 the Double Whammy, Interrogation and Other Methods of Covert Control in Psychotherapy and Analysis** Theodore
 L. Dorpat, 1996-10-28 In treatment the psychotherapist is in a position of power Often this power is unintentionally abused
 While trying to embody a compassionate concern for patients therapists use accepted techniques that can inadvertently lead
 to control indoctrination and therapeutic failure Contrary to the stated tradition and values of psychotherapy they subtly
 coerce patients rather than respect and genuinely help them The more gross kinds of patient abuse deliberate ones such as
 sexual and financial exploitation are expressly forbidden by professional organizations However there are no regulations
 discouraging the more covert forms of manipulation which are not even considered exploitative by many clinicians In this
 book noted psychiatrist Theo L Dorpat strongly disagrees Using a contemporary interactional perspective Dorpat
 demonstrates the destructive potential of manipulation and indoctrination in treatment This book is divided into three parts
 Part I explores the various ways power can be abused Part II examines eleven treatment cases in which covert manipulation
 and control either caused analytic failure or severely impaired the treatment process Cases discussed include the analyses of
 Dora and the Wolf Man by Freud the two analyses of Mr Z by Kohut as well as other published and unpublished treatments

An interactional perspective is used to examine the harmful short and long term effects of using indoctrination methods as well as to unravel conscious and unconscious communications between therapists and patients that can contribute to manipulations Part III shows readers how to work using a non directive egalitarian approach in both psychoanalytic psychotherapy and psychoanalysis

Records and Briefs of the United States Supreme Court, 1832 *Personology* Irving E. Alexander, 1990 How can we know what another human being is like in some meaningful dynamic way Can we distill the signature like features of an individual personality What is the relationship between personal experience and our attempts to describe the person who has that experience This work by a highly respected senior psychologist is an effort to answer these questions Irving E Alexander presents a case for considering the personal narrative of a human life as the most compelling aspect of that life to be decoded and understood In part a critique of an exclusive reliance on general theories about the development of personality and ways of knowing based primarily on comparison with others Personology is illustrated with material drawn from the lives personal writings and theories of Freud Jung and Sullivan Alexander develops new insights into the lives of these men and offers methods and guidelines for investigating and teaching personology and psychobiography

Archaeology and Modernity Julian Thomas, 2004-03-01 This is the first book length study to explore the relationship between archaeology and modern thought showing how philosophical ideas that developed in the seventeenth to nineteenth centuries still dominate our approach to the material remains of ancient societies Addressing current debates from a new viewpoint Archaeology and Modernity discusses the modern emphasis on method rather than ethics or meaning our understanding of change in history and nature the role of the nation state in forming our views of the past and contemporary notions of human individuality the mind and materiality

Performative Contradiction and the Romanian Revolution Jolan Bogdan, 2017-03-29 The Romanian Revolution of 1989 ended 42 years of Communist rule It was the bloodiest revolution in a Warsaw Pact country culminating in the overthrow and execution of Nicolae Ceau escu However there was no major democratic reform and power remained in the hands of key figures from the old regime This has led many theorists to question the authenticity of the entire revolution Performative Contradiction and the Romanian Revolution focuses in on the circumstances which led to these accusations It argues that the notion of an authentic revolution as a conceptual paradigm is neither a sufficient appropriate nor useful tool for an analysis of the events in Romania Engaging with the work of theorists including Stieglar Agamben Baudrillard Badiou Spinoza and Derrida it argues that performative contradiction is a more useful theoretical model for exploring this event Applying the concept to specific cases within the revolution the book demonstrates the power of performative contradiction as an analytic tool

Handbook of Psychology and Health, Volume IV Shelley E. Taylor, Jerome E. Singer, Andrew Baum, 2020-09-10 Originally published in 1984 the study of psychological aspects of health was a rapidly expanding enterprise Most of the contributors to this volume were trained as social psychologists or by social psychologists Some have been more applied in their focus or on the edge of several fields All

however share a common approach focusing on the individual as he or she is buffeted about by social forces and copes with these forces All consider situational and psychological factors in the determination of behavior emotion or cognition and all apply their expertise to the study of health related issues The grouping of the chapters in this volume by the authors subspecialty social psychology is a somewhat unconventional method of clustering Ordinarily the materials presented here would be published in journals or texts concerned with behavior or psychosocial in health and medicine or in specialty publications dealing with a particular disease or health issue That clustering of articles is functional in providing information to those most likely to utilize it but it diffuses the origin and background of the studies These chapters speak to the diversity of health issues that are amenable to successful social psychological analysis

Psychoanalysis and Cinema E. Ann Kaplan, 2013-02-01 These fifteen carefully chosen essays by well known scholars demonstrate the vitality and variety of psychoanalytic film criticism as well as the crucial role feminist theory has played in its development Among the films discussed are *Duel in the Sun* *The Best Years of Our Lives* *Three Faces of Eve* *Tender is the Night* *Pandora's Box* *Secrets of the Soul* and the works of Jacques Tourneur director of *The Cat People* and other features

Decline and Fall of the Freudian Empire Hans Eysenck, 2018-02-06 Hans Eysenck was one of the best known research psychologists of the twentieth century Respected as a prolific author he was unafraid to address controversial topics In *Decline and Fall of the Freudian Empire* he places himself at the center of the debate on psychoanalytic theory challenging the state of Freudian theory and modern day psychoanalytic practice and questioning the premises on which psychoanalysis is based In so doing Eysenck illustrates the shortcomings of both psychoanalysis as a method of curing neurotic and psychotic behaviors and of the theory of dreams and their interpretation He also analyzes Freud's influence on anthropology and his alleged contributions to science While books about Sigmund Freud and psychoanalysis abound most have been written by followers and acolytes and are therefore uncritical unaware of alternative theories or written as

weapons in a war of propaganda Others are long and highly technical and therefore valuable only to students and professionals Decline and Fall of the Freudian Empire on the other hand was written with the non professional in mind and is for those who wish to know what modern scholarship has discovered about the truth or falsity of Freudian doctrines Graced with an incisive new preface by Sybil Eysenck exploring her husband s motivation for writing the book Decline and Fall of the Freudian Empire is an authoritative and convincing work that exposes the underlying contradictions in Freudian theory as well as the limitations and errors of psychoanalysis

James Joyce's 'Work in Progress' Dirk Van Hulle,2016-04-28 The text of Finnegans Wake is not as monolithic as it might seem It grew out of a set of short vignettes sections and fragments Several of these sections which James Joyce confidently claimed would fuse of themselves are still recognizable in the text of Finnegans Wake And while they are undeniably integrated very skillfully they also function separately In this publication history Dirk Van Hulle examines the interaction between the private composition process and the public life of Joyce s Work in Progress from the creation of the separate sections through their publication in periodicals and as separately published sections Van Hulle highlights the beautifully crafted editions published by fine arts presses and Joyce s encouragement of his daughter s creative talents even as his own creative process was slowing down in the 1930s All of these pre book publications were alive in both bibliographic and textual terms as Joyce continually changed the texts in order to prepare the book publication of Finnegans Wake Van Hulle s book offers a fresh perspective on these texts showing that they are not just preparatory versions of Finnegans Wake but a Work in Progress in their own right
