Having Fun With Model Trains Sally White, 2013-09-20 Model trains must be one of the oldest and most awe inspiring hobbies for both young and old These miniature trains have captured the imagination of people all over the world for many years Many model train builders spend hours of their time and do not spare any expense on pursuing this hobby It becomes all engrossing and affords many happy hours to the hobbyist There are so many models of trains coming from so many different eras that you can never run out of ideas for new projects When one project is done usually the idea for the next project is already in place I have seen the faces of children where these model trains have been exhibited They are a joy to behold They do not delight children alone but people of all ages Many model train builders have made friends all over the world because of this hobby These hobbyists are always looking for contacts where they can exchange information There is a lot of information around which makes it more interesting and of course more of a challenge There seems to be enough suppliers around where you can obtain starter kits and various parts you require The real challenge is of course when parts have to be made by you or sourced from some supplier far from your home town Once the love for model trains has bitten you you will never look back and very few people that started this hobby will stop without any good reason They will probably carry on right into old age I hope that you will thoroughly enjoy the information that I have taken great pleasure in putting together for you *American Book Publishing Record*, 2000-07

Beginner's Guide to Starting Your Own Model Train Collection (Scenery, Track Plans, and Layouts) Debbie J., 2012-02-29 ABOUT THE BOOK Model railroading is an activity that captivates people of all ages and genders There is something endlessly fascinating about trains and miniature trains are the most fascinating of all It s a great pastime that provides a creative outlet a lot of enjoyment and the camaraderie of fellow enthusiasts Model railroading is a very adult pastime that makes you feel like a kid again Best of all it s a hobby that you can enjoy as a family parents and children together It really is the world s greatest hobby Many are attracted to model railroading but don t know where to begin You may have seen the impressive layouts created by model railroad enthusiasts and worry that you don t have sufficient space or resources to create something similar Having sufficient know how to assemble track build scenes or keep electronic components in good working order may also seem like a deterrent Cost can also be a factor However you don t have to be an

expert to build your first model railway Model railroading has a very large support community It's easy to find an answer to virtually any question you may have about building and maintaining a model train collection both in person and on the Internet EXCERPT FROM THE BOOK Scale refers to the relationship between model trains and the real thing O scale used to be called 1/48 with HO scale at 1/87 but measurements have changed somewhat For the novice it's best to not get too mired in scale details Suffice it to say that O scale is the largest model train and is not very common as it requires more space than most people can allot HO scale is the most prevalent and the standard for most model railroaders having the most product selection availability N is smaller than HO and although there is a good selection many hobbyists prefer HO since N requires a higher degree of detail and ability to work with miniature parts Much depends on individual preference If you just want miles and miles of track and lots of trains going around N is great If you want to re create an elaborate scene with buildings people and geographical features HO is better If you get into model railroad building in a big way you may eventually want to explore other scales but most model train hobbyists are happiest with HO or N Buy a copy to keep reading
