*Air Force AFM.* ,1968      **The Transformation of American Air Power** Benjamin S. Lambeth,2018-10-18 Since the unprecedentedly effective performance of the allied air campaign against Iraq during Operation Desert Storm the role of American air power in future wars has become a topic of often heated public debate In this balanced appraisal of air power s newly realized strengths in joint warfare Benjamin Lambeth a defense analyst and civilian pilot who has flown in most of the equipment described in this book explores the extent to which the United States can now rely on air delivered precision weapons in lieu of ground forces to achieve strategic objectives and minimize American casualties Beginning with the U S experience in Southeast Asia and detailing how failures there set the stage for a sweeping refurbishment of the nation s air warfare capability Lambeth reviews the recent history of American air power including its role in the Gulf War and in later conflicts in Bosnia Kosovo and Serbia He examines improvements in areas ranging from hardware development to aircrew skills and organizational adaptability Lambeth acknowledges that the question of whether air power should operate independently or continue to support land operations is likely to remain contentious He concludes however that air power its strategic effectiveness proven can now set the conditions for victory even from the outset of combat if applied to its fullest potential      The Praetorian STARShip : the untold story of the Combat Talon ,2001 Jerry Thigpen s study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C 130 derivative ever produced First modified and sent to Southeast Asia SEA in 1966 to replace theater unconventional warfare UW assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff JCS chose the Combat Talon to lead the night low level raid on the North Vietnamese prison camp at Son Tay Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long range clandestine operations In the period following the Vietnam War United States Air Force USAF special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever increasing threat to our nation Under the leadership of such committed hard driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force It was capable of penetrating hostile airspace at night in a low level mountainous environment covertly to execute any number of unconventional warfare missions      NRL Review ,2015
