Mesny's Chinese Miscellany William Mesny, 1905 A text book of notes on China and the Chinese **Millard's Review of the Far East**, 1928 Vol 34 includes Special tariff conference issue Nov 6 1925 〇〇〇〇, 1905 *The Municipal Gazette*, 1908 **The Far-Eastern Review**, 1919 **The Shanghai Stars and Stripes** Alfred Emile Cornebise, 2010-03-08 This work is an account of the China edition of the U S Army's daily newspaper The Stars and Stripes which was geared toward service personnel in the China Theater of Operations at the end of World War II and published for nearly a year The book addresses Japanese repatriations war crime trials the Chinese civil war and the rise of Communism as covered by the paper and the paper's role in strengthening U S troop morale The Far Eastern Review, Engineering, Finance, Commerce, 1919

Golden Arches East James L. Watson, 2006-03-13 McDonald's restaurants are found in over 100 countries serving tens of millions of people each day What are the cultural implications of this phenomenal success The widely read and widely acclaimed *Golden Arches East* argues that McDonald's has largely become divorced from its American roots and become a local institution for an entire generation of affluent consumers in Hong Kong Beijing Taipei Seoul and Tokyo In the second edition James L. Watson also covers recent attacks on the fast food chain as a symbol of American imperialism and the company's role in the obesity controversy currently raging in the U S food industry bringing the story of East Asian franchises into the twenty first century Praise for the First Edition *Golden Arches East* is a fascinating study that explores issues of globalization by focusing on the role of McDonald's in five Asian economies and concludes that in many countries McDonald's has been absorbed by local communities and become assimilated so that it is no longer thought of as a foreign restaurant and in some ways no longer functions as one Nicholas Kristof New York Times Book Review This is an important book because it shows accurately and with subtlety how transnational culture emerges It must be read by anyone interested in globalization It is concise enough to be used for courses in anthropology and Asian studies Joseph Bosco China Journal The strength of this book is that the contributors contextualize not just the food side of McDonald's but the social and cultural activity on which this culture is embedded These are culturally rich stories from the anthropology of everyday life Paul Noguchi Journal of Asian Studies Here is the rare academic study that belongs in every library Library Journal Exotic Commodities Frank Dikötter, 2007-03-27 *Exotic Commodities* is the first book to chart the consumption and spread of foreign goods in China from the mid nineteenth century to the advent of communism in 1949 Richly illustrated and revealing this volume recounts how exotic commodities were acquired and adapted in a country commonly believed to have remained hostile toward alien things during the industrial era China was not immune to global trends that prized the modern goods of civilized nations Foreign imports were enthusiastically embraced by both the upper and lower classes and rapidly woven into the fabric of everyday life often in inventive ways Scarves skirts blouses and corsets were combined with traditional garments to create strikingly original fashions Industrially produced rice sugar wheat and canned food revolutionized local

cuisine and mass produced mirrors were hung on doorframes to ward off malignant spirits Frank Dik ter argues that ordinary people were the least inhibited in acquiring these products and therefore the most instrumental in changing the material culture of China Landscape paintings door leaves and calligraphy scrolls were happily mixed with kitschy oil paintings and modern advertisements Old and new interacted in ways that might have seemed incongruous to outsiders but were perfectly harmonious to local people This pragmatic attitude would eventually lead to China's own mass production and export of cheap modern goods which today can be found all over the world The nature of this history raises the question which Dik ter pursues in his conclusion If the key to surviving in a fast changing world is the ability to innovate could China be more in tune with modernity than Europe
