book format Creatures of Cain Erika Lorraine Milam, 2018-12-11 How Cold War America came to attribute human evolutionary success to our species unique capacity for murder After World War II the question of how to define a universal human nature took on new urgency *Creatures of Cain* charts the rise and precipitous fall in Cold War America of a theory that attributed man's evolutionary success to his unique capacity for murder Drawing on a wealth of archival materials and in depth interviews Erika Lorraine Milam reveals how the scientists who advanced this killer ape theory capitalized on an expanding postwar market in intellectual paperbacks and widespread faith in the power of science to solve humanity's problems even to answer the most fundamental questions of human identity The killer ape theory spread quickly from colloquial science publications to late night television classrooms political debates and Hollywood films Behind the scenes however scientists were sharply divided their disagreements centering squarely on questions of race and gender Then in the 1970s the theory unraveled altogether when primatologists discovered that chimpanzees also kill members of their own species While the discovery brought an end to definitions of human exceptionalism delineated by violence Milam shows how some evolutionists began to argue for a shared chimpanzee human history of aggression even as other scientists discredited such theories as sloppy popularizations A wide ranging account of a compelling episode in American science *Creatures of Cain* argues that the legacy of the killer ape persists today in the conviction that science can resolve the essential dilemmas of human nature The Pastoral Nature of Theology R. John Elford, 2000-03-01 Classifying pastoral care as an applied theology suggests that it stems from a separate and pure theology In this new volume R John Elford contends that pastoral concerns and actions are not products of theology but in fact are the catalysts that prompt and necessitate it Elford offers a detailed critical analysis of the relationship between theology and pastoral care and compares how different faith traditions understand the pastoral He traces how shifting historical circumstances and perceptions of pastoral need spurred changes in theological understanding and he asserts the need for these traditions to be in conversation with modern culture In closing *The Pastoral Nature of Theology* considers the role of morality in pastoral care and how contemporary issues often bring about profound theological problems *Lu Xun and Evolution* James Reeve Pusey, 1998-01-29 Lu Xun 1881-1936 China's greatest modern writer remains important today both as an official icon and a patron saint of dissent This book deals with Lu Xun's struggle to make sense of the Darwinian Revolution It illuminates not only Lu Xun's thought but also the current crisis in Chinese thought caused by the loss of faith in Marxism
