Macmillan's Magazine, 1859-1907 George J. Worth, 2017-03-02 Macmillan's Magazine has long been recognized as one of the most significant of the many British literary intellectual periodicals that flourished in the second half of the nineteenth century Yet the first volume of the Wellesley Index to Victorian Periodicals 1966 pointed out that There is no study of Macmillan's Magazine and that lack has been only partially remedied in all the decades since In this work George Worth addresses five principal questions Where did Macmillan's come from and why in 1859 Who or what was the guiding spirit behind the Magazine especially in its early formative years What cluster of ideas gave it such coherence as it manifested during that period How did it and its parent firm deal with authors and juggle their periodical work and the books they produced for Macmillan and Co And what finally accounted for the palpable decline in the quality and fiscal health of Macmillan's during the last 25 years of its life and ultimately for its death Worth includes a treasure trove of original material

about the Magazine much of it drawn from unpublished manuscripts and other previously untapped primary sources

Bretherton (Classic Reprint)** Humphry Ward, 2017-05-10 Excerpt from Miss Bretherton So many criticisms not of a literary but of a personal kind have been made on this little book since its appearance that I may perhaps be allowed a few words of answer to them in the shape of a short preface to this new edition It has been supposed that because the book describes a London world which is a central and conspicuous world with interests and activities of a public and prominent kind therefore all the characters in it are drawn from real persons who may be identified if the seeker is only clever enough This charge of portraiture is constantly brought against the novelist and it is always a difficult one to meet but one may begin by pointing out that in general it implies a radical misconception of the story teller's methods of procedure Ah idea a situation is suggested to him by real life he takes traits and peculiarities About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Shakespeare in the**

Nineteenth Century Gail Marshall, 2012-02-16 An illustrated collection of new essays with valuable reference material on the performance and reception of Shakespeare's plays **Actresses on the Victorian Stage** Gail Marshall, 1998-05-07 Gail Marshall argues that the professional and personal history of the Victorian actress was largely defined by her negotiation with the sculptural metaphor and that this was authorized and determined by the Ovidian myth of Pygmalion and Galatea. Drawing on evidence of theatrical fictions, visual representations and popular culture's assimilation of the sculptural image as well as theatrical productions, she examines some of the manifestations of the sculptural metaphor on the legitimate English stage and its implications for the actress in the later nineteenth century. Within the legitimate theatre, the Galatea aesthetic positioned actresses as predominantly visual and sexual commodities whose opportunities for interpretative engagement with their plays were minimal. This dominant aesthetic was effectively challenged only at the end of the century with the advent of the New Drama and the emergence of a body of autobiographical writings by actresses. The Tide Basil Macdonald Hastings, 1913 Shakespearean Illuminations Marvin Rosenberg, 1998. Topics in this collection include discussions of acting the Big Four as well as studies on politics, language and history.
