This book provides a unique synthesis of ideas based on constructivist approaches to learning, including the importance of positive dispositions and learning communities, the nature of higher order thinking, and the relationship between methods such as guided inquiry in the sciences and balanced literacy. Picture Books for Children Mary Northrup, 2012-03-12. Disregarding the false notion that writing instruction in the primary grades needs to be mostly teacher-directed, Jennifer Jacobson shows teachers how to develop a primary writer's workshop that helps nurture independent, engaged writers. *No More I'm Done* demonstrates how to create a more productive, engaging, and rewarding writer's workshop. Jennifer guides teachers from creating a supportive classroom environment through establishing effective routines, shows teachers how to set up a writer's workshop, and provides an entire year of developmentally appropriate mini-lessons that build confidence and ultimately independence. **Empowering Families** Judy Bradbury, Susan E. Busch, 2015-04-24. The home-school connection is important to student literacy achievement. However, it can be time-consuming to develop and implement programming that keeps families engaged and involved. *Empowering Families* makes it easier to accomplish these goals. Chock-full of step-by-step plans for arranging a variety of parent/caregiver meetings and literacy booster events, the book enables educators to get families involved in their children's learning in ways that are fun and non-intimidating. By hosting these events at your school, you'll be empowering families to read aloud to their children at home, minimize the summer slide, encourage male involvement in literacy, help their children avoid homework hassles, and much, much more. Bonus: The book includes ready-to-use handouts for your events, such as announcement sheets, follow-up evaluations, and tipsheets that describe ways parents can reinforce literacy at home. These handouts are photocopyable, and the tipsheets are also available for easy download from our website at www.routledge.com. 9781138803114. Spanish versions of the tipsheets are available on our website as well. **The New York Times Practical Guide to Practically Everything, Second Edition** Amy D. Bernstein, Peter W. Object Lessons and Early Learning Sharon Shaffer, 2018-07-11. The twenty-first century is a time of change for early learning in museums, due in part to society's evolving view of childhood, from an age of innocence to understanding the robust learning that defines the first years of life. This perspective is a catalyst for international conversation and continues to raise attention and interest across society. *Object Lessons and Early Learning* leverages what is known about the cognitive

development of young children to examine the power of learning through objects in museum and heritage settings Exploring the history and modern day practice of object based learning Shaffer outlines the rationale for endorsing this approach in both formal and informal learning spaces She argues that museums as collecting institutions are learning spaces uniquely positioned to allow children to make meaning about their world through personal connections to cultural artifacts natural specimens and works of art A range of descriptive object lessons inspired by objects in museums as well as from the everyday world are presented throughout the text as examples of ways in which children can be encouraged to engage with museum collections Object Lessons and Early Learning offers insights into strategies for engaging young children as learners in museum settings and in their everyday world and as such will be essential reading for museum professionals classroom educators and students It should also be of great interest to academics and researchers engaged in the study of museums and education
