Looting America Greed Corruption Villains And Victims:

Looting America Stephen M. Rosoff, Henry N. Pontell, Robert Tillman, 2003 This book presents a vivid picture of pervasive corporate fraud The authors well known authorities on criminology argue that white collar crime is the most pernicious crime problem in America today with financial physical and social costs dwarfing those of street crime Looting America traces the historical roots of scandals infecting our economy today with provocative information that will arouse righteous indignation
BOOK JACKET American Smuggling as White Collar Crime Lawrence Karson, 2020-09-29 When Edwin Sutherland

introduced the concept of white collar crime he referred to the respectable businessmen of his day who had in the course of their occupations violated the law whenever it was advantageous to do so Yet since the founding of the American Republic numerous otherwise respectable individuals had been involved in white collar criminality Using organized smuggling as an exemplar this narrative history of American smuggling establishes that white collar crime has always been an integral part of American history when conditions were favorable to violating the law This dark side of the American Dream originally exposed itself in colonial times with elite merchants of communities such as Boston trafficking contraband into the colonies It again came to the forefront during the Embargo of 1809 and continued through the War of 1812 the Civil War nineteenth century filibustering the Mexican Revolution and Prohibition The author also shows that the years of illegal opium trade with China by American merchants served as precursor to the later smuggling of opium into the United States The author confirms that each period of smuggling was a link in the continuing chain of white collar crime in the 150 years prior to Sutherland s assertion of corporate criminality Global Encyclopedia of Public Administration, Public Policy, and Governance Ali Farazmand, 2023-04-05 This global encyclopedic work serves as a comprehensive collection of global

The big reset revised edition Willem Middelkoop, 2015-12-11 A system reset seems imminent The world's financial system will need to find a new anchor before the year 2020 Since the beginning of the credit crisis the US realized the dollar will lose its role as the world's reserve currency and has been planning for a monetary reset According to Willem Middelkoop this reset will be designed to keep the US in the driver's seat allowing the new monetary system to include significant roles for other currencies such as the euro and China's renminbi Prepare for the coming Reset In all likelihood gold will be re introduced as one of the pillars of this next phase in the global financial system The prediction is that gold could be revalued at 7 000 per troy ounce By looking past the American smokescreen surrounding gold and the dollar long ago China and Russia have been accumulating massive amounts of gold reserves positioning themselves for a more prominent role in the future to come The reset will come as a shock to many The Big Reset will help everyone who wants to be fully prepared This fully revised edition of Middelkoop's book takes into account developments since its original publication which have only strengthened the case for the coming return of gold
