective for the new limited time controls in present and future tournament play All levels whether they be the first or second side of the board will discover fresh arsenals for both attack and defense As White once you embrace and you will these to the point openings this book will take you via clear reference to the sources of future study As Black you must be prepared The reader will not be overwhelmed by masses of theory or endless analytical variations but shall discover how and where to find such material A clear opening guide for the newer player A no nonsense opening system for the more advanced player New concepts for the Upper Echelon of chess to meet the coming evolution of Knockout and less time in serious tournament play STAY ON TOP become a world super star in the global phenomena of mass appeal Author Jude Acers For more information please visit www.italiangambit.com There is brand new theory and some re discoveries of old forgoten games and ideas This is a very rich book The Miami Variation 1 e4 e52 Nf3 Nc6 3 Bc4 Bc5 4 d4 Bxd4 5 Nxd4 Nxd4 6 Be3 6 0 0 Nf6 could transpose to Koltanowski s line was the brainchild of amateur George Laven Review by FIDE Master Allan Savage SQUARES Magazine Fall issue 2003 FOREWORD by NM Randy Bauer To read Jeremy Silman s review of this book please visit www.jeremysilman.com
