# Nam June Paik Award 2002

**R Bogdan**

## **Nam June Paik Award 2002:**

The Politics of the Impure Joke Brouwer, Arjen Mulder, Lars Spuybroek, 2010 Summary It is crucial to understand that our progression through the twentieth century towards our contemporary global Crystal Palace Peter Sloterdijk of purity and transparency has been constantly accompanied by an almost physical desire for the pure not just Mondrian's crystalline structures but also the addictive taste of white sugar and white bread This book investigates this urge for the pure but also advocates a much deeper need for the impure not to reinstate a new organicism one more back to nature movement but to trace that progression to a point where all modernist values reverse where technology becomes an agent for the impure and the imperfect Technology long an agent for homogeneity and purity is now turning into one for heterogeneity and global contingency

**MediaArtHistories** Oliver Grau, 2010-08-13 Leading scholars take a wider view of new media placing it in the context of art history and acknowledging the necessity of an interdisciplinary approach in new media art studies and practice Digital art has become a major contemporary art form but it has yet to achieve acceptance from mainstream cultural institutions it is rarely collected and seldom included in the study of art history or other academic disciplines In MediaArtHistories leading scholars seek to change this They take a wider view of media art placing it against the backdrop of art history Their essays demonstrate that today's media art cannot be understood by technological details alone it cannot be understood without its history and it must be understood in proximity to other disciplines film cultural and media studies computer science philosophy and sciences dealing with images Contributors trace the evolution of digital art from thirteenth century Islamic mechanical devices and eighteenth century phantasmagoria magic lanterns and other multimedia illusions to Marcel Duchamp's inventions and 1960s kinetic and op art They reexamine and redefine key media art theory terms machine media exhibition and consider the blurred dividing lines between art products and consumer products and between art images and science images Finally MediaArtHistories offers an approach for an interdisciplinary expanded image science which needs the trained eye of art history Contributors Rudolph Arnheim Andreas Broeckmann Ron Burnett Edmond Couchot Sean Cubitt Dieter Daniels Felice Frankel Oliver Grau Erkki Huhtamo Douglas Kahn Ryszard W Kluszczyński Machiko Kusahara Timothy Lenoir Lev Manovich W J T Mitchell Gunalan Nadarajan Christiane Paul Louise Poissant Edward A Shanken Barbara Maria Stafford and Peter Weibel
