### **Words of Destiny**

Caterina Guenzi,2021-03-01 Astrologers play an important role in Indian society but there are very few studies on their social identity and professional practices Based on extensive fieldwork carried out in the city of Banaras Words of Destiny shows how the Brahmanical scholarly tradition of astral sciences jyoti sha described in Sanskrit literature and taught at universities has been adapted and reformulated to meet the needs and questions of educated middle and upper classes in urban India How to get a career promotion How to choose the most suitable field of study for children When is the best moment to move into a new house The study of astrology challenges ready made assumptions about the boundaries between science and superstition rationality and magic Rather than judging the validity of astrology as a knowledge system Caterina Guenzi explores astrological counseling as a social practice and how it works from within for both astrologers and their clients She examines the points of view of those who use astrology either as a way of earning their living or as a means through which to solve problems and make decisions concluding that because astrology combines mathematical calculations and astronomical observations with ritual practices it provides educated urban families with an idiom through which modern science and devotional Hinduism can be subsumed

**Islands in the Sky** Rose Hammond,2013-01-11 Homer provides an enormous challenge to the student the potentialities of these lengthy texts are legion and the scholarship vast The author has relied upon her knowledge of symbolic discourse to make a fresh study of the Odyssey prioritising early neighbouring religions their mythology and shamanic practice The latter

has yielded particularly rich material concerning the axis of the world axis mundi as a route to the stars and the world of the gods Man's shared experience of the night skies has also provided some remarkably consistent patterns for the geography of an Otherworld in the skies and the means to reach the gods residing there By applying world wide motifs of the soul journey the initiatory process and established points of transformation along a solar path it has been possible to recast the hero's sea voyage in cosmic terms and give a celestial homeland to the many islands visited by Odysseus and his companions The result gives a surprising twist to the meaning of the epic and reveals Homer the poet as both philosopher and student of the cosmos The wine dark sea is revealed as none other than the night sky which serves as backdrop to the hero's adventures among the stars and Ithaka itself with its many conflicts finds a place at the very centre of the known universe of Bronze Age Greece

**Symbols and Themes in Sacred Texts** Barnabas Tiburtius,2020-03-10 In this information age the need for explicit meaning in scriptures and rituals is a vital ingredient that is lacking The literal interpretations and obligatory rituals have left a void in the individual's spiritual journey and hence the increasing disappointment in organized religions There are 50 articles in this book whose contents aim to provide a deeper spiritual meaning that is conveyed through certain specific symbols and themes such as Agni or Fire Cave Cloud twice born Four beasts Dragon Trilogy Hero Charioteer Hostile brothers Inner demon East Nakedness Reincarnation Redemption Deluge Sword and Twins These common symbols and themes across many mythologies and the spiritual significance they convey are brought out so that the higher nature of man and the spiritual path one has to traverse can be indicated The very fact that man seeks a higher and more meaningful knowledge denotes that he is on a path to exploring his true nature or awake to his true self These symbols and themes cut across all dominant spiritual traditions such as Vedic Buddhist Hebraic Christian and Islamic religions Symbols and Themes in Sacred Texts contain the key to unlock the spiritual treasure hidden from humanity through literal and archaic cultural interpretations
