This book explores the similarities and differences between the practice of psychotherapy and spiritual direction and suggests that whilst there may be distinctions between the two activities the process is essentially the same. The purpose of the book is to improve the understanding between therapists and spiritual directors to encourage dialogue and discussion between them as well as to offer challenges and learning to both. In the process of exploring the interface between the practice of therapy and the practice of spiritual direction questions arise about how to address issues of spirituality in a psychological context and psychological issues in a spiritual context. A brief overview of the historical background to spiritual direction is given and attention drawn to the links between this tradition and the development of psychotherapy. Spiritual issues that may arise in therapy together with psychological issues that occur during spiritual direction are discussed leading on to a comparison between dark night of the soul experiences and clinical depression.

An Open Place Daniel Schrock, Marlene Kropf, 2012-11. Written from an ecumenical standpoint as a practical aid for moving those experienced in individual spiritual direction toward group practices. This book responds to the movement to expand spiritual direction beyond the classic one-on-one model. Group spiritual direction has the potential to offer the rich experience of individual spiritual direction to a much wider audience yet very little has been written to provide guidance for starting such groups. This book responds to that challenge. It outlines ways that a diverse and ecumenical group of spiritual directors worked to initiate groups in multiple contexts. It examines the many variables among directors, directees, even meeting spaces that affect and enliven this ministry. And it summarizes pitfalls, success, and discoveries.

Spiritual Direction Sue Pickering, 2014-09-16. Spiritual direction has been an intrinsic part of the Christian tradition since the earliest days of the church when desert mothers and fathers were sought out for their wisdom and guidance. This guide aims to equip clergy and laity engaged in this task or in training for it.

Becoming Apostolic Catherine Sexton, 2024-07-01. This book explores the experience and understanding of Roman Catholic sisters of their vocation to the apostolic form of religious life as they age. Based on interviews with twelve religious women, it draws on the practice of Lectio Divina to explore how these women describe their call to service and activity at a time in life when these might be curtailed by physical diminishment and increasingly reduced social interaction and influence. As the very institutions of religious life are themselves under threat, the book identifies new emerging forms of ministry through presence to each other and to their carers.

Spiritual Direction and the Encounter with God William A. Barry, 2004. Is what we call the encounter with God merely a depth experience of the psyche or does it have a specific theological character? In this revised edition of his best-selling book, William Barry shows how it is possible to understand an encounter with the Triune God in this world and how that process can be interpreted and aided by a spiritual director. Using the insights of John Macmurray and John Smith, Barry describes how a relationship with God develops and how one can discern whether a particular experience is from God or not. This understanding of religious experience comes from a theology of community, communal discernment, and ministry in the church. This book will be helpful to spiritual

directors educators and theologians as well as all educated seekers desiring a deeper relationship with God In this revised edition the author has added reflections on God s presence to suffering and evil and to evildoers updated the bibliography and freshened his examples for the 21st century reader
