Minorities Of Northern China:

The Minorities of Northern China Henry G. Schwarz, 1984 **Peoples of the Buddhist World** Paul Hattaway, 2004 In the past 20 years Christians around the world have launched initiatives to reach Muslims Communists Hindus and other major unreached people groups but the Buddhist world has largely been overlooked Hundreds of millions of Buddhists continue to live and die without any exposure to the Gospel In *Peoples of the Buddhist World* researcher and author Paul Hattaway graphically presents prayer profiles of more than 200 Buddhist people groups around the world beautifully illustrated with color pictures throughout In addition experts have contributed articles on various aspects of Buddhism helping the reader to learn pray and work until that day when the kingdom of the world has become the kingdom of our Lord and of his Christ and he will reign for ever and ever Rev 11 15 From publisher s description **China's Governance Model** Hongyi Lai, 2016-06-10 Many studies of government in China either simply describe the political institutions or else focus critically on the weaknesses of the system such as corruption or the absence of Western style democracy Authors of these studies fail to appreciate the surprising ability of China s government to rapidly transform a once impoverished economy and to recover from numerous crises from 1978 to the present This book on the other hand takes a more balanced more positive view This view is based on a study of changes in China s institutions for coping with critical crises in governance since 1978 These changes include better management of leadership succession better crisis management improved social welfare the management of society through treating different social groups differently depending on their potential to rival the Party state and a variety of limited intra party and grassroots democracy This book applies to the Chinese model the term pragmatic authoritarianism It explains changes to and the likely future direction of China s governance model It compares current risks in China s governance with threats that terminated dynasties and the republic in China over the past four thousand years and concludes that the regime can be expected to survive a considerable period despite its existing flaws Few topics in Chinese politics are as significant as the nature state and prospects of the political regime While the topic had been unduly understudied for a long period of time a young generation of scholars has emerged on this subject Among others the book by Hongyi Lai stands out and provides a comprehensive and penetrating analysis on this topic I am confident that his book will make a significant contribution to the study of Chinese politics and may well define the debate on China s political development governance and model for years to come Yongnian Zheng Director East Asian Institute National University of Singapore *China's Mongols at University* Zhenzhou Zhao, Wing On Lee, 2010-04-09 Minority students in China often receive preferential treatment for access to universities However very little is known about minority student experiences and perceptions on campus after they are accorded what s called meaningful access to university The Mongols emerged as a distinct ethnic group in China starting in the 11th century and in the centuries that followed conquered a large part of the world However in modern times this nomadic people s influence has declined and even their survival in China has been

threatened This decline is evidenced by the fact that increasing numbers of Mongols have abandoned their native language and traditional customs especially those who live in cities How do Mongol university students who form the backbone of the Mongol intellectual community identify themselves in a modern Chinese context How do they react as university students to the way in which their culture is recognized and represented Do Mongol students suffer from injustice in the cultural dimension of campus life China's Mongols at University Contesting Cultural Recognition seeks to answer these questions Zhenzhou Zhao addresses these issues by comparing the university discourse on minority culture policy institutional structure and daily life and the Mongol student discourse concerning their experiences perceptions of recognition and dedication to self representation on campus Additionally Gao compares three universities in China Located in Inner Mongolia Autonomous Region Beijing and Hubei Province respectively each of these universities represents one of three types of higher education accessible to minority students in China universities located in ethnic areas standard universities and universities for nationalities China's Mongols at University explores and discusses an intrinsic connection between marketization and globalization and the disadvantages faced by minority groups This book argues that China must move from a policy of preferential treatment

A Genetic Perspective on Asian Populations Wibhu Kutanan, Piya Changmai, Chuan-Chao Wang, 2022-06-30

Xinjiang - China's Northwest Frontier K. Warikoo, 2016-03-02 Xinjiang is the pivot of Asia where the frontiers of China Tibet India Afghanistan Pakistan and Central Asia approach each other The growing Uyghur demand for a separate homeland and continuing violence in Xinjiang have brought this region into the focus of national and international attention With Xinjiang becoming the hub of trans Asian trade and traffic and also due to its rich energy resources Uyghur Muslims of Xinjiang are poised to assert their ethno political position thereby posing serious challenge to China's authority in the region This book offers a new perspective on the region with a focus on social economic and political developments in Xinjiang in modern and contemporary times Drawing on detailed analyses by experts on Xinjiang from India Central Asia Russia Taiwan and China this book presents a coherent concise and rich analysis of ethnic relations Uyghur resistance China's policy in Xinjiang and its economic relations with its Central Asian neighbours It is of interest to those studying in Chinese and Central Asian politics and society International Relations and Security Studies

An Ethnohistorical Dictionary of China James S. Olson, 1998-02-24 Since Deng Xiaoping's economic reforms began in the early 1980s the People's Republic of China has rejoined global politics as a world power The country is likely to become more open and its internal politics will no doubt affect the rest of the world With more than 1.2 billion people divided into hundreds of ethnic groups all dominated by the Han people China's politics and its foreign policy are bound to be affected by ethnicity and ethnic rivalry This book is designed to give librarians students scholars and educated readers a ready reference for background information of interpreting ethnic events in China Generally defining ethnicity in terms of language this book provides individual essays on hundreds of Chinese ethnic groups including ethnic groups living in the Republic of China on Taiwan The book also includes

a chronology bibliography and a breakdown of the People's Republic of China's ethnic political subdivisions

Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures Helaine

Selin, 2013-11-11 The Encyclopaedia fills a gap in both the history of science and in cultural studies. Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works. The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures' science. Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas. The Western academic divisions of science, technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected. This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity. The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today. There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does. xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa. General History Of China's Foreign Trade, A (Volume 1) Yuqin Sun, Xu

Chang, 2024-02-08 China boasts a long history of foreign trade. As early as the pre-Qin period residents of the country began to ship silk and other merchandise on outbound voyages. From the 2nd century BCE on China has been connected to the rest of the world via the Overland Silk Road and the Maritime Silk Road initiated in the reign of Emperor Wu of the Western Han Dynasty. Trade relations between China and other regions in the world have been developing gradually and continuously. Trade has contributed to deepening economic and cultural exchanges between China and other countries. While benefiting the whole of humankind, Chinese civilization has also absorbed the achievements of other civilizations, allowing China and other countries to experience mutual benefits and advance together. This is the first volume in a series of books retelling the arduous development of China's foreign trade. It covers ancient times recording China's foreign trade from the pre-Qin period to the early period of the Qing Dynasty. **China's Minority Cultures** Colin Mackerras, 1995 This text covers the period of the Republic of China and the People's Republic of China since 1912, focusing on four aspects of culture: religion, education, family, and gender, and literature and theatre.

Ethnic China Xiaobing Li, Patrick Fuliang Shan, 2015-10-16 There are some serious concerns and critical questions about the on-going minority protesting in China, such as Tibetan monks' self-immolations, Muslims' suicide bombings and Uyghur large-scale demonstrations. Why are minorities such as the Uyghur dissatisfied when China is rising as a world power? What kind of struggle must they go through to maintain their identity, heritage and rights? How does the government deal with this ethnic dissatisfaction and minority riots? And what is ethnic China's future in the 21st century? *Ethnic China* examines these issues from the perspective of Chinese American scholars.

from fields such as economics political science criminal justice law anthropology sociology and education The contributors introduce and explore the theory and practice of policy patterns political systems and social institutions by identifying key issues in Chinese government society and ethnic community contained within the larger framework of the international sphere Their endeavors move beyond the existing scholarship and seek to spark new debates and proposed solutions while reflecting on established schools of history religion linguistics and gender studies

Islam in Traditional China Donald Daniel Leslie, Yang Daye, Ahmed Youssef, 2023-05-31 This bibliography lists primary and secondary works on Islam in traditional China concentrating on two main topics Muslims and Islam in China mutual knowledge by Muslims both inside and outside China of China and non Muslim Chinese of Islam and Muslims both inside and outside China The main items are provided with subheadings and short annotations and are evaluated by the authors Donald David Leslie has previously published a comprehensive bibliography on Jews and Judaism in Traditional China in the Monumenta Serica Monograph Series vol 44 1998

China's Tibet Policy Dawa Norbu, 2001-09-27 This major study analyses the traditional modes of Sino Tibetan relations in order to unearth general patterns beyond partisan points of view It sheds light on contemporary issues in the Sino Tibetan dialogue and discerns possible future structures for conflict resolution in occupied Tibet With its economic reforms China is changing and will ch

Animated Encounters Daisy Yan Du, 2019-02-28 China's role in the history of world animation has been trivialized or largely forgotten In *Animated Encounters* Daisy Yan Du addresses this omission in her study of Chinese animation and its engagement with international forces during its formative period the 1940s 1970s She introduces readers to transnational movements in early Chinese animation tracing the involvement of Japanese Soviet American Taiwanese and China's ethnic minorities at socio historical or representational levels in animated filmmaking in China Du argues that Chinese animation was international almost from its inception and that such border crossing exchanges helped make it Chinese and subsequently transform the history of world animation She highlights animated encounters and entanglements to provide an alternative to current studies of the subject characterized by a preoccupation with essentialist ideas of Chineseness and further questions the long held belief that the forty year period in question was a time of cultural isolationism for China due to constant wars and revolutions China's socialist era known for the pervasiveness of its political propaganda and suppression of the arts unexpectedly witnessed a golden age of animation Socialist collectivism reinforced by totalitarian politics and centralized state control allowed Chinese animation to prosper and flourish artistically In addition the double marginality of animation a minor art form for children coupled with its disarming qualities and intrinsic malleability and mobility granted animators and producers the double power to play with politics and transgress ideological and geographical borders while surviving censorship both at home and abroad A captivating and enlightening history *Animated Encounters* will attract scholars and students of world film and animation studies children's culture and modern Chinese history
