Naked Face:

The Naked Face Sidney Sheldon,1971 The Naked Face Vivien Margaret Gaston,2010-01-01 A groundbreaking interpretation of self portrait illustrating six key ideas about the human persona identity performance myth and psyche scrutiny empathy and touch and trace *The Amazon* Roger Harris,Peter Hutchison,2007 This new edition has been completely revised with updated information on hotels lodges and tour operators It contains a detailed and illustrated natural history section on native species and habitats The Amazon is an ideal location for eco travellers naturalists sports enthusiasts and explorers Travellers are given sound advice on responsible travel and planning their own expedition The Divine Face in Four Writers Maurice Hunt,2017-06-29 A comparative study that explores the influence of Christian and Classical ideas about the divine face in the writing of four major writers in Western literature **Postmodernism and Japan** 田中重雄
田中重雄,Harry Harootunian,1989-07-27 Postmodernism and Japan is a coherent yet diverse study of the dynamics of postmodernism as described by Lyotard Baudrillard Deleuze and Guatarri from the often startling perspective of a society bent on transforming itself into the image of Western enlightenment wealth and power This work provides a unique view of a society in transition and confronting like its models in the West the problems induced by the introduction of new forms of knowledge modes of production and social relationships **The Mystery of Everyday Life** Andrew W. Metcalfe,Ann Game,2002 This remarkable book takes a fresh look at life as a process not an end encouraging readers to look for the meaning of life not in terms of achievement or others opinions but in the everyday joys of living From the Preface It is easy to become attached to goals Goals promise certainty and the anxiety they induce only makes their achievement seem more meritorious The trouble is that goals even worthy ones remove our sense of proportion and our sensitivity to what is happening around us It sometimes takes a fall to bring us back into the present Where have I been What have I been doing all my life We awaken to the world as if for the first time We have written this book out of an increasing sense of the importance of these moments Once you recognise life as a gift rather than an achievement you realise that meaning in life is found only in the vitality of the social relations in which we participate Comparative Physiognomy James W. Redfield,1852 *Ethics After Poststructuralism* Lee Olsen,Brendan Johnston,Ann Keniston,2020-03-24 The present era of economic devastation legacies of colonization and imperialism climate change and habitat loss calls for a new understanding of ethics These essays on otherness responsibility and hospitality raise urgent questions Contributors range from the prominent including Levinas Michel Foucault Jacques Derrida and Giorgio Agamben to recent theorists such as Judith Butler Enrique Dussell and Rosi Braidotti The essays emphasize the always vulnerable status of a radically different Other even as they question what responsibility to that Other might mean **Signature Derrida** Jacques Derrida,2013-04-11 Throughout his long career Jacques Derrida had a close collaborative relationship with Critical Inquiry and its editors He saved some of his most important essays for the journal and he relished the ensuing arguments and polemics that stemmed from the responses to his

writing that Critical Inquiry encouraged Collecting the best of Derrida's work that was published in the journal between 1980 and 2002 Signature Derrida provides a remarkable introduction to the philosopher and the evolution of his thought These essays define three significant periods in Derrida's writing his early seemingly revolutionary phase a middle stage often autobiographical that included spirited defense of his work and his late period when his persona as a public intellectual was prominent and he wrote on topics such as animals and religion The first period is represented by essays like The Law of Genre in which Derrida produces a kind of phenomenological narratology Another essay The Linguistic Circle of Geneva embodies the second presenting deconstructionism at its best Derrida shows that what was imagined to be an epistemological break in the study of linguistics was actually a repetition of earlier concepts The final period of Derrida's writing includes the essays Of Spirit and The Animal That Therefore I Am More to Follow and three eulogies to the intellectual legacies of Michel Foucault Louis Marin and Emmanuel Levinas in which Derrida uses the ideas of each thinker to push forward the implications of their theories With an introduction by Françoise Meltzer that provides an overview of the oeuvre of this singular philosopher Signature Derrida is the most wide ranging and thus most representative anthology of Derrida's work to date

Maternal Ethics and Other Slave Moralities Cynthia Willett, 2013-12-19 In *Maternal Ethics and Other Slave Moralities* which includes the first extended philosophical discussion of the works of Frederick Douglass Cynthia Willett puts forward a novel theory of ethical subjectivity that is aimed to counter prevailing pathologies of sexist racist Eurocentric culture Weaving together accounts of the self drawn from African American and European philosophies psychoanalysis slave narratives and sociology Willett interrogates what Hegel locates as the core of the self the desire for

The Naked Face Lailan Young, 1994 **Cinematic Interfaces** Seung-hoon Jeong, 2013-07-11 In this book Seung-hoon Jeong introduces the cinematic interface as a contact surface that mediates between image and subject proposing that this mediation be understood not simply as transparent and efficient but rather as asymmetrical ambivalent immanent and multidirectional Jeong enlists the new media term interface to bring to film theory a synthetic notion of interfaciality as underlying the multifaceted nature of both the image and subjectivity Drawing on a range of films Jeong examines cinematic interfaces seen on screen and the spectator's experience of them including the direct appearance of a camera filmstrip screen the character's bodily contact with such a medium interface the object's surface and the subject's face as quasi interface and the image itself Each of these case studies serves as a platform for remapping and revamping major concepts in film studies such as suture embodiment illusion signification and indexicality Looking to such theories as the ontology of the image and the phenomenology of the body this original theorization of the cinematic interface not only offers a conceptual framework for rethinking and re-linking film and media studies but also suggests a general theory of the interface
