Guaranteed Solutions Paramahansa Nithyananda, Swami Nithyananda, 2006-05 **EVOLVE OR DIE** David KING, 2020-11-08 Success in life involves not just about doing the right things but also not doing the wrong things Doing the right things alone will not guarantee success because if you are doing the right things and also doing some wrongs things the effects of the two will end up cancelling each other out and such person could end up becoming worse off Being successful require consistent actions that is being consistent in doing a series of right things that will stack up to give success Successful people develop a clear mindset on their goals and what they need to do to get there they understand that without clarity there is no direction Imagine trying to travel to a destination that you have not been before and you don't know how to get there you have no plan no map and no GPS navigational system obviously any path will seem like the obvious choice to get you to your destination It is however certain that such path will not get you to the destination but to somewhere you did not desire and most likely that will not be a good destination or a preferred choice And because there is no clarity on how to get to the destination when obstacles and challenges shows up as they always do such persons with no plan of action and objective focus will quickly find every reason to quit
