## **Sierra Sue II The Story Of A P51 Mustang:**

**Sierra Sue II** John Christgau, 2000-02-09 During World War II 15 000 P 51 Mustang fighter planes were produced by North American Aviation Arguably the best fighter plane ever made today there are less than a hundred left flying in the world Of those only a handful saw combat Sierra Sue The Story of a P 51 Mustang is the story of one of those survivors The backdrop for the story is Sierra Sue IIs appearance at the huge Offutt Air Force Base Open House in 1989 There we go behind the scenes for glimpses of warbird pilots and jet jockeys alike preparing for their air show acts We also go six stories underground for a rare chilling visit to our nuclear command post But the real story is the history of Sierra Sue II and the remarkable pilots who flew and loved her from 1st Lt Bob Bohna who flew her in combat during World War II and nearly became a reverse ace to Sten Soderquist who flew her in Sweden in the early 50s when more than thirty Swedish pilots died in Mustang crashes to Nicaragua where she was involved in several of dictator Luis Somozas military adventures in the late 50s to California where Dave Allender modified her with the intent of setting a new world speed record for piston aircraft Almost forty years after her combat missions in the war Sierra Sue II is bought by a hard flying Minnesota physician known on the air show circuit simply as Doc His romance with Sierra Sue II continues where Bohna and Soderquist and Allender leave off But Doc is more than just another ardent admirer in her long history While an Air Force jet pilot in the 50s Doc crashed and suffered major injuries that ended his Air Force career During his long recuperation he took up a study of medicine that led to a general practice in Minneapolis Now he is determined to restore Sierra Sue II to her World War II condition and take her on the Midwest air show circuit We follow that restoration in California by a mechanical genius named Jack Cochrane and then Docs cross country flight to Minnesota ending in a harrowing landing at nightfall on a remote airstrip on the Minnesota prairie Millions of air show fans have enjoyed the sight of Sierra Sue IIs ageless beauty Now here is her story [Spitfire, Mustang and the 'Meredith Effect'](#) Peter Spring, 2024-04-04 Examines the life of the remarkable and controversial F W Meredith an individual who has largely been forgotten by history despite the brilliant advances he made which helped the Allies win the war against Hitler s Third Reich By the mid 1930s the obstacles to high speed that aircraft designers faced included the question of cooling the engine This was a big challenge that those working on the new fast aeroplanes entering service as the war clouds gathered over Europe had to consider as the drag from the system increased as a square of the speed Ducted systems were designed which lowered drag but these were based on the assumption that the system was cold This ignored the potential energy from the air heated by the radiator for liquid cooled aircraft and from the discharged engine exhaust gases It took a profoundly lateral thinker to harness the possibilities of the paradox that heat could cut the cost of cooling That thinker was the British engineer Frederick William Meredith A researcher at the Royal Aircraft Establishment at Farnborough until 1938 F W Meredith a key player in the UK s development of the autopilot and remote controlled aircraft His contribution to Allied success in the Second World War was enormous but incredibly he was

also a known a Soviet agent Few would doubt that the Supermarine Spitfire was a pioneering aeroplane not because it was an all metal monoplane with retractable undercarriage and enclosed cockpit as these were not unique but because it was the first to incorporate a Meredith designed ducted cooling system This was intended from the beginning to use heat to create negative drag In practice the Spitfire s design was flawed as Meredith himself pointed out and did not fully use what became known as the Meredith Effect Meredith also made entirely overlooked but extremely important contributions to resolving the problem of how to induce air smoothly into cooling ducts at high speeds without which as the Spitfire demonstrated ducted cooling systems worked sub optimally The first aeroplane properly to exploit the Meredith Effect was the North American P 51 Mustang this being a very significant factor as to why it was 30mph faster than the Spitfire when both had the same Rolls Royce Merlin engine This book by Peters Spring examines the life of the remarkable and controversial F W Meredith an individual who has largely been forgotten by history despite the brilliant advances he made advances which helped the Allies win the war against Hitler s Third Reich *Kokomo Joe* John Christgau,2009-04-01 The first Japanese American jockey Kokomo Joe burst like a comet on the American horse racing scene in the summer of 1941 As war with Japan loomed Yoshio Kokomo Joe Kobuki won race after race stirring passions far beyond merely the envy and antagonism of other jockeys His is a story of the American dream catapulting headlong into the nightmare of a nation gripped by wartime hysteria and xenophobia The story that unfolds in *Kokomo Joe* is at once inspiring deeply sad and richly ironic and remarkably relevant in our own climate of nationalist fervor and racial profiling Sent to Japan from Washington State after his mother and three siblings died of the Spanish flu Kobuki continued to nurse his dream of the American good life Because of his small stature his ambition steered him to a future as a star jockey John Christgau narrates Kobuki s rise from lowly stable boy to reigning star at California fairs and in the bush leagues He describes how at the height of the jockey s fame even his flight into the Sonora Desert could not protect him from the government s espionage and sabotage dragnet And finally he recounts how after three years of internment Kokomo Joe tried to reclaim his racing success only to fall victim to still rampant racism a career ending injury and cancer **Air Force Magazine** ,1994-07 Subject Guide to Books in Print ,2001 **P-51 Mustang** Cory Graff,2015-10-19 P 51 Mustang celebrates the 75th anniversary of the most iconic American warbird from combat to recon D Day to the Battle of the Bulge **Newsletter** ,1995 Air Pictorial ,1995 **Paperbound Books in Print 1995** Reed Reference Publishing,R5ference Reed,1995-12 **Subject Guide to Children's Books in Print 1997** Bowker Editorial Staff,R R Bowker Publishing,1996-09 **Combat Vet P-51** Chuck Cravens,2015 **Official Stud Book and Registry** American Quarter Horse Association,1964 **West American History** Hubert Howe Bancroft,1902 **Handbook of Latin American Studies** Dolores Moyano Martin,P.
