**The Federated States of Micronesia's Engagement with the Outside World**

Gonzaga Puas, 2021-09-28 This study addresses the neglected history of the people of the Federated States of Micronesia s FSM engagement with the outside world Situated in the northwest Pacific FSM s strategic location has led to four colonial rulers Histories of FSM to date have been largely written by sympathetic outsiders Indigenous perspectives of FSM history have been largely absent from the main corpus of historical literature A new generation of Micronesian scholars are starting to write their own history from Micronesian perspectives and using Micronesian forms of history This book argues that Micronesians have been dealing successfully with the outside world throughout the colonial era in ways colonial authorities were often unaware of This argument is sustained by examination of oral histories secondary

sources interviews field research and the personal experience of a person raised in the Mortlock Islands of Chuuk State It reconstructs how Micronesian internal processes for social stability and mutual support endured rather than succumbing to the different waves of colonisation This study argues that colonisation did not destroy Micronesian cultures and identities but that Micronesians recontextualised the changing conditions to suit their own circumstances Their success rested on the indigenous doctrines of adaptation assimilation and accommodation deeply rooted in the kinship doctrine of eaea fengen sharing and alilis fengen assisting each other These values pervade the Constitution of the FSM which formally defines the modern identity of its indigenous peoples reasserting and perpetuating Micronesian values and future continuity Global education monitoring report, 2020 UNESCO, Global Education Monitoring Report Team, 2020-06-23 This publication assesses progress towards Sustainable Development Goal 4 SDG 4 on education and its ten targets as well as other related education targets in the SDG agenda It addresses inclusion in education drawing attention to all those excluded from education because of background or ability The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4 the global goal for education It reminds us that no matter what argument may be built to the contrary we have a moral imperative to ensure every child has a right to an appropriate education of high quality

Emergent Masculinities in the Pacific Aletta Biersack, Martha Macintyre, 2018-10-11 Emergent Masculinities in the Pacific focuses on the plasticity and contingent nature of Pacific Island masculinities over the course of colonial and postcolonial histories The several case histories concern the use of sports to recuperate but also refashion past masculinities in the name of contemporary masculine pride the effects of market participation on younger males how urbanisation and migration set the stage for experimenting with male gender and sexuality the impacts of military and labour histories on local masculinities masculinity and violence in war and gender violence and structural violence and disruptions in male gender identity Depicting contemporary Pacific Island societies as a space of gender invention and pluralism as indigenous gender regimes respond to the stimulations of transnational flows the book asks a key historical question Do emergent masculinities signal a rupture or some continuity with past masculinities This book was originally published as a special double issue of The Asia Pacific Journal of Anthropology Martial Arts of the World Thomas A. **Change and Continuity in the Pacific** John Connell, Helen Lee, 2018-04-09. Thousands of studies have been conducted by social scientists in the villages and islands and increasingly in the towns of the Pacific. Despite this there are few longitudinal studies of any great depth and sophistication in the region. The contributors to this book have all conducted long term research in the islands of the Pacific. During their visits and revisits they have witnessed first hand the many changes that have occurred in their fieldsites as well as observing elements of continuity. They bring to their accounts a sense of their surprise at some of the unexpected elements of stability and of transformation. The authors take a range of disciplinary approaches particularly geography and anthropology and their contributions reflect their deep knowledge of Pacific places some first visited more than 40 years ago. Many of the chapters focus on aspects of socio economic change and continuity while others focus on specific issues such as the impact of both internal and international migration political and cultural change technological innovation and the experiences of children and youth. By focusing on both change and continuity this collection of 11 case studies shows the complex relationships between Pacific societies and processes of modernity and globalisation. By using a long term lens on particular places the authors are able to draw out the subtleties of change and its impacts while also paying attention to what in the contemporary Pacific has been left remarkably unchanged. Filling a gap in the studies of the Pacific region this book will appeal to an interdisciplinary audience in the fields of anthropology development geography and Asia Pacific studies.

*Islands at Risk?* John Connell, 2013. This book provides a wide ranging comparative analysis of contemporary economic social political and environmental change in small islands island states and territories through every ocean. It focuses on those island realms conventionally perceived as developing rather than developed in the Caribbean Pacific and Indian Oceans. John Connell examines the decline of agriculture and the rise of tourism the problems of urbanization and the particular role of migration and remittances within a culture of migration. He seeks to balance economic challenges with environmental threats notably that of climate change and social changes with the survival of culture pointing to awkward and hybrid

development futures This unique study comprehensively balances environmental social and economic changes to provide a more wide ranging assessment of sustainability that will be invaluable for academics and postgraduate students on environment and international development courses Muslim Youth Colette Harris,2018-04-27 This book presents a compelling ethnography of the changes Tajikistan faces at the turn of the twenty first century as seen through the eyes of its youth It discusses the ethnographic gaze on the tremendous cultural changes being played out in post Soviet Tajikistan

**The Lao** Carol Ireson-Doolittle,2019-05-20 The Lao discusses culture and village life in Laos exploring topics of kinship and family gender relations households religion livelihood strategies and ethnicity In particular it highlights the effects of recent development projects on the relative power of men and women in rural Lao society and the responses of women to those changes I **Magical Writing In Salasaca** Peter Wogan,2018-04-27 This book demonstrates that the beliefs about writing reflect extensive contact with birth certificates baptism records and other church and state documents It reviews

**The SAGE Handbook of Qualitative Research** Norman K. Denzin (ed),Yvonna S. Lincoln,2005 A thoroughly revised updated edition this volume includes new chapters on auto ethnography critical race theory queer theory testimonies **No Family Is an Island** Ilana Gershon,2012-05-08 Government bureaucracies across the globe have become increasingly attuned in recent years to cultural diversity within their populations Using culture as a category to process people and dispense services however can create its own problems and unintended consequences In No Family Is an Island a comparative ethnography of Samoan migrants living in the United States and New Zealand Ilana Gershon investigates how and when the categories cultural and acultural become relevant for Samoans as they encounter cultural differences in churches ritual exchanges welfare offices and community based organizations In both New Zealand and the United States Samoan migrants are minor minorities in an ethnic constellation dominated by other minority groups As a result they often find themselves in contexts where the challenge is not to establish the terms of the debate but to rewrite them To navigate complicated and often unyielding bureaucracies they must become skilled in what Gershon calls reflexive engagement with the multiple social orders they inhabit Those who are successful are able to parlay their own cultural expertise their Samoanness into an ability to subtly alter the institutions with which they interact in their everyday lives Just as the cultural is sometimes constrained by the forces exerted by acultural institutions so too can migrant culture reshape the bureaucracies of their new countries Theoretically sophisticated yet highly readable No Family Is an Island contributes significantly to our understanding of the modern immigrant experience of making homes abroad *Islands of Hope* Paul D'Arcy,Daya Dakasi Da-Wei Kuan,2023-05-25 In the Pacific as elsewhere indigenous communities live with the consequences of environmental mismanagement and over exploitation but rarely benefit from the short term economic profits such actions may generate within the global system National and international policy frameworks ultimately rely on local community assent Without

effective local participation and partnership these extremely imposed frameworks miss out on millennia of local observation and understanding and seldom deliver viable and sustained environmental cultural and economic benefits at the local level This collection argues that environmental sustainability indigenous political empowerment and economic viability will succeed only by taking account of distinct local contexts and cultures In this regard these Pacific indigenous case studies offer islands of hope for all communities marginalised by increasingly intrusive and increasingly rapid technological changes and by global dietary economic political and military forces with whom they have no direct contact or influence
