**Russia's Recognition of the Independence of Abkhazia and South Ossetia** Nikoloz Samkharadze,2021-05-18 The Russian Federation s official acknowledgement of the independence of Abkhazia and South Ossetia in August 2008 has since been undermining both overall political stability in the Southern Caucasus in general and future perspectives of Georgia s development in particular Such recognition of new quasi legal entities without consent of the parent state and a subsequent erosion of the principle of territorial integrity are pressing challenges in current world affairs The Kremlin s controversial 2008 decision continues to be an important bone of

contention in Russian Western relations This study explores the emergence and recent transformation of modern norms of recognition secession and self determination in international law It traces the evolution of Soviet and Russian perspectives on the recognition of new states and discusses overall Georgia Russia relations in order to answer the question Why did the Kremlin recognize Georgia s two breakaway entities in contradiction to traditional Russian approaches to recognition The author argues that Moscow s deviant behavior vis vis Tbilisi was caused by three major reasons namely the earlier recognition of Kosovo by many Western nations in disregard of Russia s stance the intention to prevent Georgia s accession to NATO and the necessity to legitimize a continued presence of Russian armed forces in Georgia s two breakaway provinces

The Famine of 1896-1897 in Bengal Malabika Chakrabarti,2004 This book is a focussed treatment of a famine both as an event and a process It is a close up of a peasant economy in the throes of a crisis which temporarily eroded the value system determining the normal pattern of entitlements An investigation of the socio economic ecological and cultural determinants of the famine helps evolve a coherent framework The emphasis is on the distinctive problems of the various economic regions most notably the tribal belts Chakrabarti applies Amartya Sen s theory of exchange entitlements to a nineteenth century famine situation in Bengal and finds that a market based entitlement failure precipitating severe famine conditions even without receiving any impulse from food production has little relevance here Though the book underlines the predicament of the subalterns the famine is not seen from the viewpoint of any specific group or community The focus is rather on the phenomenon of famine in its totality on the agony and trauma of a peasant society thrown out of gear in an abnormal situation and the crisis of identities that ensued

**Films of Arab Loutfi and Heiny Srour** Terri Ginsberg,2021-11-15 This book places long overdue focus on the Palestine solidarity films of two important Arab women directors whose cinematic works have never received due attention within the scholarly literature or the cultural public sphere Through an analysis that situates these largely overlooked films within the matrix of an anti Zionist critique of cinematic ontology this book offers a materialist feminist appreciation of their political aesthetics while critiquing the ideological enabling conditions of their academic absencing The study of these daring films fosters a much needed sustained understanding of the meaning and significance of Palestine solidarity filmmaking for and within the Arab world
