

There's a life riding on it.

Look Twice

Share the Road. **Turn**

On average, a motorcyclist is killed on Texas roads every day.

Remember to look twice for motorcycles, especially at intersections. Every motorcycle carries a life.

Looking At Motorcycles Looking At Transportation:

Transport Rachel Dixon, 2018-04-01 For millennia people have given their children toys to help them learn about the world around them The toys children play with demonstrate how cultures from around the world can be both different and exactly the same When the early colonists arrived in Australia they found that Aboriginal children were playing games and using toys that were similar to those from Europe Find out about physics and toys the importance of safety toys and business and how toys have changed over time Included are descriptions of colonial games and traditional Indigenous games as well as a look at where toys in Australia come from now The style of living we take for granted in Australia today was very different in the past Many everyday tasks involved using tools and implements that are unrecognisable in our modern world The Australian Aboriginal history of daily life as well as that of the first colonists all provide intriguing stories of how we all used to live and how we gradually moved on to depending on gadgets fast food and other modern ways of life that our ancestors from the past would find amazing

Simulators for Transportation Human Factors Mark S. Young, Michael G. Lenné, 2017-07-06 Simulation continues to be a growth area in transportation human factors From empirical studies in the laboratory to the latest training techniques in the field simulators offer myriad benefits for the experimenter and the practitioner This book draws together current trends in research and training simulators for the road rail air and sea sectors to inform the reader how to maximize both validity and cost effectiveness in each case *Simulators for Transportation Human Factors* provides a valuable resource for both researchers and practitioners in transportation human factors on the use of simulators giving readers concrete examples and case studies of how simulators have been developed and used in empirical research as well as training applications It offers useful and usable information on the functional requirements of simulators without the need for any background knowledge on the technical aspects focusing on the state of the art of research and applications in transport simulators rather than the state of the art of simulation technology The book covers simulators in operational terms instead of task simulation modelling and provides a useful balance between a bottom up academic approach and a top down practical perspective

Transport Curiosities, 1850-1950 John Wade, 2022-04-21 Over the years many weird and wonderful types of transport have come and gone some of which succeeded against all odds others that spectacularly failed and some that never got beyond a designer's drawing board Railway engines driven by horses for example Or maybe the surprising number of cars boats and trains driven by aeroplane propellers In this book you will find cars that flew cars that floated on water and boats that ran on roads steam powered aeroplanes electric submarines railways driven by pneumatic air aircraft with flapping wings and a whole lot more If you are a person who would like to have flown in an airship or travelled in a train whose carriage sat on stilts above the sea with its tracks below the water or dreamed of riding on a London to New York railway that took twelve days to travel the long way around the world or maybe just fancied fixing your bicycle to a railway track then this book is for you
