Josephine Phineas C. Headley,2001 When she married Napoleon Bonaparte in 1796 Rose de Beauharnais was a 32 year old widow who had narrowly escaped the French Revolution s guillotine She was six years older than he notorious for her lovers and unlikely to give him children but possessed of the social connections and skills the ambitious young general thought would help him rise in the revolutionary army He gave his living reverie his dream of perfect passion a new name Josephine perhaps hoping it would blot out her unsavory past Instead she continued to be promiscuous as well as extravagant and the marriage soured as Napoleon ascended to first consul and then emperor of the French Yet he divorced her only in 1810 when political events made it clear he must have an heir This highly colored biography practically wallows in Josephine s lurid personal life colored in by luscious descriptions of the period s clothes food and amusements Empress Josephine: An

Correspondence of the Emperor Napoleon and the Empress Josephine; Napoleon I Emperor of the French, 1769-1821,John S. C. Abbott,2017-10-13 Napoleon Bonaparte 15 August 1769 5 May 1821 was a French military and political leader who rose to prominence during the French Revolution and led several successful campaigns during the French Revolutionary Wars As Napoleon I he was Emperor of the French from 1804 until 1814 and again briefly in 1815 during the Hundred Days Napoleon

dominated European and global affairs for more than a decade while leading France against a series of coalitions in the Napoleonic Wars. He won most of these wars and the vast majority of his battles, building a large empire that ruled over continental Europe before its final collapse in 1815. One of the greatest commanders in history, his wars and campaigns are studied at military schools worldwide. Napoleon's political and cultural legacy has endured as one of the most celebrated and controversial leaders in human history. He was born Napoleone di Buonaparte (Italian: *napoleone di buonaparte*) in Corsica to a relatively modest family from minor Italian nobility. When the Revolution broke out in 1789, Napoleon was serving as an artillery officer in the French army. Seizing the new opportunities presented by the Revolution, he rapidly rose through the ranks of the military, becoming a general at age 24. The Directory eventually gave him command of the Army of Italy after he suppressed a revolt against the government from royalist insurgents. At age 26, he began his first military campaign against the Austrians and their Italian allies, winning virtually every battle, conquering the Italian Peninsula in a year and becoming a national hero. In 1798, he led a military expedition to Egypt that served as a springboard to political power. He engineered a coup in November 1799 and became First Consul of the Republic. His ambition and public approval inspired him to go further, and in 1804 he became the first Emperor of the French. Intractable differences with the British meant that the French were facing a Third Coalition by 1805. Napoleon shattered this coalition with decisive victories in the Ulm Campaign and a historic triumph over Russia and Austria at the Battle of Austerlitz, which led to the elimination of the thousand-year-old Holy Roman Empire. In 1806, the Fourth Coalition took up arms against him because Prussia became worried about growing French influence on the continent. Napoleon quickly defeated Prussia at the battles of Jena and Auerstedt, then marched the Grand Army deep into Eastern Europe and annihilated the Russians in June 1807 at the Battle of Friedland. France then forced the defeated nations of the Fourth Coalition to sign the Treaties of Tilsit in July 1807, bringing an uneasy peace to the continent. Tilsit signified the high watermark of the French Empire. In 1809, the Austrians and the British challenged the French again during the War of the Fifth Coalition, but Napoleon solidified his grip over Europe after triumphing at the Battle of Wagram in July. Josephine de Beauharnais (23 June 1763 – 29 May 1814) was the first wife of Napoleon I and thus the first Empress of the French, commonly called Empress Josephine or just Josephine. John Stevens Cabot Abbott (September 19, 1805 – June 17, 1877) was an American historian, pastor, and pedagogical writer, born in Brunswick, Maine, to Jacob and Betsey Abbott.
