Adelaide Hahn, 1931      Indo-European Linguistics Michael Meier-Brügger, 2013-02-06 This Textbook on Indo European Linguistics is designed as an introduction to the field It presents current topics and questions in Indo European linguistics in a clear and informative manner This is the English translation of the eight edition of the work first published by Hans Krahe and it takes account of more recent research While Krahe only considered phonology and morphology the edition also includes a comprehensive account of syntax and lexis Manfred Mayrhofer assisted with the section of phonology Matthias Fritz wrote the section on syntax and provided support for the project as a whole      Historical, Indo-European, and Lexicographical Studies Hans H. Hock, 2011-06-24

TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing      Nominal Apposition in Indo-European Brigitte L. M.

Bauer, 2017-05-08 Nominal apposition the combining of two equivalent nouns has been a neglected topic in linguistics despite its prominence in syntax and morphology in some languages This book presents an extensive comparative and diachronic analysis of nominal apposition in Indo European examining its occurrence characteristics and functions in early languages identifying parallels with similar phenomena elsewhere and tracing its evolution in Latin Romance      *Synchrony and Diachrony of Ancient Greek* Georgios K. Giannakis, Luz Conti, Jesús de la Villa, Raquel Fornieles, 2021-01-18 This collective volume contains thirty six original studies on various aspects of Ancient Greek language linguistics and philology written by an international group of leading authorities in the field The essays are organized in five thematic groups covering a wide variety of issues of ancient Greek linguistics ranging from epigraphy and the study of individual dialects to various other aspects of the structure of the language such as phonetics and phonology morphology lexicon and word formation etymology metrics as well as many syntactic matters and problems of pragmatics and stylistics of the language a number of essays move in the middle ground where language linguistics and philology crosscut and cross fertilize each other with the application of linguistic theory to the study of classical texts The work is of special relevance to scholars interested in Greek linguistics in

general and in particular aspects of the Greek language
