The Art of the Long View Peter Schwartz, 2012-02-08 What increasingly affects all of us whether professional planners or individuals preparing for a better future is not the tangibles of life bottom line numbers for instance but the intangibles our hopes and fears our beliefs and dreams Only stories scenarios and our ability to visualize different kinds of futures adequately capture these intangibles In The Art of the Long View now with the addition of an all new User's Guide Peter Schwartz outlines the scenario approach giving you the tools for developing a strategic vision within your business Schwartz describes the new techniques originally developed within Royal Dutch Shell based on many of his firsthand scenario exercises with the world's leading institutions and companies including the White House EPA BellSouth PG E and the International Stock Exchange

The Long View Richard Fisher, 2023-03-30 A wide ranging and thought provoking exploration of the importance of long term thinking Humans are unique in our ability to understand time able to comprehend the past and future like no other species Yet modern day technology and capitalism have supercharged our short termist tendencies and trapped us in the present at the mercy of reactive politics quarterly business targets and 24 hour news cycles It wasn't always so In medieval times craftsmen worked on cathedrals that would be unfinished in their lifetime Indigenous leaders fostered intergenerational reciprocity And in the early twentieth century writers dreamed of worlds thousands of years hence Now as we face long term challenges on an unprecedented scale how do we recapture that far sighted vision Richard Fisher takes us from the boardrooms of Japan home to some of the world's oldest businesses to European laboratories where scientists work as custodians on centuries long experiments He examines the psychological biases that discourage the long view and talks to the growing number of people from the worlds of philosophy technology science and the arts who are exploring smart ways to overcome them How can we learn to widen our perception of time and honour our obligations to the lives of those not yet born
