Ludic Feminism And After Postmodernism Desire And Labor In Late Capitalism:

Ludic Feminism and After Teresa L. Ebert, 1996 A provocative and controversial challenge to postmodern academic feminism *John Barth and Postmodernism* Berndt Clavier, 2007 John Barth's eminence as a postmodernist is indisputable. However, much of the criticism dealing with his work is prompted by his own theories of exhaustion and subsequent replenishment, leaving his writing relatively untouched by theories of postmodernism in general. This book changes that by focusing on the relationship between Barth's aesthetic and the ideology critique of the historical avant-garde, which were the first to mobilize art against itself and its institutional practices and demands. Examining Barth's metafictional parodies in the light of theories of space and subjectivity, Clavier engages the question of ideology critique in postmodernism by offering the montage as a possible model for understanding Barth's fiction. In such a light, postmodernism may well be perceived as a mimesis of reality, particularly a recognition of the collective nature of self and the world. *Critical Keywords in Literary and Cultural Theory* Julian Wolfreys, 2017-03-14 This book is an invaluable reference guide for students of literary and cultural studies which introduces over forty of the complex terms, motifs, and concepts in literary and cultural theory today. *Critical Keywords in Literary and Cultural Theory* gives students a brief introduction to each concept together with short quotations from the work of key thinkers and critics to stimulate discussion and guide genuine comprehension. Supplies helpful glosses and annotations for each term, concept, or keyword which is discussed. Offers reflective, practical questions at the end of each entry to direct the student to consider a particular aspect of the quotations and the concept they address. Provides explanatory notes and bibliographies to aid further research. This essential volume is ideal as both a dip-in reference book and a guide to literary theory for practical classroom use. **Postcolonial Perspectives on Postcommunism in Central and Eastern Europe** Dorota Kołodziejczyk, Cristina Șandru, 2017-10-02 A quarter of a century after the fall of the Berlin Wall and from the vantage point of a post-Cold War globalised world, there is a need to address the relative neglect of postcommunism in analysis of postcolonial and neo-colonial configurations of power and influence. This book proposes new critical perspectives on several themes and concepts that have emerged within or been propagated by postcolonial studies. These themes include structures of exclusion/inclusion, formations of nationalism, structures of othering and representations of difference, forms and historical realisations of anti-colonial/anti-imperial struggle, the experience of trauma involving issues of collective memory, amnesia, and the re-writing of history, resistance as a complex of cultural practices and concepts such as alterity, ambivalence, self-colonisation, dislocation, hegemonic discourse, minority and subaltern cultures. Taken together, this volume suggests that some of the methodological instruments of postcolonial criticism can be fruitfully applied to the study of postcommunist cultures and conversely that the experience of the Soviet brand of imperialist rule in the form of communism in East Central Europe can function as an ideological moderator in Third World-oriented Marxist-inspired postcolonial discourses. This book was originally published as a special issue of the *Journal of Postcolonial Writing*. **Feminisms and**

Internationalism Mrinalini Sinha, Donna Guy, Angela Woollacott, 1999-08-25 This book addresses the theme of the history of internationalism in feminist theory and praxis covering such topics as the historical concept of internationalism within feminism and women's movements the nature of historical shifts within feminist movements and challenges to internationalism within feminism by women of colour and by women from colonised or formerly colonised countries

Who's Afraid of Women's Studies? Mary Frances Rogers, C. D. Garrett, 2002 In *Who's Afraid of Women's Studies* the authors ask why there persists a fear of feminism and women's studies in the academy Rogers and Garrett remind us that this field came into being as the result of women's practical efforts of advocacy and activism to represent marginalized excluded and silenced voices They explain the complex relationship between feminism women's studies and their deradicalized offspring gender studies Six broad topics that have dominated the field over the past twenty five years are examined in individual chapters girls and women's bodies anger and desires sexuality identity politics insider backlash and feminist methods The authors challenge women and men alike to reevaluate the concepts and analytical tools available in women's studies that are so uniquely oriented to understanding women's everyday lived experiences They demonstrate how its rich historical and social analyses are the basis for a passionate scholarship one that builds bridges between theory and practice to transform communities women's organizations and social movements This new book will be a stimulating overview of women's studies gender studies and feminist theory as well as a concise introduction to supplement standard texts or anthologies

Women, Body, Illness Pamela Moss, Isabel Dyck, 2003-04-14 This provocative and moving work explores concepts of body and space to better understand the daily lives and struggles of women with chronic illness Moss and Dyck show how such women coping with associated notions of illness health and being female restructure their physical and social environments through the strategies they choose to accommodate disabling illnesses such as chronic fatigue syndrome multiple sclerosis or rheumatoid arthritis Strategies might include disclosing or concealing illness from employers and friends seeking or rejecting emotional support through old friends and new contacts and pursuing or resisting specific diagnoses from the biomedical community Featuring

Essays written by Antoinette Burton since the mid 1990s trace her thinking about modern British history and engage debates about how to think about British imperialism in light of contemporary events A Reversal of Fortunes? Rachel Alsop,2000 German unification brought fundamental often traumatic changes for the people in eastern Germany Women as a group were arguably more deeply affected by the changes than any other and in one area in particular that of work which had far reaching effects on them and their families economic situation Rachel Alsop critically examines the processes behind women s changing relationship to the labor market in eastern Germany following the collapse of state socialism and the transition to a market economy By the 1980s women made up virtually half of the East German work force The collapse of the GDR transformed the field of work drastically diminishing the general demand for labor Yet while economic and political restructuring reduced the volume of both male and female employment it was women who bore the brunt of unemployment In the immediate transitional period a re masculinization of the workforce was evident with women constituting the large part of the unemployed Using an extensive range of both quantitative and qualitative data the author explores the gender dynamics of the social economic and political restructuring of eastern Germany thereby producing an important new context in which to examine contemporary debates on gender and work **Fractured Feminisms** Laura Gray-Rosendale,Gil Harootunian,2012-02-01 This advanced analysis of gender issues in higher education represents a significant new turn in feminist thinking Fractured Feminisms resists and reshapes boundaries by investigating how gender studies intersection with race and ethnicity class postcoloniality sexuality globalization interdisciplinarity technology studies and administration exposes the silenced other of feminisms themselves These crucial conversations about feminisms depend upon facing the perplexing rhetorical problems within feminist debates yet work within these fractures to discover newly emerging productive feminist practices This book contends that it s important to better understand the ways in which feminist rhetorics both empower and constrain and the kinds of identities feminisms afford as well as deny The Symbolic Scenarios of Islamism Andrea Mura,2016-03-09 The Symbolic Scenarios of Islamism initiates a dialogue between the discourse of three of the most discussed figures in the history of the Sunni Islamic movement Hasan al Banna Sayyid Qutb and Osama bin Laden and contemporary debates across religion and political theory providing a crucial foundation upon which to situate current developments in world politics Redressing the inefficiency of the terms in which the debate on Islam and Islamism is generally conducted the book examines the role played by tradition modernity and transmodernity as major symbolic scenarios of Islamist discourses highlighting the internal complexity and dynamism of Islamism By uncovering forms of knowledge that have hitherto gone unnoticed or have been marginalised by traditional and dominant approaches to politics accounting for central political ideas in non Western sources and in the Global South the book provides a unique contribution towards rethinking the nature of citizenship antagonism space and frontiers required today While offering valuable reading for scholars of Islamic studies religious studies and politics it provides a critical perspective for academics

the formation of their religious and legal tradition Rabbinic attention to women men sexuality and gender took place within the ordinary tedium of everyday life in acts that were both familiar and mundane While spinners and weavers performed what seemed like ordinary tasks their craft was in fact symbolic of larger gender and sexual issues which Peskowitz deftly explicates Her study of ancient spinning and her abundant source material will set new standards in the fields of gender studies Jewish studies and cultural studies This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1998 Miriam Peskowitz offers a dramatic revision to our understanding of early rabbinic Judaism Using a wide range of sources archaeology legal texts grave goods technology art and writings in Hebrew Aramaic Greek and Latin she challenges traditional *The Specter of Materialism* Petrus
