Loving Attitudes:

Seven Attitude Adjustments for Finding a Loving Man Audrey B. Chapman, 2001-07 Straight talking relationship guru and radio host Chapman promises to erase fear among black single women by outlining her relationship tested step by step program for adjusting the negative thinking that might be keeping love at bay **The Heart and its Attitudes** Stephen Darwall, 2024-04-30 Philosophers don't often write about the heart At least analytical philosophers don't Why is this Philosophers are said to live life in their heads rather than from their hearts But even if that is so why don't they think and write about the heart Moreover it can hardly have escaped philosophers attention that matters of the heart are central to what we human beings value most about our lives including our lives with animals Philosophers write a lot about friendship and love but they tend to do so in terms that leave out heartfelt connection They speak rather of commitment to one another and each other's well being or taking each other as ends or sharing deliberative standpoints or living life together or a whole host of other topics and much less about mutual emotional vulnerability and sharing and being in one another's hearts Surely one explanation of philosophers reticence is that talk of the heart seems unavoidably metaphorical It turns out to be easy enough however to cash the metaphor in if we simply take heart refers to a cluster of emotional susceptibilities that have an essentially reciprocating structure The heart aims at heartfelt connection at shared experience of joys and sorrows hopes and fears and other personal emotions We seek naturally to share these feelings with others and must suppress our natural tendencies if we wish to avoid doing so Our heart's wish is to be open to other hearts in the hope that they will be open to ours and thereby us in return This book is a systematic treatment perhaps the first of attitudes of the heart remorse versus guilt love trust gratitude personal anger versus righteous anger jealousy and others and their role in mediating personal relationship attachment and connection This is obviously interesting in its own right but it also shows how heartfelt attitudes mirror more extensively studied reactive attitudes of guilt resentment and blame attitudes of the will Whereas the latter mediate moral relations of mutual respect and accountability attitudes of the heart are the currency of heartfelt connection and personal relationship **The Perfect Love** Ruth Myers, 1999-04-20 WHERE CAN YOU FIND THE KIND OF LOVE YOU TRULY NEED If we want real love ideal love limitless love God's heart is where to find it It's the only love big enough to meet the God sized needs of your life Ruth Myers Most people even those with a deep faith fail to really grasp the incredibly deep and passionate love God has for them Yet while God's love for us is beyond description it doesn't have to be beyond our experience In *The Perfect Love* Ruth Myers helps uncover the surprising quiet clues and expressions in Scripture of just how much God loves you With the expressions of prayer and praise at the end of each chapter you'll learn to experience God's love more deeply and return it more fully in worship And you'll welcome a new sense of security honor and significance that comes from experiencing how God's love *The Perfect Love* truly meets your deepest needs **The Normative Nature of Social Practices and Ethics in Professional Environments** de Vries, Marc J., Jochemsen, Henk, 2019-04-12 Professionals

function in what can be called social practices Norms in the practice set professionals responsibilities and rights and classify what is seen as morally proper and improper Tensions arise when norms emerge that are not coherent with the nature of the practice For example when a hospital is assessed on the basis of economic criteria only staff will feel uncomfortable and find difficulty in functioning properly in that practice The Normative Nature of Social Practices and Ethics in Professional Environments is an essential research book that helps professionals in a variety of practices understand how normativity in their practice either helps or hampers them to function well and align with what they see as their personal and professional responsibility Additionally it explains the normative practical model approach and how it can be applied to a series of concrete practices as well as the role of innovative and disruptive technologies in these practices Featuring a broad range of topics such as governance theory sustainable development and engineering this book is ideally designed for managers philosophers sociologists professionals academicians and researchers

Learning to Love Sue M. Holdsworth, 2024-08-23

Many churches actively seek to welcome migrants through various church based activities such as language lessons cooking or gardening clubs These and similar activities often aim to be missional or evangelistic seeking to communicate the love of God and neighbor The author explores how the love of God and neighbor can be expressed effectively through the implementation of pastoral care principles and practices These include expressing love through empathy hospitality group prayer and spiritual formation When the functions of pastoral care are evident mission and evangelism occur naturally and at the appropriate time This book is the result of the author's PhD study of four church based intercultural initiatives aimed at welcoming migrants Two churches offering English conversation classes a sewing club and employment training classes were observed Volunteers and pastoral staff were interviewed and church documents were examined This empirical research demonstrates that when volunteers are trained in principles and practices of pastoral care when church systems and supervision support them in their tasks and when group planning and reflection occur the love of God and neighbor will be effectively expressed to migrants attending these initiatives

Personal Value Toni Rønnow-Rasmussen,2011-06-23 Certain things like justice have impersonal value Other things like your parents carry personal values they have value for you Besides whatever value they have they are valuable to you The philosophical literature as well as non philosophical literature is inundated with suggestions about the kinds of thing that are good for us or if it is a negative personal value what is bad for us This is a stimulating and vivid area of philosophical research but it has tended to monopolize the notion of good for linking it necessarily to welfare or well being Since these more or less well grounded pieces of advice are seldom accompanied by an analysis of the notion of good for

there is a need for such an analysis R nnow Rasmussen remedies this need by offering a novel way of analyzing the notion of personal value He defends the idea that we have reason to expand our classical value taxonomy with these personal values By fine tuning a pattern of value analysis which has roots in the writings of the Austrian philosopher Franz Brentano this sort of analysis will come to cover personal values too In addition R nnow Rasmussen makes substatial contributions to a number of issues including hedonism vs preferentialism subjectivism vs objectivism value bearer monism vs value bearer pluralism and the wrong kind of reason problem all of which are much debated among today s value theorists **Close Relationships**
