American Sideshow Marc Hartzman, 2006-09-21 A fascinating look into the history of the American sideshow and its performers Learn what's real what's fake and what's just downright bizarre You've probably heard of Tom Thumb The Elephant Man Perhaps even Chang and Eng the original Siamese twins But what about Eli Bowen the legless acrobat Or Prince Randian the human torso These were just a few of the many stars that shone during the heyday of the American sideshow from 1840 to 1950 American Sideshow chronicles the lives of truly amazing performers examining these brave and extraordinary curiosities not just as sideshow performers but as people delving into the lives they led and the ways they were able to triumph over and even benefit from their abnormalities American Sideshow discusses the rise and fall of the original sideshows and their subsequent replacement by today's self-made freaks With the progress of modern medicine technological advancements and the wonderful world of body modification abnormalities are being overcome treated and even prevented Siamese twins can now be separated and in addition to this tongues can be forked horns surgically implanted and earlobes removed There are also of course modern day giants fire eaters sword swallowers glass eaters human blockheads and oh so much more These fascinating personalities are celebrated through intimate biographies paired with stunning photographs Approximately two hundred performers from the past one hundred and sixty years are featured giving readers a comprehensive and sometimes astonishing look into the history of the American sideshow *Estimates of Bridge Scour at Two Sites on the Virgin River, Southeastern Nevada, Using a Sediment-transport Model and Historical Geomorphic Data* Marsha M. Hilmes, Jerry E. Vaill, 1997 *Sideshow U.S.A.* Rachel Adams, 2001-12 A staple of American popular culture during the 19th and early 20th centuries the freak show seemed to vanish after World War II This book reveals the image of the freak show with its combination of the grotesque horrific and amusing specimens **Water-resources Investigations Report**, 1997 *Freak Show Legacies* Gary S. Cross, 2021-05-06 Society has long been fascinated with the freakish shocking and strange In this book Gary Cross shows how freakish elements have been embedded in modern popular culture over the course of the 20th century despite the evident disenchantment with this once widespread cultural outlet Exploring how the spectacle of freakishness conflicted with genteel culture he shows how the condemnation of the freak show by middle class America led to a transformation and merging of genteel and freak culture through the cute the camp and the creepy Though the carnival and circus freak was marginalised by the 1960s and had largely disappeared by the 1980s forms of freakish culture survived and today appear in reality TV horror movies dark comedies and the popularity of tattoos *Freak Show Legacies* will focus less on the individual freak as the other in society and more on the audience for the freakish and the transformation of wonder sensibility and sensitivity that this phenomenon entailed It will use the phenomenon of the freak to understand the transformation of American popular culture across the 20th century identify elements of the freak in popular culture both past and present and ask how it has prevailed despite its apparent unpopularity *In the Side Shows*

History of Padang Lawas 2 Cahier d'Archipel 43, 2015-02-05 For the last century and a half the name of Padang Lawas in the present province of North Sumatra Indonesia has been associated with a number of isolated Hindu Buddhist remains located in the interior of the island These remains are all the more remarkable because they form the largest Indianised archaeological complex known so far in the northern half of Sumatra This book follows the recently published volume on archaeological researches conducted at the Si Pamutung site from 2006 until 2010 Its two main purposes are firstly to present and reappraise all the available sources for the ancient history of the region and secondly to provide an initial synthesis of the history of Padang Lawas between the mid ninth and the end of the thirteenth century CE As no comprehensive inventory of sculptures and other artefacts reported since the mid nineteenth century had been published the first chapter attempts to fill this gap by providing descriptions of 264 items It is followed by four systematic studies on dozens of these items whether stone or bronze artefacts Furthermore the thirteen ancient inscriptions from Padang Lawas are systematically reinvestigated or are deciphered for the first time To this epigraphic study is associated a historical study on the indigenous writing system Two chapters present on the one hand the main results of recent archaeological research conducted in two other sites of the Barumun River Basin and on the other a panorama of archaeological data on the Mandailing Natal region situated west of Padang Lawas in order to get a comprehensive and updated overview of the knowledge currently available of the area between both coasts of this part of

Sumatra In addition the epigraphic study on Padang Lawas is supplemented with a reappraisal of inscriptions from Mt Sorik Merapi in this Mandailing Natal region and inscriptions from the site of Muara Takus on the banks of the upper reaches of the Kampar River
