Nachalnaia Letopis:

A History of Russian Law Ferdinand J.M. Feldbrugge, 2017-10-02 The beginnings of Russian law are documented by the Russo Byzantine treaties of the 10th century and the oldest Russian law the Russkaia Pravda The tempestuous developments of the following centuries the incessant wars among the princes the Mongol invasion the rise of the Novgorod republic all left their marks on the legal system until the princes of Muscovy succeeded in reuniting the country This resulted in the creation of major legislative monuments such as the Codes of Ivan the Great of 1497 and of Ivan the Terrible of 1550 After the Time of Troubles the Council Code of the second Romanov Tsar Aleksei of 1649 became the starting point for the comprehensive Russian codification of the 19th century The next period of Russian legal history is the subject of vol 70 of *Law in Eastern Europe A History of Russian Law From the Council Code Ulozhenie of Tsar Aleksei Mikhailovich of 1649 to the Bolshevik Revolution of 1917* Brill Nijhoff 2023 *The Law's Beginnings* Ferdinand J.M. Feldbrugge, 2021-09-13 Law as we know it with its rules and rituals its procedures and professionals has not been around forever It came into being it emerged at different places and different times Sources which allow us to observe the processes of law s beginnings have survived in some cases In this book scholars from various disciplines linguists lawyers historians anthropologists present their findings concerning the earliest legal systems of a great variety of peoples and civilizations from Mesopotamia and Ancient India to Greece and Rome from the early Germanic Celtic and Slavic nations but also from other parts of the world The general picture is complemented by an investigation into the Indo European roots of a number of ancient legal systems contributions from the point of view of legal philosophy and theory and an overview of the insights gained *Planting Parliaments in Eurasia, 1850–1950* Ivan Sablin, Egas Moniz Bandeira, 2021-05-30 Parliaments are often seen as Western European and North American institutions and their establishment in other parts of the world as a derivative and mostly defective process This book challenges such Eurocentric visions by retracing the evolution of modern institutions of collective decision making in Eurasia Breaching the divide between different area studies the book provides nine case studies covering the area between the eastern edge of Asia and Eastern Europe including the former Russian Ottoman Qing and Japanese Empires as well as their successor states In particular it explores the appeals to concepts of parliamentarism deliberative decision making and constitutionalism historical practices related to parliamentarism and political mythologies across Eurasia It focuses on the historical and reestablished institutions of decision making which consciously hark back to indigenous traditions and adapt them to the changing circumstances in imperial and postimperial contexts Thereby the book explains how representative institutions were needed for the establishment of modernized empires or postimperial states but at the same time offered a connection to the past The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780367691271> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 licence *Russian Law* Ferdinand J.M. Feldbrugge, 2023-07-03 This is the first treatise on Russia s new legal system as it emerged from the

dissolution of the Soviet Union The first part of the book analyses in detail the political and economic origins of perestroika indispensable for understanding the basic parameters of the evolution of Russian law In the following chapters all major legal subjects are discussed against the background of their Soviet past and as the result of the radical changes in the political social and economic make up of the country The appendices include the texts of the U S S R and Russian Constitutions the Agreement of Minsk The Russian Federation Treaty bibliographical sources and extensive indices of Soviet and Russian legislation The book has been written for legal practitioners comparative lawyers and students of Russian law but will also be of interest to a wider audience of political scientists journalists etc A History of Vodka Вильям Васильевич

Похлебкин,1992-12-17 With formidable scholarship and considerable dry wit William Pokhlebkin one of Russia's best known historians sets out on the detective trail His aim to reveal the strange truth about his country's most famous tippable The result is a triumph of historical deduction *The Liturgical Past in Byzantium and Early Rus* Sean Griffin,2019-08-15 The first

major study of the relationship between liturgy and historiography in early medieval Rus **The Oxford History of Historical Writing** Daniel R. Woolf,Andrew Feldherr,Grant Hardy,2011 A collection of essays from leading historians which explores the ways in which history was written in Europe and Asia between 400 and 1400 The Oxford History of

Historical Writing Sarah Foot,Chase F. Robinson,2012-10-25 How was history written in Europe and Asia between 400 1400 How was the past understood in religious social and political terms And in what ways does the diversity of historical writing in this period mask underlying commonalities in narrating the past The volume which assembles 28 contributions from leading historians tackles these and other questions Part I provides comprehensive overviews of the development of historical writing in societies that range from the Korean Peninsula to north west Europe which together highlight regional and cultural distinctiveness Part II complements the first part by taking a thematic and comparative approach it includes essays on genre warfare and religion amongst others which address common concerns of historians working in this liminal period before the globalizing forces of the early modern world *Law in Medieval Russia* Ferdinand Joseph Maria

Feldbrugge,2009 Much of what we know about the colourful Russian middle ages comes from legal sources the treaties of Russian Scandinavian warlords with the Byzantine emperors the gradual penetration of Christianity and Byzantine institutions the endless game of war and peace among the numerous regional princes the activities of Hanseatic merchants in the wealthy city republic of Novgorod the curious relationships between the Mongol conquerors and Russian rulers and church dignitaries etc And at the even further fringes of medieval Europe there were the Christian kingdoms of Armenia and Georgia squeezed between the Islamic empires of Iran and Turkey but each possessing their elaborate and original legal systems A discussion of more general questions of legal history and legal anthropology precedes the treatment of these various topics **International and National Law in Russia and Eastern Europe** Ferdinand J.M. Feldbrugge,Roger

Clark,Stanislaw Pomorski,2021-11-22 The disappearance of the USSR as a superpower to be replaced by the Russian

Federation and a host of new states has had wide ranging consequences in the field of law The establishment of market economies and the need to set up institutional frameworks to foster the rule of law have precipitated comprehensive domestic law reforms in the countries concerned The major focus of the present work however is on the metamorphosis of the network of international law relations brought about by the fundamental change in the political and constitutional climate and the emergence of numerous new actors Apart from the relations between states as the classical province of international law the impact of international law on national legal orders has acquired overwhelming importance and the successor states of the Soviet Union have not escaped the effect of this development Some of the most urgent questions thrown up by these developments are analyzed by a team of leading legal specialists from the Russian Federation North America and Western Europe

Boris Eikhenbaum Carol Joyce Any, 1994 This is the first book length study of Boris Eikhenbaum 1886 1959 a leading Russian Formalist and a pathbreaking Tolstoy scholar The author carefully traces Eikhenbaum s intellectual trajectory from his pre Formalist philosophical criticism through Formalism to his later biographical criticism of Tolstoy and Lermontov Eikhenbaum s contribution to Formalism has not heretofore received clear definition and the author shows that his ideas and influence were even greater than previously supposed His shift away from Formalism with its emphasis on purely literary analysis toward a criticism that emphasized the writer as a cultural figure is seen as a response to both political exigency and personal need Although by the late 1910 s Formalism had become poetics non grata in the Soviet Union the author demonstrates that Eikhenbaum also had compelling intellectual reasons to move away from Formalism which had reached a dead end The author asserts that Eikhenbaum prolonged his scholarly life by concentrating on nineteenth century Russian authors whose moral opposition to mainstream Russian intellectual thought served as a model for his own ethical stance in Stalin s Russia This is particularly true of his monumental three volume work on Tolstoy which in its own way has been as influential as his Formalist writings Throughout the author relates Eikhenbaum s critical thinking to such current literary issues as intention perception meaning reader reception deconstruction and the New Historicism
