Sight Unseen:

Sight Unseen Georgina Kleege, 1999-03-11 This elegantly written book offers an unexpected and unprecedented account of blindness and sight. Legally blind since the age of eleven, Georgina Kleege draws on her experiences to offer a detailed testimony of visual impairment: both her own view of the world and the world's view of the blind. I hope to turn the reader's gaze outward to say not only "Here's what I see" but also "Here's what you see" to show both what's unique and what's universal. Kleege writes: Kleege describes the negative social status of the blind, analyzes stereotypes of the blind that have been perpetuated by movies, and discusses how blindness has been portrayed in literature. She vividly conveys the visual experience of someone with severely impaired sight and explains what she can see and what she cannot, and how her inability to achieve eye contact in a society that prizes that form of connection has affected her. Finally, she tells of the various ways she reads and the freedom she felt when she stopped concealing her blindness and acquired skills such as reading braille as part of a new blind identity. Without sentimentality or clichés, Kleege offers us the opportunity to imagine life without sight.

Brenner, 2011-06-09 The goal of the *aliens among us* is not the study of Earth for purely academic purposes. It is something more vital to the aliens and more portentous for us. The picture that emerges from much research makes sense of several aspects of the alien presence previously quite puzzling. They apparently are a dying race inhabiting a dying planet. They have undoubtedly mastered physical forces and phenomena of which we have not even dreamed. But it has come at a terrible cost. Their emotional life has been all but lost, existing only as a faint remnant from a long distant past. They may pity our hopelessly primitive technology.

but they envy us our robust emotional life Like all living things everywhere they live for the perpetuation of their genes They do not hate us nor do they seek our destruction They seek to create a race of hybrids combining their scientifically superior minds with our rich emotional makeup The ridicule of the entire subject by the government and other forces fearful of upheaval in our society has aggravated the suffering of those chosen and victimized by the aliens who apparently seek ineptly sometimes to minimize it The author combines this scholarly approach with an almost folksy narrative style to make *Walking Through Walls* a very readable and approachable treatise on the phenomena as good as any book on the subject and far more skillfully written than most including those Brener has referenced most frequently Bud Hopkins *Intruders* and Philip Corso's *The Day after Roswell* Blue Ink Review *Sight Unseen* Martin A.
